30 Mar 48

TO : CNO, COMALSEAFRON, CSUSAF (PASS TO JCS)

INFO : CINCPACFLT, COMNAVWESTPAC, COMNAVFE

DECLASSIFIED PER JCS LTR OF
 20 AUG. 75

NR : AX 19047

Following message received from Alaskan Air Command:

"On 9 Mar 48, the fol radiogram was received:

'Submarine sighted by AF 5889 at 0050 Z between Segula and Kiska. Will fwd info as recd.' As a result of this radiogram, a wire was sent immediately to the Navy at Kodiak to determine if it was one of our submarines. A negative reply was recd. The airplane which made the sighting was flown by officers of this hq. Due to inclement weather they were flying at a low altitude VFR.

"The submarine was sighted. They watched it for approx 4 minutes and the submarine then dived within a period of a few seconds on a heading of 90 deg. Interrogation of the officers who made the sighting indicates that the submarine was approx 8 miles from Kiska Harbor.

"The interrogation also establishes that these were experienced pers who had flown over this area many times previously and who are certain that they know the difference between the silhouette of a submarine and that of a whale. The submarine when noticed on the surface was cruising a wake and was painted black. It was submitted that the low altitude that was being flown because of weather would enable an acft to approach closely without radar detection. Patrol airplanes were sent out by Navy but nothing has been reported as to sightings at this time. This report delayed awaiting interrogation of crew."

14 June 47

FROM : CINCAL
TO : CINCFE, CINCPAC, COMALSEAFRON, COMALEUT
NR : X 16148

DECLASSIFIED PER JCS LTR OF
20 AUG. 75

CINCAL concurs in the approval and promulgation of the directive for air traffic control in the Pacific as drafted in Tokyo and as amended by subsequent dispatches excepting the portions in conflict with the following paragraphs:

The section dealing with FIR responsibilities in the area: From Annette Island along west coast of Canada to 48-30 N 124-50 W, to 40 N 142 W, to 40 N 150 W, 54-40 N 140 W and thence to the point of origin is the subject of the following descriptive note: "Pending decision by the North Pacific Regional Meeting of ICAO or decision by the CAA, whichever occurs first, air traffic in this area is controlled by the individual operating agency."

CINCAL intends to advise the War Dept that it is preferred that the southern boundary of the Eighth Regional CAA FIR not be extended south of 54 deg 40 min N. This is desirable in order to eliminate confusion in FIR and SAR boundaries of responsibility. Cite CINCFE radiogram CX 52339 DTG 030303 Z May reference 29.92 altimeter setting in CINCAL area and CINCAL radiogram AX 15881 May, the following deletion in the original text of the directive as revised in the Tokyo conference is recommended by CINCAL with the concurrence of the Eighth Region CAA: "with the exception of CINCAL." Par 10 A (1) of Sec 1 will then read "Altimeter setting. For determining cruising altitude on over-water flights along air routes 29.92 will be used as the standard altimeter setting." The objective of correcting altimeters in flights along the Aleutian Islands is attained after 1 July 47 by compliance with ICAO
