In communication handed Rusk by Dening, Panikkar, Indian Amb Peiping, states change in war situation Korea is likely have considerable influence on Sino-Soviet relations. Recalling chequered past of relations between top Chi Commies and Stalin, whose claim to infallibility has never been accepted in China, Panikkar observes recent turn of events Korea has helped to bring home to Chi Commies weakness of Soviet policy and their own unhappy experience in past with polit strategy directed from distant Moscow. He thinks Chi Commies will hereafter be more inclined follow their own line. Aser belief that Chi Commies will take action to suit Soviet policies against their own interest or out of belief in Soviet infallibility or strength is based, Panikkar holds, on Formosa propoganda. He believes, if western nations refrain from interfering with free play of forces (on Formosa), result of Korean developments is likely be strengthening of Commie China's position in relation to USSR.

Husk has received from Dening in NY text of 2 tels from Brit Amb Moscow, who, in speculating on USSR's reaction to turn of mil tide in Korea, says that, if Sovs realize that prospect of tangible gain for Communism in Korea has evaporated, they must seek to minimize Commie setback. While Sovs would presumably welcome restoration status quo ante, Amb feels they would be somewhat inhibited from putting forth proposals designed forestall UN occupation North Korea. Neutralize danger this would constitute by fact they would either be forced link themselves too closely to lost cause or too obviously disavow their Commie proteges. They would, however, take advantage of any well-intentioned but naive proposal which might be suggested in UN. If no such proposal is forthcoming, principal Sov effort would have to be in propaganda field or it could take form of attempt distract world's attention from Commie losses in Korea by heightening tensions at another point, K.G., Berlin or Indo China. As to whether USSR will consider defeat in Korea sufficient cause for war, Brit Amb notes Soviet losses in men and material in last war, Amer industrial potential and atom stockpile, transitional and unconsolidated status of "new democracies" and Soviet addiction to grandiose planning argue against war. On other hand, actual Soviet superiority conventional arms and organized manpower, and their consequent ability seize all advance bases in Europe and sources of oil etc, in Asia might impel USSR to war. North Korea is already prejudged in US, Amb says post-war actions of victors in Korea, if properly handled, provide unique opportunity remove Asiatic suspicions of Western selfishness and "Amer imperialism".

To this end he suggests program for Korea should include concrete sacrifices from Western powers, thorough-going land reform, no support for reactionary govts, even if this means Rhee has to go, and avoidance by US of open assumption of dominant role in Korea.

Although Dept appreciates difficulties involved, in view apparent possibility imminent return of ROK Govt to Seoul req you make every effort discourage Rhee or other ROK spokesmen making pronouncements re ROK's unilateral extension authority N 38 deg. This matter being considered highest govt levels; also of vital concern to all UN Member States. Any unilateral public statement fm ROK can only have harmful effect on attitude UN Members. ROK delegation in confidential discussions with other UN delegations is at this time most eff method conveying ROK views. You shld emphasize to Rhee his cooperation with UN at this time of utmost importance to future ROK.

REURTEL 659 Sep 19. After due consideration Dept has deemed inadvisable raise with SYG your suggestion Katzin be direct negotiate with ROK jurisdiction waiver agreement cover non-US members UN Armed Forces and other UN nattle with UN Forces. Dept indicated in Tel 48 Jul 28 to Amb Muccio rptd USPOLAD and CINCPAC for info that civil affairs and financial agreements are on behalf Unified Command and govern not merely US Forces but all forces under Unified Command. Similarly any agreement on jurisdiction shld likewise apply all forces under Unified Command.

Katzin does not now have auth negotiate such agreements. It might indeed be conferred upon him through cumbersome process of request to SYG by each country involved that Katzin negotiate with ROK on that country's behalf. This however, wld duplicate and might conflict with auth in Unified Command implicit in Jul 7 SC Res.

Since it wld be appropriate all UN Forces enjoy waiver already extended US Forces by ROK as reported Tel 38 Jul 12 from Taejon further similar undertaking on behalf non-US Forces may be negotiated by Amb Muccio. Although exchange notes reported Tel 38 Jul 12 from Taejon was not cleared with Dept it is assumed in view context and as court martials exercise only criminal jurisdiction that immunity granted thereby is from criminal jurisdiction only. It has been Depts policy not request friendly govts grant immunity from civil jurisdiction for members armed forces in view inability court martials exercise such jurisdiction and for other reasons.

Rptd to Muccio Pusan for action.

Since many among even non-committals continue express

"South Koreans didn't fight because had nothing to fight for"  
emb feels interview wld give suitable occasion for Rhee to

true because Loffredo dispatch wld be made available entire

For effect here we recommend Rhee emphasize econ progress

We have also received through Dept of Army an unsigned document under caption of MINFIN of Jap govt, purporting to be list of certain dollar bonds which had been converted into Yen obligations." Covering sheet on latter document, dtd Apr 6, 1950 described contents of document as follows: "Detailed statement of dollar bonds which were converted into Yen bonds on strength of certificates of ownership issued by Minister Fin, pursuant to provision of Article 9 of Regulations for Enforcement of Law relating to treatment of foreign currency bonds, and whose original securities are deemed to be remaining abroad." It is contemplated that New York Stock Exchange will rule that bonds which Jap govt deems to have been converted into Yen obligations will not be "Good Delivery" against transactions in exchange once trading in these securities is resumed. List that we received is not suitable for filing with commission or to serve as basis for such ruling, since it is not signed or otherwise authenticated.

"Reviews and comments by Sov writers with Milit rank. re Korean hostilities, recently have indicated that NK Forces are encountering strong (and by implication, effective) opposition. While continuing to assert NK successes and to denounce bombing and shelling of UN-Milit tgts, these commentators apparently are finding it necessary to offer some explanation for failure NK Forces to push on into sea.

Example this tendency is fol from art by Lt Col Kovalov, introd Sep 10:

"The Interventionists, making use of natural boundaries rivers and mts, have formed powerful line of defense in Pohang-Taegu-Pusan triangle. Up to 6 Am Div, remnants of Syngman Rhee units and an immense amt materiel have been concentrated in a small section of Southern part of Korea. The aggressors calculated not only on halting offensive of Peoples Army but also on carrying out a large scale counter offensive."

Altho such arts invariably conclude on confident note certainty victory, "Korean patriots", Sov reader cannot fail to detect that all is not going entirely well."

UP Jess Sep 10, reporting joint press conference of Pres Rhee and Gen Church quotes Rhee to effect UN advance imminent and "We will not stop until Reds driven entirely out of Korea."

Dept fully appreciates difficulty limiting expression Rhee's views on advance beyond 38th and relation this subj to Kor morale. However, important that all Amer personnel dealing with Rhee and senior ROK Govt personnel carefully avoid expressing views on this subj that could in any way be interpreted as expression of US policy. This complex question is being considered at highest levels US Govt in light many changing factors including vital importance of maintaining high degree of UN support for whatever policies are adopted. You will be informed of decisions when reached, and, any communication thereof to Govt ROK can be made only by you as Amer Amb.

For ur info in reply to question on television interview on Sep 10 Sec replied that he should like to underline that whether or not "we stop at the 38th Parallel" is a UN decision. He went on to state that "the UN have set up the goal of a united and free Kor. That was in their resolution in the GA in 47 and 48. Now, how this UN operation is conducted is for the UN to decide. And --- the UN cannot decide that until it is clear as to how and under what circumstances its forces reach the 38th Parallel."

List of offers various countries to provide asset UN effort in Korea as published last wk includes 20 C-46 a/c fr Chi Govt. Local inquiry suggests this relates to proposal in recent ltr fr Gen Chennault to Gen Stratemeyer. Chennault made same suggestion to Chi Govt but latter apparently has not transmitted offer formally. Gen Min told me they wd be glad see planes used to assist UN effort but I gathered he somewhat diffident about making formal proposal view experience with previous offer of trps for Korea.

Practical situ is that CAT Inc and Chi CAA have some 20 C-46 a/c in good condition but laid up for lack of business. CAT has negotiated fr time to time for use of these a/c, with crews which usually include 1 Amer pilot and other members Chi, in Japan Korea and Indo-Chi. If they are needed in either theater suggest US officials there attempt expedite arrangements. Understand 3 CAT a/c already in svc between Japan and Korea. Signed Rankin.

Pol is New Delhi's 493 Aug 29th:

"1. Press reaction to mass air strikes against supply bases rail facilities, troop concentrations, etc, has taken alarming racial turn during past week. India News Chronicle (usually friendly) front-paged special articles on 2 occasions reporting alleged grave concern in official circles New Delhi over bombing raids which, report states, "are not carried out with any special care to avoid non-mil objectives but are such as must result in mass destruction civ lives and property" reported 11,582 civ bombing casualties are considered "factual substantiations of the fear expressed in India that air raids in Korea have been carried out in avengeful, terrorist spirit," and it is recalled that during last war, "Americans and other western people showed spl solicitude toward European men but adopted different code of conduct in Japan and elsewhere in the East, culminating in the choice of Jap towns as tgts for the 1st atom bombs." Times of India (pro-Commie) front-pages under heading "Widespread anti-US feeling in India -- indignation at bombing of Korean towns,". New York Times correspondent Trumbull's recent article reporting adverse Indian opinion to mass bombing.

"2. Prime Minister in press conference Aug 24th faced barrage of questions concerning attitude GOI toward these reports. He reportedly said "There is no doubt that hvy bombing is taking place in N Korea. We are very much concerned about it for a variety of reasons, particularly -- it kills innocent people and causes unnecessary damage. Secondly, it is likely to create more

problems and more trouble in the future. I personally and most of my colleagues are very much opposed, generally speaking, to this large-scale bombing that takes place. The experience of the last war shows that heavy bombing did not even produce the mil results that were hoped for." He added, however, that GOI lacked info as to how far mil or civ objectives were affected and, under those circumstances, it was difficult for him to judge the issue.

"3. In lengthy recent editorial, Indian News Chronicle followed up attack stating that economic consequences in Korea of bombing would presumably be disruption of rice production in wide area and while US, Australia and others might supply wheat to offset this loss, Korean people would have difficulty accommodating themselves to this change in food habits.

"4. This campaign appears to be concerted attack inspired by Communist elements. Embassy urges USNS be supplied detailed factual material to refute these charges."
