MEMORANDUM FOR RECORD:

SUBJECT: Shipment of ECA Vehicles by LST to Korea

1. ECAFO in letter to SCAP, dated 22 December 1950, requested concurrence of the military for shipment of 214 trucks to Korea by chartered LST, the Wanyiu, a Chinese registry vessel, owned by the China Merchant Steam Navigation Co.

2. In telecon, Colonel Hensey (G-4 KEAD) and Lt Colonel Sundlof (EUSAK CAS), clearance was given for movement of one shipload of approximately 75 trucks with the further request that vehicles be loaded with direct relief supplies in the following priority: Blankets, clothing items, and tentage, and in a ratio of 4, 2, 1 respectively for above items.

3. Instant msg directs JICOM to load vessels with above relief supplies.

4. In clearing vessel for acceptance, G-2 CI Director (Major Tobin) stated that there was no record on vessel and no derogatory info on the company itself on 22 June 1950; however, Major Tobin stated that PMO had derogatory info on the company. Lt Colonel Kemp (PMO) stated that derogatory info on the company is not sufficient to doubt reliability and refusal to use vessel concerned.

5. Coordination: ECA (Capt. Meschter, Mr. Jane' and Mr. Coleman)
G-4 P & O (Lt Colonel Ruhlen)

6. This action is within established policy.

7. Initiated action completed. Relates to G-4 JN 19516.

8. G-4 KEAD follow-up suspense date: 26 December 1950.

MEMO FOR RECORD:

1. JLCOM msg EX 32839 JM DTG 161735Z advised that JLCOM must be allocated an average of 6000 net M/T ship capacity daily to Korea. Msg indicates that priorities expressed by official Army Eight rep are: POL, vehs, and rations, respectively. In addition, high priority must be assigned to mvmt of Marine material from Kobe. Msg rqstd that MSTSWESPAC berth at least 1 ship at Yoko on 17 Dec, and additional vessel as required in order to meet Army Eights minimum requirements.

2. JLCOM msg EX 32853 JM DTG 180523Z stated that JLCOM is controlling closely the bookings of supplies for shipment to Korea, in order that shipping will be the minimum essential. Msg rqstd that as a basis for essential near term planning, CG JLCOM be furnished the best possible projection of shipping that is to be allocated for movement of cargo from Japan to Korea.

3. In addition to the vessels listed in outgoing action, the Valdosta lifted 5776 M/T mogas from Sasebo to Pusan 16 Dec, the Herkimer 1312 M/T from Sasebo to Pusan 17 Dec and the Norcuba lifted 910 M/T from Yoko to Hungnam 15 Dec.

4. COMNAVFE msg 170430Z stated it is expected shipping will be available about 27 Dec for all routine lifts.

5. The availability dates of the vessels listed in outgoing action were extracted from JLCOM's port operations report, TC 58, for the period ending 2400 hours 19 Dec 50. The allocation of these vessels was coordinated with MSTSWESPAC (Cdr Flachsenhar).

6. Action completed on TJs 5002 and 5034.

These biscuits are for use as field rations for indigenous pers employed by X Corps in connection with anti-guerilla activities.

2. 8th A cited msg to CINCFE states sup action cannot be taken since auth is lacking to make issues to indigenous pers employed by US Mil forces.

3. It is considered the biscuits should be sup to X Corps and should be considered as relief sup for the purpose of preventing unrest. The relief budget rqst sent to DA provided for 3,000,000 bags of biscuits whereas only 2,000,000 are being proc during 2d qtr. 3. Ref 2a directed JICOM to allocate helicopters as available for issue to U.S. Army units in priority as follows:
 - 3 per Army headquarters
 - 2 per Corps headquarters
 - 4 per Infantry division

Ref 2b requested DA to proceed with action to supply FECOM 50 helicopters for personnel casualty evacuation use, and 33 passenger type for assignment to U.S. Army units in accordance with above allocation.

Ref 2c recaps supply action taken to meet FECOM helicopter requirement as follows:

3 each H-13-B, have been supplied one each to 4th Sig Bn (X Corps unit), 2d Inf Div, and 3d Inf Div.

16 each H-13-B (4 Det 4 helicopters each) scheduled to arrive, 8 in Nov and 8 in Dec.

8 each H-13-D (personnel evacuation) airlifted between 31 Oct - 3 Nov.

10 each H-13-B (being rehabilitated) estimated available for shipment 15 - 30 Dec.

12 each H-23 (personnel evacuation) being negotiated for from Navy.

Grand total to be available is 49, of which 29 are passenger type H-13-B and 20 are evacuation type H-13-D and H-23.

3 November 1950

MEMORANDUM FOR RECORD:

SUBJECT: Movement of the 10th Station Hospital

1. For additional background see G-4 16113.

2. In brief the above action indicated G-4 concurrence in moving the 10th Station Hospital to Pusan to replace 8054th Evacuation Hospital. This action resulted in the dispatch of CINCFE message 68039, 2 Nov 50, which ordered the move.

3. In conversation with G-4 (Maj Tilton) on 2 Nov 50, Medical Section (Maj Caito) stated that the 10th Station Hospital would be used to replace the 8054th Evacuation Hospital now in Pusan. The 8054th Evacuation Hospital has been acting as a Station Hospital but upon its relief by the 10th Station Hospital it will be moved forward in the Eighth Army Zone and resume its activities as an Evacuation hospital. The 10th Station Hospital will take over the location and equipment of the 8054th which means that its organizational equipment enroute from the ZI will not be required. Field equipment for an Evacuation hospital is available in Korea for the 8054th.

4. Recommend approval of proposed message to CG JLCOM which informs him that the 10th Station Hospital will move to Pusan less equipment.

5. Within established G-4 policy.

6. Initiated action completed.

2. The foregoing powered lighters are urgently required for stream discharge and cargo handling while beached on mud flats. At present there are no Army vessels capable of performing the required functions. Because broad beamed, flat bottomed craft are the only type of powered vessel which can be successfully worked in this type of operation, vessels of the class of LST's, LSU or LCM would be required. vessels of this type were transferred to the Navy for tactical operations. Flat topped cargo barges, non-propelled have also been committed during the present hostilities. Further, it was planned, that due to the tide and anticipated destruction of port facilities in Korea, that stream discharge and over the beach cargo handling could best be met by charter of indigenous craft, for relatively short periods of time. Also by including a mother ship, refueling tanker and repair ship, together with a water barge, the contractor would have a self-sustaining unit complete with living quarters, ration storage, water, lighter repair and bunkers. This type of cargo handling is presently in operation at Pusan, Inchon and Wonsan and appears to be workable; Accordingly, this request for craft to operate other ports in North Korea in a like manner can be expected to produce like results. Also the utilization of locally procured craft and services, reduces the drain of floating equipment from the ZI stock pile or requiring local new construction to supply the military requirements during the period of hostility. Accordingly, it is recommended that the vessels requested by CG Army Eight be chartered and delivered as expeditiously as possible.

MEMO FOR RECORD (Cont'd)

2. The procurement of Japanese stevedores to assist in the discharge of cargo from vessels during and subsequent to amphibious operations at Korea was approved by the Chief of Staff on 30 Aug. These personnel were "for use in base operations only" (Reference, Memorandum for Chief of Staff, subj: Procurement of Japanese Stevedores, 30 Aug 50, submitted by Brig Gen G.V. Keyser, Office of Deputy Chief of Staff (Trans Sec, File TS (A) 232)).

3. G-4, GHQ, FLC, approved the dispatch of radio CINCPAC CX67157, 22 Oct 50, to CG Army Eight and CG JLCOM which directed CG JLCOM to obtain the 100 checkers and the mother ship, and requested information as to time and place for the recruits to report so that CINCPAC can assist by handling recruitment arrangements with Central Government authorities. CG Army Eight was advised that the recruitment of Japanese checkers is considered an expedient only and that their release is desired as soon as practical.

4. Radio CG JLCOM, EX 31687, 27 Oct 50, to CINCPAC (in part) and CG 2d Trans Major Port (in part) requests that the Central Government be advised to have applicants report to the Japanese Labor Office, 2d TMP, Yokohama. Mr Richers, CTS has coordinated with Mr L. C. McVoy, Labor Div, ESS, SCAP, to have the Central Government coordinate recruitment with the 2d TMP. Mr McVoy recommends that a minimum employment of 60 days be guaranteed to assist in recruitment. Radio EX 31687 requests scale of wages and allowance authorized. To preclude dissensions, the checkers will be paid in a direct proportion to that paid the stevedores.

5. Radio EX 31687 states "It is assumed that the provisions of letters, GHQ, AG 400 GD, subj, 'Supply for Japanese Stevedores,' dated 11 and 20 Oct 50, which authorizes issue of Army clothing and rations to Japanese labor apply to this project." This project is allied to the supply of stevedores for Korea. Major E.J. Cohen, G-4 Supply, has coordinated the authorization of supply with Major L. L. Snapp, Quartermaster Section, GHQ, FLC. The GHQ, FLC letters referred to have certain limitations regarding types of stock for issue.

6. EX 31687 requests 2d TMP to procure the 100 checkers by direct hire. They will be quartered aboard the USAT FS270 which has a target date of 31 Oct for departure. The radio authorizes issuance of subsistence to passengers and crew for 90 days. The 2d TMP will direct the FS 270 to proceed to Inchon, where it will remain as a mother ship for the checkers, until released by USA port authorities.

7. Concurrence: (Supply of rations and clothing) Col B Hamlett, G-4 Supply, GHQ, FLC.

8. Coordination: Mr Richers, CTS
Mr McVoy, ESS (Labor Div)

9. Action completed in Trans Jo 2467 (radio CINCPAC CX 67157, 22 Oct 50) and Trans Jo 2708 (radio, CG JLCOM EX 31687, 27 Oct 50).

Information GHO, FEC indicates approx 20 million board ft lumber being shipped prior to 1 Nov 50 fr Philippines to Yokohama aboard coal ves for transshipment to Korea. DEPCOMSTWES-PAC advises unable to place these ships under charter for onward routing. Desire action be initiated by CG JLCOM to have contractor divert these vessels to Korean ports selected by CG Army Eight, as being ports of destination for a most expeditious discharge.

Desire that future procurement actions for large tonnages of this nature be thoroughly coordinated, prior to actual sailing of ves, to avoid possible claims against US govt for demurrage, war bonus payments, etc.

Suggest purchase FAS and lift on IETS controlled ves to avoid difficulties in entering ports and waters of combat areas.

a. Part 1 confirms telephone conversations between Trans GHQ (Maj Parr) and Trans JLCOM (Mr. Post) booking following cargo to be loaded between 18 and 25 Oct destined Pusan for onward routing:

- (1) 19,380 M/T including 8,408 M/T vehicles from Yokohama.
- (2) 4,242 M/T including 1,820 M/T vehicles from Kobe.
- (3) 765 M/T including 6 each M-4 A-3 tanks from Moji.

Ms. states Meridian Victory, Stathes Yanaphas, Afundria and American Attorney have been committed for this lift.

b. Part 2 requests shipping be assigned for shipment of pers and equipment of Embarkation Div E from Yokohama to Pusan for onward routing. Ms. states loading is to begin 18 Oct and complete on or before 25 Oct, and it is estimated entire lift will require 3 Victory type vessels or equivalent and a passenger carrier. Presently booked are 27 officers, 556 EM and 12,869 M/T including 204 vehicles and 24 tanks, with 10 units remaining to be booked. Included in this lift is 2d Amer Special Brigade which has been assigned Priority 1, and which has 31 LCMs to move.

c. Part 3 requests that routing of Arcadia Victory be changed to make Inchon first port of call.

2. Re part 1 above msg: Verbal bookings received from JLCOM (Mr. Post) total as indicated in outline msg. Vessels listed were nominated by MSTS and JLCOM informed verbally by Trans GHQ (Maj Parr).

3. Re part 2 above msg: COMCOMSTSWESPAC (Cdr Flachsenhar) stated in telephone conversation 17 Oct that a personnel carrier will not be available until approximately 23 Oct and it is not known at this time which transport will be nominated.

4. Re part 3 above msg: Arcadia Victory is loaded with ammo for both Pusan and Inchon discharge. MSTS dispatch 170210 Z routed vessel to Inchon thence Pusan for discharge.

5. Action suspended on Trans Jo. No. 2323 until 23 Oct.

MEMORANDUM FOR RECORD:

SUBJECT: Arrival of Drummed Petroleum in Korea

1. Part II JICOM msg 31335 PFL to CINCFE requests that action be taken to assure arrival Korea items in reference radio scheduled for October arrivals.

2. Instant message invites the attention of JICOM and CG Army Eight to the fact that DA has furnished what information they have had available at that time as to the shipment of these products to Korea. Instant message further notifies that all possible steps have been taken and are being taken constantly to insure timely arrival of all petroleum products in the Far East Command and that any further information received will be forwarded in case the consignee is not an info addressee on the information.

3. CINCFE requested the drummed POL on Packaged Shipment Request No. 43 and made a separate communication request in the form of a radio to ASPPA. ASPPA followed up the shipping information by their radio W 92236 dtd 22 Sep 1950 in which they indicated the action that has been taken to supply these products. JICOM, CG ARMY EIGHT AND SAPOK were all Information Addressees on this message.

4. CINCFE cannot insure arrival of any item to Korea, since CINCFE is restricted to the use of msg forms and letters that request the item and also the follow-up on these items. If the petroleum is not shipped from the States, there is nothing that CINCFE can do, outside of the follow-up, which is being done constantly.

5. This action is within established policy.

6. Petroleum Division follow-up suspense: None.

7. Action completed on G-4 Journal #14966.
