Consideration is being given to request that the Japan Central Exchange establish a mail order svc to handle orders from unit and hq funds. This mail order sales would not be made to indiv. Eff utilization of unit and hq funds is most difficult due to the scarcity of merchandise available in local markets and lack of complete ordering info. Your comments and recommendations are requested.

REURMSG 2-36043 dtd 29 January 51. Cpl Pray testifies he gave 90 cents to a Sergeant of his former Company which he later received 8 cans of beer marked "Free". All possible witnesses from various units in Korea have been interrogated as well as inquiry into Post Exchange and Quartermaster Channels. Every Sergeant (12) who might have been the 1 in question as well as other individuals who might have had knowledge has been interviewed in the presence of Cpl Pray, he was unable to establish an identity. A free issue was made to Cpl Pray the same day of which he received 4 cans. It is concluded that if Cpl Pray made a purchase it was an isolated private purchase of gratuitous beer from an unknown fellow soldier.

Strongly recommend that immediate consideration be given to the authorization of jump pay for pers assigned to the 187th Abn RCT prior to the time that they can complete the required number of jumps. Due to the present tactical situation in which this orgn is actively engaged, abn pers assigned to this comd cannot perform the required number of jumps as outlined under the provisions of Executive Order Nbr 10152 because they are actually employed in combat at this time. In view of the adverse morale effect the discontinuance of jump pay would have on pers involved, highly desirable that this request be given favorable consideration soonest.

23 DEC 53

In compliance with Dept Army radio to CINCPAC signed Parks stating that Department of Defense desirous of my cooperating in radio broadcast at home, and with the prior approval of CINCPAC of the text of what follows herein, I have, this date, recorded for the foregoing purpose the following statement:

"To the Commanding Generals, all Corps, Divisions, separate Brigades, Regimental Combat Team Commanders, and the 2d Log Comd. I want to tell you why we are here.

"1. In my brief period of command duty here I have heard from several sources, chiefly from the members of combat units, the questions, 'why are we here?' 'what are we fighting for?'

"2. What follows represents my answers to those questions.

"3. The answer to the first question, 'why are we here?' is simple and conclusive. We are here because of the decisions of the properly constituted authorities of our respective governments. As the Commander-in-Chief, United Nations Command, Gen of the Army Douglas MacArthur said publicly yesterday: 'This command intends to maintain a military presence in Korea just as long as the statesmen of the United Nations decide we should do so. The answer is simple because further comment is unnecessary. It is conclusive because the loyalty we give, and expect, precludes any slightest questioning of these orders.'

"4. The second question is of much greater significance, and every member of this command is entitled to a full and reasoned

answer. Mine fols.

"5. To me the issues are clear. It is not a question of this or that Korean town or village. Real estate is, here, incidental. It is not restricted to the issue of freedom for our South Korean allies, whose fidelity and valor under the severest stresses of battle we recognize; though that freedom is a symbol of the wider issues, and included among them.

"6. The real issues are whether or not the power of western civilization, as God has permitted it to flower in our own beloved lands, shall defy and defeat Communism; whether the rule of men who shoot their prisoners, enslave their citizens, and deride the dignity of man, shall displace the rule of those to whom the individual and his individual rights are sacred; whether we are to survive with God's hand to guide and lead us, or to perish in the dead existence of a Godless world.

"7. If these be true, and true they are, beyond any possibility of challenge, then this has long since ceased to be a fight for freedom for our Korean allies alone, and for their national survival. It has become, and it continues to be, a fight for our own freedom, for our own survival, in an honorable, independent national existence.

"8. The sacrifices we have made, and those we shall yet support, are not offered vicariously for others, but in our own direct defense, wherein certain principles mean more than life.

"9. In the final analysis, the issue now joined right here in Korea is whether Communism or individual freedom shall prevail, and, make no mistake, whether the next flight of fear-driven people we have just witnessed across the Han River, and continue to witness in other areas, shall be checked and defeated overseas or permitted, step by step to close upon our own homelands and at some future time, however distant, and engulf our own loved ones in all its misery and despair.

"10. These are the things for which we fight. Never have members of any mil command had a greater challenge than we, or a finer opportunity to show ourselves and our people at their best and thus be an honor to the profession of arms, and a credit to those who bred us.

"11. I would like each Commander to whom this is addressed, in his own chosen ways of leadership, to convey the substance of this msg to every singly member of his command, and at the earliest practicable moment.

I respectfully ask that if used, this statement be given in its entirety, without deletions, additions or modifications. I would further suggest that it would be most effective if any introductory remarks on the broadcast be as brief as possible and preferably limited to the statement of the name, rank, orgn, and location of the speaker at the time the recording was made. Finally, I have emphasized to Lt Col McPheron, who made the recording, that a Field Commander does not address the American people. That is a function, in my judgment, of civilian, not mil, authorities. This msg as recorded is practically identical with the written msg I already disseminated throughout Army Eight and therefore represents a Commanders remarks to his trps and nothing more.

The following is the recommended citation for the award of the Distinguished Service Medal to Maj Gen David G Barr, 010313, CG, 7th Inf Div:

"Maj Gen David G Barr, 010313, United States Army, for exceptionally meritorious conduct in a duty of great responsibility during military operations against an armed enemy in Korea, from 30 June 1950 to 20 Jan 1951. As CG of the 7th Inf Div, immediately preceding their arrival in Korea, Gen Barr was faced with the momentous task of reorganizing and training his div after it had been depleted of trained troops to reinforce units already committed to the battle front in Korea. The highly successful accomplishment of this task in a minimum time is evidenced by the outstanding combat effectiveness displayed by his div in Korea. Gen Barr displayed a high degree of leadership, aggressiveness and a complete devotion to duty during the planning stages and execution of the amphibious landings and combat operations during the invasion of Inchon and the attack southward to seize Suwon and its vitally needed airfield. The combat effectiveness of the div in amphibious operations once again proved itself during the invasion of Iwon and the attack Northwest to the Yalu River on the Manchurian border. His highly competent supervision of command and staff functions, revealed in his divisions both transition from a peace time mission to one of combat in such an extremely short period, ably demonstrated his superb fitness for high command.

His leadership, initiative, tactical judgement and unremitting devotion to duty in projecting and coordinating the tactical elements of his command have materially contributed to the success of the United Nations Mission. Frequently exposing himself to enemy fire he personally visited subordinate commanders and the front lines and by fearless leadership aided and encouraged his forces in the attainment of their assigned objectives. General Barrs extraordinary performance of duty reflects great credit on himself and is in keeping with our highest ideals and the esteemed traditions of the military service.
