Request emergency approval to renovate the messing facilities and hot water facilities at the 361st Station Hospo, Tokyo. This work is urgently required to increase the size of this hospital approximately 50% for hospitalization of U.S. casualties from Korea. Three floors of the Detachment Building will be converted to facilities for patients. The present consolidated mess at this hospital serves both duty personnel and patients and is not adequate to serve the additional patients. To increase the facilities to serve the increased number of patients, it will be necessary to operate a mess in the Detachment Building. Work involves renovation space in Detachment Building for use as kitchen, install necessary equipment for kitchen, install 50 HP Kewanee steam boiler, 350 gallon hot water generator and necessary wiring and control switches. Amount \$26,736.69. This renovation will increase the capacity of the 361st Station Hospital from 500 beds to 750 beds.

DECLASSIFIED PER JCS LTR OF  
20 AUG 75

Non-availability of military payment certificates to personnel of Korean platoons coupled with current GHQ FEC directives that no free motion pictures are authorized to personnel in Japan other than hospital bed patients, creates morale problem in units with attached Koreans if such attached United Nations national personnel are excluded from attending movies. Free movies are authorized in Korea proper. To permit free movies for attached personnel and currently charge admission for American personnel for same services is an even greater morale problem. Recommend and request that FEC Army Motion Picture Service provide motion pictures of personnel of the 7th Inf Div and attached units, within the Div areas, at no charge for admission.

This msg in 2 parts, U subj Diesel Elec Locomotives for EUSAK.

Part 1. Rqst procurement of 13 each, 1000 horse power, 127 ton general purpose alco or emd type diesel elec justification, 5 diesel locomotives are required for opn in ammo dumps and depots where the lack of engine hoses and distance from svc facilities makes the use of steam power impractical. 8 diesel engines are required for proposed landings at 2 ports where water, coal and engine hose support for steam locomotives will probably not be avail when the enemy withdraws, diesel locomotives also produce more unit motive power hours per day with a min of maint thereby reducing to nr of motive power units required. This msg originally came fr EUSAK.

Msg in 4 parts:  
parts 1 through 3 to CINCPAC.  
part 1: Request assignment shipping space lift 4,000 iron  
steel rails, 33 feet long, from Yawata to Pusan. Shipment avail-  
able for immediate lift. Supplier Yawata Iron and Steel Works  
delivers POB Yawata. This cargo was shut out due to withdrawal  
Empire Marshall.  
part 2: Request assignment shipping space lift 100,000  
each railroad ties, 4,300 long by 6,000 mtous from Kagoshima to  
Pusan. Supplier Iwazaki Sengye delivers POB Kagoshima.  
part 3: Ref Eighth Army msg EX 39414 JMW, 27 July 1950.  
366 pieces steel "I" beams delayed through technical difficult-  
ties. 72 pieces, 60 feet long, available Yawata now. Remainder  
delayed until middle September. Request assignment shipping  
space accordingly.  
part 4 to Director Port Operations Kyushu: Desire arrange-  
ments be made for loading and manifesting of Kagoshima and  
Yawata cargoes. Advise this HQ if on spot inspection reveals  
discrepancies in availability dates and quantities listed above.
