GENERAL HEADQUARTERS  
SOUTHWEST PACIFIC AREA

CHECK SHEET

(Do not remove from attached sheets)

File No.:

Subject: Tactical Call Signs

From: 8-3, GHQ—Philippine  
Subdivision

To: C Sig. O, Attn: Radio Sect. Date: 16 July 1944

1. Inclosed for your information is a consolidated list of call signs now in use or used within the past few months by radio stations of the Allied Intelligence Bureau and United States Philippine Island Force. These calls have been allocated at random, primarily by the organization operating the radio station itself.
2. It is considered highly desirable discontinue the use of the above arbitrary call signs as soon as practicable and substitute therefor normal tactical radio calls. This procedure will permit ready identification of stations intercepted by intelligence organizations and eliminate possible confusion due to duplicate assignments.
3. It is therefore recommended that this section be allocated a block of five hundred (500) tactical call signs for reallocation to organizations in the Philippine Islands. This number is considered necessary to permit allocation of calls to all existing and proposed stations and to permit frequent changes for security purposes.
4. This request for call signs is over and above that furnished the AIB by your Check Sheet, File OP/DWH/ac dated 6 July 1944. The recent separation of the responsibility for Philippine operations from the AIB makes it highly desirable that both organization be furnished independent call sign allocations.

Adv G-2

29 October 1944

1. Information as requested relative to John B. WOOSTER as follows:

Born: 25 September 1900 in San Francisco, California.

Education: High school 1913-1917. Sunyat Sent University,  
Canton, China in 1933 studying languages.

Service: Served 18 months with guerrilla forces on NEGROS as  
1st Lieutenant.

In Philippine Islands since 1939.

2. Wooster has spent the past 22 years in the Far East. Reliable evacuees reported that he is a "dead-beat" and subject to nefarious practices. He is considered as unreliable and highly undependable. Reference is made to Philippine Evacuee Report No. 352 dated 9 August 1944.

Request for orders.

G-3

AG, USAFFE  
(Thru: AG, GINQ)

24 October 1944

1. For the performance of a secret mission approved by the C-in-C it is requested that secret letter orders be issued for the following named officer, of the organization indicated, to proceed from this headquarters to a secret location on or about 25 October 1944 and return at an indefinite date:

CAPT RICHMOND, John R. O-409767 Inf., 503rd Preht Inf Regt

2. Travel by any or all types of usual transport should be authorized.
3. Military and naval transportation outgoing has been arranged.
4. Request that orders be delivered to G-3 Operations, GINQ, APO 500.

----- S.J.C. -----

MEMORANDUM FOR RECORD:

Capt Richmond is scheduled for Lt Comdr Rowe's area to establish and coordinate with Rowe intelligence nets in the MINDORO area.

1. Herewith for your information is an up to date map of our radio, weather and air warning facilities in the Philippines.

2. Prior to the recent destructive blows against enemy air power in the Philippines we were receiving an average of fifty air warning flashes per day with an average transmission delay of less than five minutes. This speaks well for the efficiency and intelligence of our wide spread operatives. Weather information throughout the Philippines is coming in with equal accuracy and efficiency.

3. It is assured that these established facilities will render a satisfactory account of themselves in the coming operations.

From: G-2

To: G-3 Ops (Gen. Chambers)

Date: 5 Oct 1944

1. Following our conversation this A.M., the following means of disseminating PI intelligence are now in effect:

IMMEDIATE OPERATIONAL INTELLIGENCE: Movement of aircraft and shipping.

- a. Aircraft in flight are reported over the aircraft warning net, and relayed directly to fighter commands. Cincpoa has been informed of the AW frequencies, likewise Task Force 58.
- b. Shipping in the PI is reported via coast watcher system directly to D of NI, 7th Fleet, who distributes it to agencies concerned.

ROUTINE and CONFIRMATORY INTELLIGENCE: Ground movement of troops, troop dispositions, planes on the ground, shipping in ports, installations, results of air and naval actions:

- a. Air data (not including l.a. above) is abstracted from messages and sent via courier to Cincpoa, D of NI, 7th Fleet, FEAF, and 5th AF.
- b. A daily summary of PI intelligence, including all PI data less l.a. above is distributed each evening to 132 offices.
- c. 6th Army has a G-2 liaison officer with the PI Section of G-2 for the purpose of disseminating to 6th Army, by more rapid means than is now normal, such PI data as he feels would be desired by the 6th Army.

DECLASSIFIED PER JCS LTR OI

20 AUG 75

From: G-3

To: Chief of Staff

Date: 5 October 1944

1. On "A" Day, K-2 operation, our Commanders in the Philippines outside of the objective areas will require general instructions. By policy heretofore enunciated, to GHQ is reserved the control and direction of their forces. It is accordingly recommended that the following message be dispatched to FERTIG (Mindanao), CUSHING (Cebu), ABCEDE (Negros) and PERALTA (Panay) in addition to such specific instructions as may, upon the request of the Commanding General, Sixth Army, be approved:

"THE CAMPAIGN OF REOCCUPATION HAS COMMENCED PD PAREN MACARTHUR TO ALL COMMANDERS PAREN ALTHOUGH YOUR AREA IS NOT AT PRESENT WITHIN THE IMMEDIATE ZONE OF OPERATIONS IT IS DESIRED THAT YOUR FORCES BE COMMITTED TO LIMITED OFFENSIVE ACTION WITH THE SPECIFIC MISSION OF HARASSING THE MOVEMENT OF ENEMY RESERVES WITHIN YOUR AREA AND AS FAR AS POSSIBLE CONTAINING HIM TO HIS PRESENT POSITIONS PD INTELLIGENCE COVERAGE MUST BE INTENSIFIED IN ORDER THAT I BE FULLY AND PROMPTLY ADVISED OF ALL MAJOR CHANGES IN ENEMY DISPOSITIONS OR MOVEMENT PD IN THE ACCOMPLISHMENT OF YOUR TASK YOU ARE AUTHORIZED TO RECRUIT UP TO DOUBLE YOUR PRESENT STRENGTH FROM AMONG ONLY RPT ONLY CAREFULLY SELECTED ABLE BODIED MEN WITH PREVIOUS MILITARY TRAINING PD I SHALL ARRANGE TO DELIVER YOU ADEQUATE ARMS AND AMMUNITION AND OTHER ESSENTIAL EQUIPMENT BY SURFACE CRAFT OR AIR DROP AS SOON AS THE MILITARY SITUATION WILL PERMIT PD

"THIS IS THE HOUR FOR WHICH YOU HAVE BEEN WAITING PD IN IT IS A CHALLENGE TO THE MAXIMUM EFFORT OF YOUR FORCES AND THE PEOPLE IN SUPPORT OF OUR OPERATIONS PD THE VIOLENCE OF OUR ATTACK WILL ENSURE THE ENEMY'S ULTIMATE DEFEAT BUT THE SPEED OF OUR ADVANCE WILL DEPEND IN NO SMALL MEASURE UPON THE STRENGTH OF YOUR SUPPORT PD MAY GOD STRENGTHEN YOU IN THIS STRUGGLE FOR LIBERATION"

2. Limited authorization has been included in the above message as all of the Commanders addressed have reported a reserve of trained manpower available should it be required. Such manpower may be most profitably employed if properly organized and directed. We have a firm basis for such action in the areas indicated.

1. Advise that out of the first parachutist class of the 5217th (Filipino) Reconnaissance Battalion 5 officers and 24 enlisted men qualified as parachutists on 30 September and are now available for dropping into positions if necessary to implement future plans. The course of instruction culminated with 4 daytime and 2 night time jumps from aircraft.
2. A new class started on 2 October which has 6 officers and 67 men in attendance.
3. This project is proceeding satisfactorily and should provide a force of no less than 60 intelligence and communications trained Filipino parachutists by "A" day for K-2 operation. These men may be utilized to give immediate flexibility to existing intelligence or communication nets in the Philippines, or to augment the reconnaissance elements of regular parachute units, as required.
4. Their considerable value in future Philippine operations, if profitably employed, is indicated.

**GENERAL HEADQUARTERS  
SOUTHWEST PACIFIC AREA**

APO 500  
1 October 1944

**STAFF STUDY**

**"SECRET"**

**1. DIRECTIVE.**

a. This Staff Study is drawn pursuant to verbal directive G-3, GHQ, SWPA dated 27 September 1944. It covers utilization of the existing Philippine guerrilla forces and organized Filipino groups in support of Southwest Pacific forces throughout operations in the PHILIPPINE Archipelago.

b. Objectives of Philippine guerrilla forces and organized Filipino groups are:

(1) Primary.

To support operations of Southwest Pacific forces during reoccupation of the PHILIPPINE Archipelago.

(2) Ultimate.

To assist Southwest Pacific Area Forces in the re-establishment and defense of the constituted government of the PHILIPPINE ISLANDS.

**2. ASSUMPTIONS.**

a. Hostile.

- (1) That the enemy counter-espionage system will be sufficiently effective to preclude dissemination of operational plans prior to D-day to friendly forces within enemy-held areas.
- (2) That major utilities and communication installations in enemy hands will be strongly guarded.

- (3) That enemy forces will take vigorous reprisal action against any armed civil uprisings or demonstrations.
- (4) That enemy forces will be in sufficient strength within SWPA operational areas to preclude ground offensive combat in strength by guerrilla forces behind enemy lines.
- (5) That major enemy forces within SWPA operational areas will not be diverted to offensive action against guerrilla forces after D-day.

b. Own Forces.

- (1) That existing Philippine guerrilla forces and organized Filipino groups will remain in being throughout Southwest Pacific forces' operations in the PHILIPPINE Archipelago until consolidation has been obtained.
- (2) That existing means of communication will continue to function.
- (3) That present means of submarine supply to friendly forces in enemy-held areas may be complemented by aerial and light naval craft supply from established bases after 20 November.
- (4) That Philippine guerrilla forces will be effective for intelligence, minor sabotage and harassment of enemy lines of communication prior to junctions with invading friendly forces, and capable of minor organized defensive and offensive action after such junctions have been effected.

- (5) That organized friendly Filipino groups will be effective for intelligence purposes, and for provision of assistance to friendly ground and air forces operating behind enemy lines.
- (6) That trained sabotage teams will be available for employment in areas where major sabotage missions are required.

3. OPERATIONS.

a. Concept.

This plan visualizes operations by Philippine guerrilla forces and friendly Filipino groups in active and passive offensive action against enemy forces in the PHILIPPINES in support of operations by Southwest Pacific forces, as outlined in the MUSKETEER Plan.

Guerrilla forces and friendly groups within the PHILIPPINE Archipelago will be controlled, supplied and directed by C-in-C SWPA, within and outside the geographical limits of designated operational areas prior to D-day for those areas. During the period prior to D-day, activities of all forces and groups will be largely confined to securing general and specific tactical and strategical intelligence for ground, air, and naval forces. Sabotage and harassing missions within capabilities of guerrilla forces shall be accomplished inside objective areas as requested by the Army Commander (or army directed task force commander) charged with conduct of operations within the area concerned.

Upon establishment of the Army Commander (or army directed task force commander) within an objective area,

direct control of all guerrilla forces and friendly groups within the objective area will pass to the Army Commander (or army directed task force commander) who shall assume responsibility for control, supply and direction of those forces for the accomplishment of such missions as will further his plan of campaign. When consolidation of successive objective areas has been completed, control of guerrilla forces and friendly groups passes to the agency designated by C-in-C SWPA.

b. Scheme of Operations.

Prior to assumption of control by the Army Commander (or army directed task force commander) of guerrilla forces and friendly groups within designated objective areas, GHQ will collect pertinent intelligence information and direct execution of such sabotage and harassing missions as may be requested by the Army Commander (or army directed task force commander) concerned.

Dissemination of all tactical and strategic intelligence emanating from Philippine sources will be accomplished by GHQ.

Upon issuance of warning orders for an operation, GHQ shall present to the Army Commander (or army directed task force commander) concerned, an objective folder for the assigned area of operations showing strengths and locations of guerrilla forces and friendly groups within the areas, together with specific sabotage and harassing missions that are considered practicable of execution. Any of these missions (or other determined practical missions) desired for execution prior to D-day by the Army Commander (or army

directed task force commander) in furtherance of his plan of campaign will be directed by GHQ.

All guerrilla forces and friendly groups inside operational objective areas will be notified by GHQ, as arranged with the Army Commander, that control and command of their forces and groups will pass to the Army Commander (or army directed task force commander) upon his establishment at the beachhead.

The Army Commander (or army directed task force commander) will establish control and regulation of the communications system of guerrilla forces and Filipino groups and of GHQ, in objective areas, concurrently with his establishment at the beachhead.

The Army Commander (or army directed task force commander) will be relieved of control of areas within the objective area at such time as the C-in-C, SWPA may direct, and control of guerrilla forces and friendly groups within the confines of the areas specified will pass to the agency designated by the C-in-C SWPA.

c. Supporting Agencies.

USASOS

- Logistic support of Filipino guerrilla forces and friendly groups as directed.

Allied Naval Forces

- Operations of light naval craft in support of Filipino guerrilla forces and friendly groups.

Allied Air Forces

- Operations of aircraft in support of Filipino guerrilla forces and friendly groups.

4. CAPABILITIES.

a. General.

Capabilities of organized guerrilla forces and friendly groups are, in general, limited to the accomplishment of the following

**type of missions:**

- (1) The securing of general and requested specific intelligence of enemy activities behind the lines both prior to and after D-day.
  - (2) The post D-day harassment of enemy movements behind the lines by:
    - (a) Ambushing enemy ground forces and patrols within designated areas.
    - (b) Demolishing small bridges and railroad tracks.
    - (c) Sabotaging the enemy railroad system.
    - (d) Disrupting enemy telegraph, telephone, or cable lines of communication within designated areas.
  - (3) Assistance of movement into pre-determined positions of small parties or reconnaissance patrols.
  - (4) Reinforcement of ground force communications and reconnaissance agencies.
  - (5) Provision of guides and interpreters to aid ground force commanders.
  - (6) Protection of Allied ground, air and naval personnel operating behind enemy lines.
  - (7) Accumulation of local labor and transport facilities.
  - (8) Garrison and police of re-occupied areas.
  - (9) Provision of guard for enemy prisoners of war.
  - (10) Provision of personnel to assist the evacuation of the wounded.
- b. Organization.**
- (1) Controlling policies:
    - (a) To adhere to the pre-war military district division

insofar as possible in the development of guerrilla leadership and activity. ( See Appendix 4. b. (1).)

(b) To formally recognize a command within a given area once unification thereof had been effected under one leadership, and to recognize that leader as its Commander.

(c) To supply, equip and finance such command once recognized, as available transport facility would permit, and to guide and direct its activities.

(2) MINDANAO.

The MINDANAO area contains guerrilla forces with organizations and strengths as shown in Appendices 4. b. (2) and 4. b. (2 a).

(3) VISAYAS.

The VISAYAN area contains guerrilla forces with organizations and strengths as shown in Appendices 4. b. (3) and 4. b. (3 a).

(4) LUZON.

Due to the heavier enemy concentrations and wide distribution of enemy forces in that area, the guerrilla situation in LUZON is necessarily confined more to the conventional type of an underground movement than is the case in the Islands south of LUZON where large free areas of maneuver permit organized open resistance.

While it is known that numerous guerrilla organizations exist with secret agents reportedly running into hundreds of thousands covering almost every important area and phase of enemy activity throughout LUZON, the situation is still too obscure to permit the presentation of a detailed picture thereof in reliable form. Specific information is now being developed, however, by agents

of GHQ which when completed will be prepared and disseminated as a supplement to this study.

c. Communications

The radio communications system presently in existence and functioning in the Philippines is as shown in Appendix 4. c. The density of its development has been premised upon the requirement to provide channels to all important centers of enemy activity, through which general and combat intelligence might be flashed to GHQ, and to link up the detached elements of area commands. In its development existing facilities of guerrilla forces and other friendly groups have been fully availed of and numerous specially trained GHQ detachments have infiltrated into the Islands to strengthen and augment such existing facilities. LUZON has lagged behind in this development by established priority but GHQ now has three signal intelligence detachments penetrating into North and Central LUZON equipped for the mission to establish a radio net covering all vital enemy installations. To give immediate flexibility to existing communication nets as required a trained reserve of Filipino parachutists is maintained by GHQ.

d. Intelligence

To strengthen and augment existing sources of guerrilla or other friendly group intelligence, GHQ has infiltrated into the Philippines numerous specially trained agents who maintain direct radio contact with GHQ and operate under its direction. To give immediate flexibility to existing intelligence nets a trained reserve of Filipino parachutists is maintained by GHQ.

e. Weather

The weather observatory system presently in existence and functioning throughout the Philippines is shown in Appendix 4. e.

All observatories are equipped and staffed by specially trained GHQ weather personnel infiltrated into the positions indicated. All observatories flash complete weather reports at 0900, 1100, 1700 and 2300 hours local time daily which permits the preparation of an accurate weather map of the Philippines as of the hours stated and the forecast of future weather.

f. Guerrilla Operational Areas (GOA).

The Philippine Archipelago will be divided into Guerrilla Operational Areas (hereinafter referred to as GOAs) for the purpose of presenting Army commanders (or army directed task force commanders) with clearly defined areas wherein active intelligence, sabotage or harassing missions may be accomplished. In view of personal, political and geographical considerations, it is considered impractical to attempt a revision of organization or command of existing guerrilla forces or friendly Filipino groups in enemy held areas at this time. Division of GOAs are as shown in Appendices 4. d. (1) (2) (3).

g. Preparation of Plans.

Facilities and personnel of GHQ will be made available to representatives of Army commanders (or army directed task force commanders) to assist in the preparation of plans for employment of guerrilla forces and friendly Filipino groups and the GHQ specially trained Filipinos already dispatched to the Philippines or in reserve on missions other than those shown in objective folders.

Notes This plan will be supported by Staff Studies as follows:

Staff Study - "Objective Folder --- GCF1".  
to Staff Study - "Objective Folder --- GCF 14."
