This msg in 3 parts.

1. For CG I US Corps. Intelligence indicated enemy build-up in area between Osan and Suwon affording you most lucrative opportunity for destruction of enemy forces we have had since en atk began. Desire you make without delay strong armed atk into this area to disrupt enemy concentration and inflict max destruction on the enemy. Employ max avail armor that can be profitably employed on the terrain and not less than 1 bn of tanks with appropriate reinf and TACPS. The obj is to inflict max destruction of hostile forces and then to withdraw to present posns leaving covering forces to maintain contact. Rept plan of atk, to include time, routes of advances, and size and composition of forces in order that air support can be provided.

2. For CG IX US Corps. Afford flank protection in zone for I Corps atk force coord details with CG I Corps.

3. For all. Tgt date for this opn is daylight 15 Jan 51.

Action addressee ack receipt. Direct communication authorized.

A

FROM : CG ARMY EIGHT

TO : CINCPAC (FOR GEN HICKEY) TOKYO JAPAN

NR : G-1-932 KCG

I have this date transmitted the fol ltr to Gen Chung,
Chief of Staff, Korean Army:

"Now that I have had sufficient time to see the situation as it
now exists, to view the terrain, and personally to talk to the
principal commanders, I deem it opportune to share my personal basic
conclusions with you.

"First, there is here but one ultimate objective-freedom for
your people. To attain that objective, there is only one mil force-
our combined Allied Army.

"Second, there is but one single common destiny for this
combined Allied Army. It will fight together and stay together
whatever the future holds.

"I would like you to feel free to convey to all ranks this
simple statement which I send to you with complete sincerity and
all the emphasis I can command."

Subj: United Nations Comd Civ Asst in Korea, RGS QDA-74.
Sect I. Adm.

1. Hqs Civ Asst Comd Army Eight moved from Seoul to Pusan opening in its new location on 6 Jan 51. Present phone nbr of the Comd is GALVESTON 147 or 163.

2. The fol Civ Asst Comd Teams in the field are presently assisting in preventing starvation, disease, and unrest and furthering the Mil Mission in Korea: Read fol in 2 columns.

Team Location	Area of Responsibility
I Corps *	I Corps Zone:
Taejon (attd to I Corps)	Chungchong Namdo
Uonju	Choila Pukto
Taegu (2 members at Pohang-Dong)	Kyongsang Pukto
Pusan (with det at Masan)	Kyongsang Namdo
Koje-Do	Koje-Do (Kyongsang Namdo)
Cheju	Cheju-Do

* Formerly the Kyonggi-Do Team.

3. All teams have been reenforced with additional pers in order to meet the current refugee situation.

4. Col Arthur Champeny, CO Civ Asst was trfd to MEC by Par 1, Ltr Order Nbr 1-86, dtd 9 Jan 51, Hq Army Eight. Col Coyle his exec officer is Acting CO of the Civ Asst Comd, Army Eight.

Sect II. Govt and political affairs:

1. Govt:

A. The Natl Govt, ROK moved from the capital at Seoul to Pusan on 6 Jan 51 and established most of their Govt offices in Kyongsang Namdo Provincial Capital Bldg in Pusan.

B. A principal problem of the city, provisional, and Natl Govt is the care and control of refugees. Under supervision of Corps Civ Asst Officers, Civ Asst Officer, Civ Asst Teams and of the United Nations Mil Police, refugees have been encouraged to remain in place or to move in directions where they will not inter-

rere with the mil mission. DDI dusting stations and relief camps have been estab in the vic W of Taejon, Taegu and Pusan and refugee traffic in the Taejon Area has been diverted to the SW. There are refugee trains being run twice daily from Taejon to Iri near Kusan. The purpose is to divert the refugees away from the perimeter and into a rice growing area; thus enabling the mil sup routes and necessary railways to be used more freely by the mil.

2. Political: Negative.

3. Legal and pub safety:

A. Effectiveness of ROK Natl Police has increased since more active supervision has been exercised by the UN Mil Police. The Natl ROK Police are working directly with UN Mil Police and reports show that they have beendoing an excellent job.

B. Total civil prisoners in the Army area number approx 16,700 on 10 Jan. Of 7,000 prisoners in Seoul, about 2,000 were released as a result of a Christmas amnesty. The remainder were moved south by rail. Of 5,000 civil prisoners in Iaejon on 10 Jan, Pres Rhee has directed the release of those with less than a 10 year sentence, numbering 3,000. The remaining 2,000 are to be moved by rail to Pusan on 11 Jan. Condition of prisoners is generally poor. Representations are being made to ROK Minister of Justice.

Sect III. Economic affairs.

1. Finance:

A. Currency from Seoul and other cities evacuated by ROK has been removed to the south under custody of govt officials. All currency in Seoul was successfully evacuated to Pusan, according to ROK Govt reports.

B. No deposits of ROK funds derived from the sale of relief supplies have been made.

2. Food and agriculture:

A. Imported rice, wheat, and barley from Pakistan, Thailand and Formosa amounted to approx 50,000 tons and there remains from this total approx 18,000 tons, which is actually the only known finished grain in the ROK food reserve.

B. The rice crop at present appears to be adequate but with the present influx of refugees from the north the above amount will be exhausted unless the ROK Government takes drastic steps to get the current harvest to the polishing mills. The main difficulty encountered in gathering and polishing current rice crops is the lack

of vehicular trans and POL. Efforts are being made by this hq to use empty box cars travelling south to pick up and haul rice collected along railways. The ROK Govt has been encouraged to send ships to Kunsan to load rice collected at that port and reports that it has dispatched 3 LSTs.

C. Fish, another source of food sup is a very scarce item; this is due mainly to Army and Navy restrictions on fishing vessels plus the fact that technology is lacking in this field.

D. An appreciable amount of grain has been diverted to Japan for storage (ports presently in use are so crowded that unloading in Korea is restricted principally to mil cargoes at the present time) and this will be avail to meet emergencies that may arise due to any food shortages. These diverted grains can also be used to supplement rations of refugees on Koje-do and Cheju-do if necessary.

3. Clothing, housing and shelter:

A. There has been distributed through ROK Govt agencies approx 60,000 blankets. Clothing has been received and distributed through the Natl Catholic Orgn in the Pusan area but the amount was very small.

B. The housing and shelter problem has been especially acute in the Kyongsang Namdo area and on Cheju-do. Most refugees entering this area have been billeted with friends, relatives, in public bldgs or in their own makeshift shelters and in some cases newly built govt pre-fabs, such as built in Masan.

4. Fuel and power:

A. The fuel shortage continues and will increase in the perimeter as it absorbs the influx of refugees from the north. There has been delivered to Masan 999 tons of charcoal which has alleviated the shortage in that area.

5. Labor: No report.

6. Trans: All civilian mvmt by railroad has been curtailed. Refugees are being removed from the trains at Taejon and Andong and routed by road to Kunsan in the southwest or the Pohangdong area in the southeast. Non-essential vehicles are being rounded up and returned to the front, if ROKA vehicles of units at front or put to essential

use by representatives of the ROK Govt.

7. Communications: Fair communications exist to civ asst agencies except those at Koje-do, Cheju-do and Chonju. Instructions and info to these 3 places are passed only with great difficulty and considerable delay. To contact Cheju-do it takes an estimated 48 hrs to send a radio and receive a reply back. Army Eight Sig Officer if providing rad sets for a Pusan-Koje-Cheju-do net, to be manned by ROK pers.

8. Industry: ECA raw cotn has been brought into Pusan and Taegu for textile mills.

Sect IV. Social affairs.

1. Pub health:

A. Communicable diseases. DDT dusting stations for refugees, typhus inoculations and smallpox vaccinations continue to function. Vaccines are needed in Pusan, Taegu, Chonju and Taejon. CINUNC rad instructions to initiate a gen immunization program have been received.

B. Hospital.

(1) Hospitals are reported inadequate in Cheju-do, where they are used for housing ROK trps.

(2) Most all civilian hosp have been taken over by the ROK Army.

C. Med supplies.

(1) 300,000 doses of smallpox vaccine have been requested, but delivery has been delayed.

(2) 2 basic med units have been sent to Cheju-do and a hosp is being set up in Cheju under the supervision of Dr Blu.

(3) Vaccines are being used in considerable quantities in dealing with refugees and to date we have had no known epidemics.

2. Pub welfare:

A. By the time Seoul was evacuated almost the entire population had left the city. It is estimated that about half or 600,000 migrated southward, the remaining half crossed the Han River but stayed in villages the vicinity. Civ asst agencies served to assist the ROK Govt in the timely evacuation of ROK Govt families and officials and religious leaders, police families and other selected civilian pers from Seoul. Several trains, ships and box cars were obtained for such evacuation. As a result, tactical units did not later have to cope with this problem.

B. Estimated nbres of refugees in critical areas are listed herewith: Read fol in 2 columns.

INCOMING MESSAGE
EMERGENCY

FROM : CG ARMY BIGHT NR : G-1-892 RJAC 11 JAN 51 CONT'D

Location	Number of refugees
Taejon	30,000
Taegu	170,000
Pohangdong	90,000
Pusan	130,000 registered (200,000 total is estimated)
Koje-do	90,000
Cheju-do	25,000

C. To eliminate congestion refugees are being moved from Taejon by rail to Iri, about 6 miles east of Kusan twice daily. Estimate nbr now in that area is 30,000 and the majority of these have been absorbed by the populace. In this particular vic there is ample food but the refugees are confronted with the guerilla (North Koreans) problem and they seem to want head south to the perimeter, because of this situation.

D. IX Corps Civ Asst Officer reported on 11 Jan that there is evidence that refugees to their front are turning back toward Seou. X Corps Civ Asst Officer reports no current difficulties with refugees to the front. I Corps Civ Asst Officer has succeeded in diverting to the southwest refugees in forward areas.

E. Civ Asst Comd has been ordered to remove refugees from the Pusan and Pohangdong areas by water and from Taegu by road, to eliminate congestion. Rough seas and inclement weather have interferred with these ops to date but is expected that this mission will gain momentum as soon as tidal conditions and weather permits.

F. The Civ Asst Sect has sent Lt Col French and Lt Col Herrmann to Cheju-do along with representatives of the ROK Govt to survey facilities for refugees on the island. At present they have not returned and results of this rcn are unk.

In the light of the present tactical situation it is considered highly desirable that POW's be moved from present location at Pusan to the island of Chejudo as expeditiously as possible. Chejudo is considered to be the only island under the ROK Govt at this time suitable as a POW camp site. It is felt that necessary arrangements to effect such a move can be accomplished with the facilities presently available to this hq, with the exception of shipping requirements and lighterage to facilitate off-loading at Chejudo Island. The assistance of your Hq would be required in providing security patrols in the waters surrounding the Island of Chejudo.

Providing you concur with this proposed plan this Hq will do everything possible to persuade the ROK Govt to consent to the use of the Island of Chejudo as the site for a POW enclosure.

The enemy air capability so far as it concerns North Korean Air Units, is considered to be limited, although there are indications of an increase in available equip and pers. However if the Chinese enter the war on an all out basis with a complete air effort it is indicated that the CCF Air Force could mount a sudden and substantial air effort. In view of this potential air threat desire all comdrs take appropriate air defense measures without delay and that this info be disseminated to all units within your zone of responsibility.

JCS-CCS DECLASSIFICATION
WORKING GROUP
DATE 5 Jun 75

Ref Army Eight msg GX 35060, 12 Dec 50, and CINCFE msg CX 51174, 13 Dec 50. This msg in 3 parts.

Part I. Request for authority to redeploy certain excess technical service units has been forwarded by separate msg.

Part II. In order to maintain maximum flexibility for the movement and employment of the combat elements of Army Eight it has been necessary to remove from forward areas various administrative units, including rear echelon components of Army, Corps and Division hq. The congestion in rear areas now presents a serious problem which is aggravated by the refugee situation.

Part III. It is recognized that the administrative units and administrative portions of the hq of major units in Korea are performing essential functions and should continue to do so. It is likewise considered essential that positive action be taken to relieve as much as possible the present congestion in the Pusan-Tasan-Taegu-Kyongju area. Authority is requested therefore, to redeploy to Japan certain administrative units and administrative echelons of hq under the following conditions:

- A. The unit or administrative portion of the hq will retain the capability to perform its mission while in Japan.
- B. The units be redeployed initially to a central location in Japan accessible to suitable communications to and from Korea.
- C. The determination of the specific location, referred to in B above, be coordinated between Army Eight and JLCOM, and submitted to CINCFE for approval.

DECLASSIFIED PER JCS LTR OF
20 AUG. 75

FROM : CG ARMY EIGHT
TO : CINCFE (GEN HICKEY) TOKYO JAPAN
NR : G-1-785 KCG

It is requested that Army Eight, while engaged in combat operations, be authorized 9 extra Gen Officers in the grade of Brigadier General. It is planned to assign these additional Brigadiers on the basis of 1 to ea of the US Army Corps and Divs.

The purpose of the above request is 2-fold. 1st, these officers will be of inestimable assistance to corps and division commanders. 2d, the proposed assignments would exploit to the utmost the incomparable training ground which here exists under battle conditions.

If the foregoing request is approved, it is recommended that it be implemented soonest; further, it is recommended that young vigorous, mentally flexible brigadiers, already marked for high command by reason of demonstrated leadership, be selected for this purpose.

Major units have frequently repte'd inadequacy of baking power and yeast in Tue Menu. As a result the issue of baking power recently was increased from 2 lbs to 4 lbs per 1,000 rations. Eff on Jan 51 yeast was increased from 4 lbs to 6.63 lbs per 1,000 rations, including that used for bread ingredients. This will increase condiment issue yeast from .67 lbs per 1,000 rations to 1.93 lbs and yeast for bread ingredients increases from 3.33 lbs to 4.7 lbs. Rqst that food service pers your organization review the issues of above items and check usaze in unit messes. Forward this Hq your comments and recommendations. The results of your studies will be used as a basis for justification to the Dept of the Army to effect any nec changes in the ration scale for Korea.

CINCPAC msg GK 52456 dtd 1 Jan 51 refers.

Fuel shortage at K/2 airbase due to inability to deliver reqmt by tank car from Pusan POL Terminal. Approx 120 tank cars are in svc delivering Jet Fuel and Avgas to K/2 from Pusan. Average turn around time has been exceeding 8 days so that empty cars returned to Pusan daily averages about 15 cars. Air Force stated reqmts is 30 cars Jet Fuel and 3 cars Avgas. Excessive turn around time being experienced is due to lack of adequate storage and off loading facilities at K/2 Airbase and to lack of adequate locomotives on Korean railroads to handle mvmt of cars at Pusan and at Taegu. Every effort is being made to improve turn around time and air base construction is underway to provide addtl storage and tank car offloading facilities.

20 AUG 75

NR : GX 1-236 KG00

This msg in 3 parts. Confirms verbal instructions issued by CG Army Eight at 031315 I Jan 51.

1. For CG I US Corps and CG IX Corps. Withdraw from the Seoul bridgehead line to psns S of the Han River. Withdrawal to be initiated as early as practicable at a time as coordinated by corps comdrs. This retrograde mvmt will be executed with all nec lateral coordination; with max losses inflicted on the en; and with max delay consistent with the maint intact of major units. Establish strong AAA protection of bridges over Han River by dark 3 Jan 51. All acft will be considered as friendly unless they atk. Rigid control of units and of traffic will be exercised during withdrawal. Civilian traffic will be excluded from mil bridges unless specific exemptions are directed. Friendly sick, wounded, and dead will be evacuated. No usable equip will be left behind.

2. For I US Corps. Assume dir of traffic control. Brig Gen Chris D. Flamer, 1st Cav Div is detailed as Special Asst for Traffic Control. Protect the evacuation of K-14 and K-16 airbases and the Port of Inchon.

3. For all. Upon evacuation of bulk of I and IX Corps from Seoul bridgehead area, be prepared on order this Hq to execute coordinated withdrawal in corps and ROKA zones to def psn D (re Opn Plan 19 MYMSG GX 35046 KGII 12 Dec 1950).

DECLASSIFIED PER *JCS ltr of*
20 Aug 75

Having completed concentration and preparation for an atk along the front of the US Army Eight, the en, with Chinese disposed in the central sector, launched a gen offensive on 31 Dec-1 Jan south of the 38th Parallel.

Elms of the Chinese Armies are believed to be involved in the offensive, 3 of which definitely have been identified south of the 38th Parallel.

The Chinese atk was launched on a 44 mile front extending east of Kaesong on the Army left (west) flank to NW of Chunchon on the right (east) central front, with the main effort directed along the Yonchon-Guijongbu-Seoul axis. The Seoul-Inchon area appears the initial objective of the offensive and gains up to 8 miles have been made in that direction.

It may be expected that from 3 to 4 additional Chinese Armies from the Hamhung area, together with the NK V and II Corps will be identified in the Chunchon area and east thereof. These factors in all probability have as their immediate obj the seizure of Wiju, a vital communications center east and SE of Seoul.

Now that the Chinese have overtly invaded SK in strength it appears that they intend to utilize their manpower to attempt to force the UN from and control of the Korean Peninsula.

The Army Eight will continue its present mission inflicting max punishment, and delaying in successive pans maintaining its major forces intact.

DECLASSIFIED BY:
JCS-CCS DECLASSIFICATION
WORKING GROUP

DATE: 5 Jan 71

REURLTR dtd 17 Dec 50, subj: Mvmt of POWs to Chejudo Island
File Nbr AG 383.6 (17 Dec 50) GA. This hq recommends against the
use of Chejudo Island for prisoners of war. Reasons fol:

1. Strong objection by the ROK Govt and Army as fol:
 - A. Thousands of refugees from North Korea have been moved to Chejudo Island and mvmt of POWs would seriously overcrowd.
 - B. Interference with ECA Program for industrial activities on Chejudo Island.
 - C. Possible use by ROK Govt as a site for capitol of South Korea.
 - D. Intent of the ROK Army to use as a tng site for inductees.
 - E. Prior to war, Chejudo was a hot bed of Communism.
2. Staff studies by this hq indicates the fol:
 - A. Wtr on the island is scarce. The present developed supplies being barely adequate to sustain present population. Wells are capable of being developed based on sub-surface conditions.
 - B. It is estd that construction will require as a minimum two engr const bns, two engr dump trk companies plus 5000 POWs as laborers for a pd of 12 wks.
 - C. Due to nature of existing port facilities LSTs or similar vsls will be reqd to transport supplies and equipment. To transport engr personnel, POW labor, supplies and equip will require two LSTs operating continuously during period of construction, thereafter it is estd that one LST weekly can maintain log spt of garrison and POW population.

DECLASSIFIED PER JCS LTR
20 AUG. 75

It has become increasingly difficult to supply UN Forces in the combat area over existing railroads. The imminent requirement for rapid mvmt of reserves to the combat area will completely over-tax existing rail facilities.

I also plan to employ if necessary, reserve units along the E coast and inland therefrom where railroads are non existant. In order to have necessary flexibility to meet current situation, I urgently need 20 LST's to be employed as required by my command. This is a net requirement and includes 3 LST's rqstd in my msg to COMNAVFE of 29 Dec 50.

Would appreciate very much any assistance you can give in having these LST's made avail as rapidly as possible. Sincere regards.
