G-4 PLANS AND OPERATIONS DIVISION

GD P&O NCV/AJC/nm

12 October 1950

MEMORANDUM FOR RECORD

162

Subject: X Corps Reclaim on Assignment of Service Units.

1. CG X Corps by memo 6 Oct 50 forwarded a request for reconsideration by CINCPAC of assignment of service units to X Corps covering the 811th Avn Engr Bn, the 76th Engr Dump Trk Co and the 505th Trans Trk Co. A previous request for these units was disapproved by CofS 5 October.
2. The additional Engr units are justified by X Corps Engr on the basis of the necessity of developing at least 1 of the 6 airfields in the objective area for fighter operations and for aerial resupply and air evacuation. Justification further states that all present Engr potential will be fully committed because there are 5 major river crossing operations and 120 miles of difficult road in mountainous terrain. Justification states that if CINCPAC denies request for Avn Bn, the Dump Trk Co is an urgent requirement and that if both the Avn Bn and Dump Trk Co are denied requests substitution of presently assigned 76th Co in lieu of the 512th Co due in from EI.
3. The addition of the 505th Trans Trk Co to the 3 Companies assigned (377th, 513th and 515th) is justified by X Corps Trans O to clear tonnage from the beach to support 70,000 men at 1 ton/man/month.
4. Reference 811th Avn Bn, FBAF maintains his previous position that it is essential to keep it at Kimpo to improve that installation and to develop Suwon as a jet fighter field. This is estimated to require employment of the Bn for 30 days. GHQ Engr maintains his previous position that Bn should be given to X Corps. G-4 feels that the 811th should remain as presently assigned to 5th AF at Kimpo. To assign this unit to X Corps and move it by ship to the objective area would deprive CINCPAC of its urgently needed construction effort for at least 2 weeks. At present there is no positive indication that X Corps has a vital need for this unit.
5. G-4 considers that all of the units requested should remain in Korea and continue to actively support advance of main effort. If so retained they can be quickly diverted to higher priority projects in X Corps objective area if such develop. To float these units for possible employment is unacceptable from a G-4 viewpoint unless vital to the tactical concept.
6. Action neg was concurred in by G-3 and approved by CofS ROK 12 Oct 50.
7. Within established policy.
8. Action completed on G-4 JN 3884/14724.

(Z-19674) Personnel For Award Star Medals

Your MEMO this date, General Headquarters feels that all awards for
medal service, to include the MSM, the Legion of Merit and the
Distinguished Service Medal, should await the end of the campaign. It feels
that in no other way can there be any degree of uniformity in the awards
made to personnel in the various headquarters. This of course does not
apply to awards made for gallantry in action. All the recommendations
contained in your reference memo will of course be approved as long
as consistent with the above policy.

MEMO FOR RECORD:

TO: OLR: FAS: R: N: me
4 Oct 50

1. Report of staff visit to Inchon by Mr Senger, Trans Sec, GHQ, FEC, during period 26 - 28 Sep 50, indicated that a requirement existed for 3,000 cargo nets, 1000 pallet boards, 11 rope fenders, and 13 buoys, channel marking.

2. C/N 1, Engr, subj: Requirements of 2nd Engr Spec Brigade, 30 Sep 50, made reference to a list of items of supply requested by the 2nd Engr Spec Brigade and the priority involved from D to D-30. A sub-list of 13 items of TC supply was included and partially reproduced in instant C/N and furnished the Trans O for such action as deemed necessary. The information contained in this C/N was furnished by the Engr, GHQ, FEC, subsequent to visit to X Corps, 26 - 28 Sep 50.

3. Following is a list of reference TC items:

Item	Description	Quantity	Priority
1	LCs	49	#4 priority

NOTE FOR RECORD:

1. CG, X Corps msg X 10248 dated 27 Sep 50, advised Corps Commander's net
unworkable with equip avail. This net required to connect Corps Commander by
voice rad with major subordinate echelon commanders and requires six (6) mobile
terminals. Mobile terminals should be vehicular mounted to follow jeep at
medium speeds over rough roads and provide handset extensions on minimum of
30 ft cord. Push to talk system is satisfactory, but 2-way voice desirable.
Terrain is uneven with high hills and deep valleys and experience has indicated
rad propagation generally poor. Maximum distances expected to be covered 40
to 50 miles. Requested CINCPAC supply necessary equipment for eight (8)

terminals connect with qualified engineers to supervise installation and operation. Further advised no qualified operating personnel for other than military type equipment.

2. CINCPAC msg C-64725, dated 28 Sep 50, requested info on type radio equipment presently being used on Corps Commanders' vehicles. *Paraphrase not required. Consult cryptologic files.*

3. CG, I Corps msg I-10297, dated 29 Sep 50, advised "I am presently using SCR-193 and SCR-399, both unsuitable for this purpose." *Does handle account of this matter.*

4. Rad Engineering Branch, Mil *17a(1)(2) and 4c(2)(3) and (4) 48390-5. 15 Nov 50*, dated 30 Sep 50, to SigO, GHQ, summarizing the problem and suggesting three (3) possible solutions and recommending that, if this requirement must be met, the plan for the installation of the SCR-499 in the 3/4-ton weapons carrier be followed.

5. CG, I Corps msg I 10521, dated 4 Oct 50, requested info as to action taken I Corps msg I 10248 stating future operations make expeditious action essential.

6. Instant msg to CG, I Corps states not feasible to provide more powerful set than SCR-193 in mounting capable of following jeep without damage to equipment. States three (3) each SCR-499 being mounted in three (3) each 3/4-ton trucks for use as semi-fixed relay stations. Requests air priority and shipping instructions for above equipment plus three (3) each I-52 trailer.

1. Info in this headquarters indicates that adequate supply of 115/145 avgas is at Inchon approximately 8,500 drums unloaded from the Senyo Maru and 17,700 drums aboard the Alma Victory standing by in your harbor. In addition to this, the ship Eileen is due your command very shortly with additional 3,800 drums. In view of the above, it is not considered advisable by this headquarters to airlift any 115/145 avgas as long as sufficient supply is within your command.

Memo for Records: 1. X Corps msg X 10355, signed Muccio, inquired as to possibility of sending 15 trucks and 10 jeeps to Seoul immediately to make possible the distribution of available rice to the starving population.

2. Msg was addressed to both CINCFC and ARMY EIGHT. By telephone call to 8th Army (Col Treacy) it was learned that 8th Army's answer would be to effect requested trucks could not be furnished due to critical shortages of vehicles below TO&E of combat units.

3. Review of the most recent logistics reports of 8th Army and X Corps reveals that 8th Army is short 1,607 jeeps and 698 trucks, 2 1/2 ton, whereas X Corps is operating 203 trucks, 2 1/2 ton, out of an authorized level of 267. No data is available on jeeps under X Corps control. However, since X Corps went in with full TO&E and their combat losses should be comparatively light, it is reasonable to assume that their vehicle situation is good compared to 8th Army.

4. Instant msg advises X Corps of 8th Army inability to supply requested vehicles and gives reasons why CINCFC desires vehicles be made available from X Corps if possible without jeopardizing combat operations.
