This message in 3 parts.

Part 1. Ref to letter, this hq, AG 420-MAT-SUP-GSSQ. Subj: Disposition of personal effects of personnel killed, missing in action, wounded evacuees, or a known prisoner, 21 Sep 50, and our message MK 21038 MAT-SUP-GSQ, 2 Oct 50. Summary Court Officers, in numerous instances are still not complying with the provisions of above referenced letter, and are forwarding the personal effects of battle casualties direct to the next of kin in the ZI. Such a practice can only result in innumerable tracer actions, particularly where the effects fail to reach the next of kin. Effects depots have been established for the specific purpose of effecting special handling, control, security and delivery of all effects belonging to battle casualties or MIA pers and are, therefore, the only agency legally authorized to accomplish such action. For clarification, a battle casualty, as far as the disposition of personal effects is concerned, is any person, military or civilian, who is wounded, killed, prisoner of war, or missing in action in Korea. Personnel who die of natural causes, in Korea only, will be considered battle casualties for the purpose of disposing of personnel effects. Personal effects of personnel who die in hospitals in the FEC, as a result of wounds received in Korea, will be handled in the manner prescribed by the letter referred to above. The personal effects of all personnel, military or civilian who die of natural causes, or accidentally, outside the combat zone, will be disposed of in accordance with FEAF Regulation 30-5, 1 May 50.

INFO : CG FEAF COMCARCOM PROV ASHIYA JAPAN, CG 374TH TC WG TACHIKAWA  
JAPAN, CG 1503 ATW MATS HANEDA JAPAN

NR : AX 9827 OP-OP

Part 1. FEAF now has w/i the theater more airlift capacity than has heretofore existed. It now appears practical to re-align the airlift responsibilities w/i the theater.

Part 2. In consonance w/this re-asmnt of responsibilities MATS has been relieved of all courier activities for FEAF and those duties asgd to FEAF COMCARCOM. This will allow MATS acft to be redeployed to trans-Pacific opr, their asgd primary mission.

Part 3. Early in Jan 51 it is proposed to relieve MATS of the responsibility for the GHQ courier flt oprd daily to Korea. This responsibility would be asgd to the 374th TC Grp at Tachikawa. If this plan is concurred in, req is made that the terminal for this Courier flt be changed fr Haneda to Tachikawa for the folg reasons:

A. Acft and crews are aval at Tachikawa to back up this scd thus assuring dependable svc.

B. Pers and equip are aval at Tachikawa to manifest cargo and psgrs.

C. If Tachikawa acft were reqd to shuttle to Haneda daily to originate the GHQ Courier, local wea would frequently interrupt scdd opr.

D. The crews involved in this courier flt are now reqd to fly 10 hrs and 30 min per day. Should it be nec to shuttle this flt to Haneda, an add 2 hrs and half would be added to the overall time that the crews would be on duty. This is considered undesirable fr the flying safety standpoint. (over)

Pol recd fr Hq USAF:

"Air Brief 16 Dec 50. Possible utilization of MIG-15 in ground support role.

"There are no reliable indications that the Sovs now have any specialized ground support acft design under development. Production of the Stormovik (IL-10) the standard conventional post war ground attack acft recently was discontinued. Several reports indicate that the Sovs are planning to utilize the swept wing jet MIG-15 both as a ground attack and as an interceptor.

"During World War II the Sovs utilized acft for ground support almost exclusively. Most of their fighters were employed in this role. The IL-2 Stormovik was especially developed for this purpose, and in 1944 the Sovs began production on the more powerful IL-10. This model, which is available in large numbers is no match, however, against any modern jet acft.

"The Sovs are now using the YAK-9 conventional fighter in practicing the ground attack role. Furthermore, MIG-15's have been observed practicing air to ground gunnery in Germany. Altho the MIG-15 probable was designed as an interceptor its armament (1 37mm and 2-23mm) also would be effective against ground tgts. It is estimated that the MIG-15 could carry 4 to 6 rockets and up to 1,100 lbs of bombs."

Subj is possible utilization of Ozuki and Bofu Aux AB.  
Ref is PEAP MF 19651 MAT-INST-E, 17 Dec 50. Supplementing ref MF,  
add info as follows relative to subj instls has been determined and  
is transmitted for info and guidance:

a. Ozuki - The portion of this instl covered by JPNR  
4541 is avail at any time, w/o further action, for AF use. Re-  
maining portions of orig instl have been relsd to Japanese Govt  
and future occupation force use requires sbm of proc req for new  
acquisition pursuant to Cir 27. In event of emerg util svcs for  
use in the procd area can be obtained through cooperation of  
GHQ, Civ Affairs Sec, by extending existing camp area fac.

b. Bofu - The portion of this instl covered by JPNR-4484  
is avail at any time w/o further action, for AF use. The balance  
of this instl has not been retnd to the Japanese Govt, and pre-  
sent occupants can be trfd w/i a reasonable pd of time to permit  
AF utilization of the entire B.

HERAD DTG 120305 Z CTG 95.7 and our AX 4563-B OP-OP.  
Initial msg was relayed to 5th AF Adv for information.  
5th AF, while not acknowledging responsibility for atkg this  
force, states that force was operating north of established  
bomb line without knowledge of either Army Eight or 5th AF.  
Army Eight has requested atks on all personnel that may  
conceivably attack or threaten front lines. Limitation of  
attacks only on groups positively identified as enemy is  
considered impractical due en tactics.

INFO : CTG 95.7

NR : AX 4563 B OP-OP

DECLASSIFIED PER JCS LTR OF  
20 AUG. 75

Ref CTG 95.7 msg DTG 120305 Z.

Part 1. For COMNAVPE.

A. Req add info concerning incident reptd in ref msg to include type acft involved.

B. Further req any add info avail concerning gen statement quote "Friendly acft are atng friendly forces E coast".

C. Req this hq and 5th AF be furnished detailed up-to-date info as to location of any such known friendly forces on a continuing basis.

Part 2. For 5th AF. Req investigation of incident referred to in our retransmission Cite No 4555 B and rept to this hq as to circumstances involved if results your investigation indicate 5th AF acft were involved. Desire all possible coordination be continued w/Navy units to insure receipt of intel on location of friendly forces. Insure all possible precautions to prevent atks on friendly forces where intl is avail and recognition is possible.

Part 3. For CINCPE and COMNAVPE: Units of this cmd will continue to exert every precaution to preclude atks on friendly forces. Receipt of accurate up-to-date intel however is essential to prevent incidents such as that reptd in cited msg. Bomblines security should be estbd wherever possible. Req every effort be made to provide this hq and subordinate units w/essential intel info on friendly forces oprg in areas forward of bomblines.

FROM : CG FEAR TOKYO JAPAN

TO : CG FEAR COCARCOM ASHIYA JAPAN

INFO : CINCPAC TOKYO JAPAN, COMNAVFE TOKYO JAPAN, CG X CCRPS, CG 5TH  
AF (ADV)

NR : AX 4408 B OP-OP

Ref your msg cite DIR-OPS-C 56.

Part 1. Coordination has been effd w/COMNAVFE who will originate dispatch to MARAIRWG CG regg every effort be made to maint runway at K-27 opnl by means of sanding runway and recruiting local labor force to assist in snow and ice removal.

Part 2. 5th AF advises it is considered impractical to attempt landing at K-27 w/jet soft under present runway conds to attempt jet melt and blow off of runway. 5 AF further advises that jet runway burn at K-27 of questionable value due to poor runway drainage, curr low temperatures and related factors.

Part 3.

If CG 1st MARAIRWG is unable to assist afd serviceable thru local arrangements, he will advise COMNAVFE and FEAR and additional measures w/d instituted to insure that runway is maintd opnl.

Part 4.

Suggest COCARCOM coordinate directly w/CG 1st MARAIRWG regarding opnl status of K-27 and any local arrangements practicable to insure K-27 is maintd opnl.

INFO : CG FEAF BOM COM YOKOTA JAPAN, COM 7TH FLT, CTF 77, CINCPAC  
TOKYO JAPAN, CG 5TH AF KOREA

NR : AX 4131 B CP-OP

DECLASSIFIED PER JCS LTR OF  
20 AUG 75

Msg in 4 parts.

Part 1. It is understanding of this hqs that destruction of international bridges, begun about 9 Nov, was assigned Number 1 task for TF 77. (Ref Com 7th Task Flt DTG 130358 Z Nov).

Part 2. This hq considers destruction of international bridges most urgent in view of need for preventing further reinforcement of the enemy from across the Yalu. Recommend your vigorous renewal of the bridges campaign as begun early in Nov to give max spt to UN grd forces.

Part 3. Inasmuch as recon shows many Yalu bridges are still standing and serviceable, FEAF proposes to apply med bur effort on those bridges which can be atkd by med bur without violation of border.

Part 4. The 3 folg bridges can be destroyed by med bur:

- a. Hwy bridge at Manpojin (BA 7058).
- b. RR bridge at Manpojin (BA 7158).
- c. Hwy bridge at Changtientshokou (XE 5574).

These 3 bridges may be deleted from those TF 77 is destroying, so that more effort of dive bur may be employed on bridges where dive bur are especially adaptable.

FROM : CG FEAF TOKYO JAPAN  
TO : COMNAVPE TOKYO JAPAN  
INFO : CINCPAC TOKYO JAPAN  
RE : AX 3591 B CG

DECLASSIFIED PER JCS LTR OF  
20 AUG. 75

REOURAD AX 4722 OP-PL and CINCPAC rad CX 61420, COMNAVPE  
msg 150630 Z and CINCPAC ltr AG 370.2 (8 Jul 50) GC.

This msg in 2 parts.

Part I. CG FEAF concurs in establishment of Naval Air  
Station at Atsugi Airfield.

Part II. CG FEAF does not concur in its entirety with Part I,  
COMNAVPE msg dtd 150630 Z. CINCPAC ltr AG 370.2 (8 Jul 50) GC  
delegates operational control of Marine land based aircraft to  
CG FEAF. CG FEAF insists on retention of this operational control  
because he deems it essential to the accomplishment of his mission  
under CINCPAC's directives. The continuing situation in the Far  
East makes it necessary for CG FEAF to have authority in an actual  
emergency to employ available land-based aircraft without delay  
regardless of current activities of those aircraft. There is no  
desire to disrupt the teamwork of Marine units. CG FEAF agrees  
that COMNAVPE shall retain such control over the Marine air units  
in question as is required for training and operations in the  
performance of Naval missions and in the support of Naval tasks.  
This includes training for the amphibious phase of an operation.

This msg in 2 parts.

Part 1. Subject is captured enemy materiel. CINCPAC has charged this command with the collection, segregation, identification, custody and limited disposition of captured enemy peculiar Air Force materiel. Joint Chiefs of Staff desire immediate inventory of all such materiel captured as of 31 Oct 50. Accordingly, request your hq take the following immediate action:

A. In conjunction with CG 5th AF (Korea):

(1) Establish control collection points or storage areas for all captured enemy peculiar Air Force materiel;

(2) Provide adequate security for all materiel captured.

B. Determine from CG Army Eight and CG X Corps, location of Army collecting points or storage areas for captured enemy materiel of types used by ground forces. All such materiel, which may be captured by AF units, will be turned over to Army collecting points.

C. Take necessary steps to initiate initial report in the following format: Column 1- Item nomenclature; Column 2- Unit of measure; Column 3- Total quantity captured as of 31 Oct 50. Column 3- will be further broken down to indicate:

- (1) Serviceable;
- (2) Economically repairable;
- (3) Can be cannibalized for maintenance purposes;
- (4) Scrap.

Follow are markings utilized by South African Air Force on F-51 acft. Roundels comprising an orange Springbok (Antelope) on a white circular background with a blue outer ring will appear above and below the outer portion of both wings and on either side of the fuselage to the rear of the canopy. Fin markings comprise three vertical strips colored, reading from front to rear, orange, white, and blue on each side of the fin. Acft will be numbered consecutively from 301. A "Flying Chestnut" appears on both sides of the fuselage between the rear of engine nacelles and the cockpit. Oxalid reproductions of above markings will be forwarded.

INFO : CINCPAC TOKYO JAPAN  
RE : ME 22709 CG

REIRAD APPNP-12-C 33463, 10 Nov 50. I strongly non-concur. The 77th Sqn RAAF has been serving under the operational control of 5th AF since the beginning of the Korean conflict. The 2d Sqn, SAAP, is now in the theatre and will become operational in the very near future. Pers of these units are based and operate with corresponding USAF units and in every way have a very close relationship with USAF pers. In my opinion, this close relationship is conducive to the development of the feeling of comradeship which should exist between the various components of a UN Force. It is, in my opinion, desirable to continue to make awards to members of such foreign units on the same basis as for USAF pers and I have instructed Gen Patridge accordingly. As you know, I now have the auth to make these awards, I have already exercised it many times in the case of pers of the Australian 77th Sqn and unless I receive instrs to the contrary, I contemplate continuing to do so. Regardless of the attitude taken by the British, I strongly recommend continuation of our present policy, even though individuals may not be authorized to wear decorations.

DECLASSIFIED PER JCS LTR 47  
20 AUG 78

REURAD APOOP-AD 56864, 8 Nov 50.

Part I. There can be no doubt that the Army Eight, with the assistance of FEAF COCARCOM, ran away fr its logistics in its adv north fr the 38th parallel. 5th AF, with concurrence this hq, voluntarily gave up to Army Eight its allocation of airlift because Army Eight needed mogas and rations more than air support. Entry of Chinese Communists changed situation and caused Army to pull back to a natural defense line. This left Army Eight out on a limb logistically speaking because of sorry condition all surface trans facilities. The situation reports, rail lines and highways is rapidly improving, but this improvement offset to some extent by recent arrival in Sinenju area of additional UN troops.

Part II. Gen Walker cannot safely initiate offensive until he has accumulated an adequate level of ammo, POL and other supplies. Discussions with GHQ G-4 and G-4 indicate it will be at least 3 wks before surface trans can meet Army Eight's normal supply requirements. It is, therefore, essential that COCARCOM continue to supply Army's needs to utmost of its capabilities. At the same time, 5th AF must utilize a larger proportion of available a/lift in order to enable it to move units forward to more advanced bases to meet enemy air threat and to more effectively furnish close support to ground troops. Most serious limitations are terminal airfields which are used by combat as well as cargo

acft. Capacity of Korean airfields simply would not permit doubling airlift while at the same time rendering combat tactical air support.

Part III. General Bolte's statement re ground situation is correct, but his statements re Turner's capabilities are not quite as accurate. We could use much more airlift than is available, but Bolte's recommended solution of triple crews is an oversimplification. Re C-119's, spare parts situation alone precludes higher utilization than 3 hrs per assigned acft per day which can be achieved with one operating crew and present mtnc pers. C-54 is Turner's most effective transport, particularly for long hauls, and additional operating and mtnc pers for this type would pay excellent dividends. Turner states C-46 is much less effective than C-54 for present operation. Therefore, while 437th will increase a/1, it will not at present strength completely fulfill max requirement.

Part IV. As stated in Part II, present logistic emerg expected to be over soon. However, with further grd force advances, other such emerg will undoubtedly arise and it is, therefore, recommended that augmentations be made to C-54 and C-46 crews and mtnc support. Manning requested is that nec to provide a utilization rate per assigned acft of 8 hrs per day for the 2 C-54 sqdns and 6 hrs per day for the C-46's assigned to the 437th Wing.

Part V. Accordingly, request FEAF be provided the following pers and troop space auth. Further request pers arrive here ASAP and be assigned for an indefinite period. For C-54 sqdns, 22 crews and 51 mtnc pers. For 437th Wing, 48 crews and 114 mtnc pers.

DECLASSIFIED PER JCS LTR OF  
20 AUG 75

In 4 parts.

Subj: Policy on Ftr Escort.

Part 1. The provision of Ftr escort when req'd by BOMCOM is the responsibility of 5th AF Korea and such Ftr escort will be given highest priority to units designed to insure the maintenance of air superiority. Decision to provide or deny Ftr escort will in all cases rest w/CG 5th AF Korea. Decision on provision of Ftr escort, scale of Ftr effort provided and related considerations w/b based on the current tactical situation, our intel estimates concerning an order of battle, type of escort req'd, effort available w/ total capability with due regard to the discharge of other missions and similar related factors. In all instances where 5th AF Korea denies Ftr escort, the req'g unit concerned w/b be informed of negative action on req for escort.

Part 2. Due to the rapidly changing tactical situation and similar considerations, no firm, unvarying policy can be prescribed; however, the following criteria is established for guidance: Ftr escort w/n normally be provided for bomb acct groups in formation which provide mutual protection except when attacks are made against critical tgts where a positive reaction may be expected.

3. Ftr escort w/n normally be provided for transport acct groups behind friendly lines or in an area afforded automatic

Part 1. All out commitment of FEAF bombers today to attack Sinsaija and International bridges there makes it impossible to attack bridges south of Suiho Dam where heavy any traffic is reported. Our pilots report hundreds of vehicles moving to south from Manchuria on highway through Sakchu.

Part 2. Request naval forces attack and destroy International bridges at 4028/12453 and 4024/12449 to block further any movement. Priority to be given to highway bridge at 4024/12449. CINCPAC has indicated approval to destroy first overwater span on Korean side of all International bridges between Manchuria and Korea provided Manchurian territory and air span not violated.

Part 3. CINCPAC concurs in this request. CINCPAC orders are that hydro-electric plant and associated facilities at Suiho must not be attacked.

Personal for Twining from Stratemeier.

Ref OUPAD VC 0329 dtd 7 Oct 50 urging favorable consideration of continuing F-84 project, and YOURAD AF OOP-0055824 dtd 21 Oct 50, discontinuing this project. I urgently request reinstatement of project to dispatch six (6) F-84 Es to this theater. Depending on the developments of the situation. I contemplate requesting assignment of two (2) F-84 Wgs to FEAF. The early presence in this theater of 6 acft of this type will enable us to become more rapidly familiar with the operational characteristics of the F-84 and with its supply and maintenance problem. I feel that it will be of great value to USAF and to FEAF to battle-test these airplanes.

Re CINCPAC msg CX 68237, 4 Nov. This red in 2 parts.

1. NAVFE has informally indicated that necessity for respotting aircraft on CV flight decks creates extreme difficulty in the hourly launching and recovery of 4 plane flts reqd for continuous close support. Further because of fleet location off east coast they desire operational areas favoring carrier locations.

2. Desire your requests for carrier acft participation in tactical air operations over Korea be based on 7th Fleet indicated capabilities. Normally limit reqst for close support flts to those which can be launched in coordination with interdiction strikes or which are otherwise indicated as avail. Except when urgently needed in western area and beyond your capabilities, 7th Flt acft normally assumed avail for central and eastern areas.

DECLASSIFIED PER JCS LTR OE  
20 AUG. 75

Because of shortage of suitable airfields in central and North Korea, it is inevitable that there will be competition for the use of those which do exist. The fol factors apply to this situation:

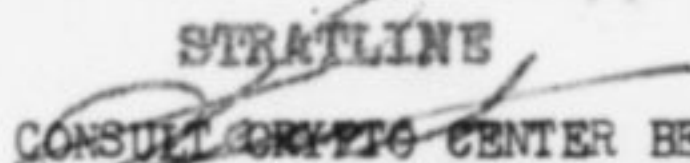

- (a) The sudden increase in both quantity and quality of any air activity.
- (b) Resultant necessity for moving 5th AF combat units forward.
- (c) Initiation of rail traffic to Pyongyang together with opening of port facilities at Haeju and impending opening of port at Chinampo.
- (d) Opening of port and availability of cargo handling facilities at Wonsan and Iwon. In view of above, it is my desire that priority be given to reqmts of 5th AF for use of airfields in central and north Korea and that occupancy and use of these fields by acft of COCARCOM be limited only to that which is nec to airlift emergency supplies and equipment. COCARCOM is directed to lend all possible assistance to the forward move of combat units of 5th AF.

This radio in 5 parts. Subject: Destruction of North Korea.  
Part 1. On 5 Nov 50, General MacArthur directed the following actions:

A. "Destroy the Korean end of all international bridges on the Korean-Manchurian Border." I interpret this as meaning the first over-water span out from the Korean shore.

B. "Except for Rashin, the Suicho Dam and other electric power plants in North Korea to destroy every means of communication and every installation, factory, city and village. This destruction is to start at the Korean-Manchurian Border and progress south."

C. "All targets on or close to the border will be hit under VFR conditions only. There must be no violation of the border. The border cannot and must not be violated."

D. "A maximum effort will be made by FEAF for the next two weeks. Combat crews are to be flown to exhaustion if necessary."

Part 2. Effective immediately the above policy directives will be put into effect. Specific directives will be forthcoming. Direct communications between 5th Air Force and FEAF Bomber Command are authorized. FEAF Bomber Command will station a Liaison Section with 5th Air Force.

Part 3. In general, FEAF operations orders will assign to FEAF Bomber Command the mission of destroying Korean end of the permanent international bridges with 5th Air Force destroying pontoon bridges which may be built. FEAF Bomber Command will destroy the cities and large towns. Aircraft under 5th Air Force control will destroy all other targets including all buildings capable of affording shelter.

Part 4. Note carefully that the above policy is effective up to the Manchurian Border but not to the Soviet Border. In the latter area, these operations will not be conducted north of a line running from Chongjin to Musan.

Part 5. It is essential that we obtain immediately photo reconnaissance of the Manchurian Border area of North Korea, particularly of the international bridges. Your RF-80s should be put on this job at once. They must not violate the border in obtaining this reconnaissance. Advise me of any reconnaissance targets your RF-80s cannot photograph in accordance with this policy and I will assign those targets to the 31st Squadron.

"This msg in 2 parts.

"Part 1. The fol instructions applicable to the recall of the AF Reserve and the Air National Guard are effective imm:

A. No add AF Reserve airmen w/b involuntarily recalled to AD. Those airmen currently on orders but who have not been processed into the Active AF w/b given a choice of complying w/existing orders or req'd orders rel'g them fr AD.

B. Involuntary recall of reserve offs w/b confined to those offs possessing skills not avail fr voluntary procurement or tng resources. Every effort w/b made to meet req'ts w/volunteers.

C. Recalled offs w/b drawn fr the organized reserve and the volunteer reserve, utilizing to the maximum extent feasible and organized reserve.

D. Individual recall notice will, in no case, be less than 30 days and every effort w/b made to extent this period.

E. Offs w/4 or more depns will not be recalled involuntarily. Offs and airmen already involuntarily recalled who have 4 or more depns will be separated upon application. Depns under this policy are those as defined in Par 102 C, Career Compensation Act, 1949.

\*Part 2. The fol policies are announced for planning purposes only and will not be implemented until detailed instructions are issued fr this hq:

A. The AF will canvass all reserve and Air National Guard pers presently on AD who were involuntarily recalled, to determine their desires for retention or rels. Airmen w/b given the opportunity to enlist in the Regular AF for a period for 4 years in their grade currently held if recommended by their Unit Commander. Those airmen who do not elect to enlist w/b relsd as soon as trained repls can be secured fr other sources including recruits and transfers fr other units. Offs involuntarily recalled to AD w/b given the opportunity to volunteer for continued dy. Those who do not elect to remain voluntarily on AD w/b relsd as soon as trained repls can be secured. In no event will offs or airmen be retained involuntarily for more than 21 mos.

B. With the probable exception of 1 Air National Guard support type unit it is not contemplated that the AF will need to recall organized air reserve of Air National Guard units, to meet the presently planned program expansion.

C. The AF will urge and support reserve off contract legislation providing for specified term contracts of 3 yrs for AD w/adjusted compensation in the event of separation prior to termination of such contracts.

D. The AF is considering expanding its regular off appointment program for this fiscal yr with follow toward building up its regular off strength more rapidly towards the authd ceiling of 27,500 Junior Reserve and Air National Guard offs on AD who meet current criteria will have a better opportunity to compete for these regular commissions the AF will continue its survey of the serve forces designed to insure the mobilization potentiality and aval of its organized reserve and Air National Guard-both units and individuals. Emphasis w/b placed on assuring that all pers in the organized reserve and Air National Guard are proficient in their skill, qualified in their gr, physically qualified, and aval for mil service when required. Pers who are deferable or otherwise disqualified w/b relsd fr the Reserve program. This screening w/b accomplished as expeditiously as possible.

F. We are hopeful of attracting into the active AF a greater number of off volunteers fr the Air National Guard,

1. Bearing in mind that the combat off and mobilization potentiality of our Air National Guard offs to apply

for extended AD and requires appls to be aprvd by the State and by the National Guard Bureau will be continued and emphasized.

2. Wide publicity given these policies shd stress that the AF is not retrenching but is endeavoring to meet its strength increase through voluntary resources. It is the objective of the AF during this period to develop and maintain an active AF in being manned to the maximum extent possible w/longterm volunteers, backed by a well equipped, trained reserve and Air National Guard, ready for imdy in the event of war. It is believed that long-term volunteers mean greater stability for the AF, more effective use of power, and a greater economy.

DECLASSIFIED PER JCS LTR OF  
20 AUG 75

At 1718 L hrs, 5th AF reported that 6 to 9 type 21 or 14 MIG were seen at AX 3515 between 1345 and 1415. Acft had 30/35" span, swept wings, short, thick fuselage. 1 acft displayed red star on top of right wing. Appeared to be burned green & silver color. Wake pass firing 3 squirts at 2000'. Pass made was pursuit curve. Formation was in trail when 1st seen. Acft can apparently turn very sharply and have very steep angle of climb. Also very very fast. Mosquito pilot believes one, closely observed, to be MIG 14. Elsewhere B, a flight of 4 F-51's engaged en in dog-fight and are believed to have hit one. En broke engagement and damaged acft returned to northwest over Yalu River. Standard 14, mosquito plane, reported 1 reciprocal engine en fighter appeared about 20 minutes prior to jet attack.
