MEMO FOR RECORD (Cont)

Mapping Agreement", dated 23 Oct 46 which states, "presumably, when the Chinese Government brings up the matter for discussion, the State Department, through the Embassy in Hanking, will make such official explanations as are considered necessary for withholding action upon the Agreement". Accordingly, no further action was taken by this Hdqrs toward advising the Chinese Government as to the status of the proposed Agreement.

Radio CTFSH 173 of 16 Jan 47 from Chief, AAG, Hanking, advises that apparently the Chinese Government has not been notified of the cancellation of the mapping project and requests information upon which to base official notification, since the Chinese are now proposing certain amendments to the Agreement.

This radio requests WARCOS to furnish necessary instructions to Chief, AAG, Hanking.

Reurad W89298 dated 10 January 1947. This radio in 6 parts.

Part 1. Totals per Part 3 of reference radio do not correspond with our totals as Army Forces Pacific Change Sheet No. 13 dated 9 November 1945 and those subsequent thereto reduce T/O units not repeat not overhead by 3099 spaces in Far East Command 1 January 1947 troop list.

Part 2. Present breakdown of troop ceiling is as follows: 188565 spaces for T/O units, 16123 (includes 1827 Philippine Scout Trainers) for overhead and 312 theater operating reserve -- aggregate 205000.

Part 3. Ourad CE68915 dated 9 January 1947 reduced CINCPAC troop basis (AFWIDPAC) by 8371 unit spaces, 1149 overhead spaces and 9 operating reserve spaces -- total 9529.

Part 4. Far East Command letter AG 320.2 (8 January 1947)GC dated 8 January 1947, subject "Consolidated Troop Unit Change Request No. 5", increases 1 January 1947 overhead bulk by 1001 spaces and reduces 1 January 1947 operating reserve by 303. Overhead bulk then becomes 15975.

Part 5. Request that this overhead bulk of 15975 be authorized as follows: 313 Generals or Colonels, 579 Lieutenant Colonels, 933 Majors, 1632 Captains, 1523 First Lieutenants, 760 Second Lieutenants, 71 Chief Warrant Officers, 56 Warrant Officers, Junior Grade, 376 Grade 1, 564 Grade 2, 1361 Grade 3, 1920 grade 4, 2364 Grade 5, 1932 Grade 6, 1591 Grade 7 -- aggregate 15975.

Part 6. It is understood here that Philippine Scout Trainers are included within bulk authorization. However, as all these are officer spaces and will be included in T/O units by 30 June 1947, a greater proportion of bulk allotment must be officers as indicated in Part 5 above.

MEMO FOR RECORD

C67874 gave W. D. the breakdown of our 1 January 1947 troop ceiling of 205,000 as follows: 188,424 spaces for T/O units, 15947 spaces for overhead, and 629 spaces for theater operating reserve. These figures did not correspond with W. D. breakdown as indicated in WX86728 due to W. D. 's arbitrary reduction of overhead by 3099 spaces instead of T/O units as called for in our Change Sheet #13 dated 9 November 1946.

The current overhead figure (16123), less that formerly authorized AFMIDPAC (1526-377 for MAPBO) per CX68915, plus increase called for in "Consolidated Troop Unit Change Request No. 5" to augment GHQ (1001) establishes overhead currently called for in FEC at 15975.

It is understood that the Philippine Scout Trainers are included in bulk authorization. However, the phase-out figure of 17,370 authorized as of 30 November 1946 was not deemed to include them due to the disproportionate reduction in officers (the Philippine Scout Trainers being all officers -- 1827).

G-3 Troop Control (Lt. Col. Tarr) concurs.

NOTE FOR RECORD:

1. Incoming radio from Washington (WDSO. ES) to CINCPAC, W 88999, dtg 042041 Z December 1946 indicates FEC concern over certain points in the Land Reform Laws, and requests information in these points.
2. This outgoing radio clarifies certain of the points, but calls attention to the fact that much of the information requested has already been furnished Washington. In addition the outgoing radio states that the questions raised by the FEC appear to fall within the executive rather than the policy phase of the land reform program, and that interference on the part of the FEC should be examined carefully to determine its validity.
3. Concurrence: GS (Brig Gen C. Whitney)
4. This radio has been approved by the Chief of Staff.

2. Washington rad WCL 41940, 8 Jan 47 is query as to status this case.

3. Thorough G-2 (CIS) security check was obtained on Samuel Lang, inasmuch as he is a British national who was allowed to remain at large by the Japanese Govt during the war. Information disclosed by security check would indicate, however, that Lang is harmless, and that cogent reasons other than sympathy or participation in the Japanese war effort caused the Japanese to allow him to remain at large.

4. Clearance granted Davis in inst rad is in line with terms of old missionary policy.

d. Special Yen account B. On 15 February 1944, due to change in Lira exchange rate, special Yen account was separated into two accounts and special Yen account B was opened by transfer from special Yen account A. No transactions after January 1945. Present balance 13,070,555.60 Yen.

g. Angelone free Yen account. One credit 44,358.26 Yen, disbursements 24,151.81 Yen. Present balance 20,206.45.

Part 2. Italian Diplomatic Representative Tokyo requesting release from Istcambi accounts for aid Italian nationals. Further requests expected for official purposes mission. No authority at present for funding. Yokohama Specie Bank cannot make loans as use of funds as security doubtful due to Bank reorganization. Another possibility exists by using approximately 700,000 Yen individual Italian nationals deposits in Yokohama Specie Bank, most of which is available, being in first restricted deposits. This could be used to meet partial needs if Italians can guarantee repayment to depositors.

Part 3. Accounts not considered primarily Governmental or Diplomatic in nature but were trading accounts in large measure, hence immunity not given. As result, bulk of funds segregated in Number 2 restricted account from which no releases permitted at present in view of General bank

Reorganization program now in process. Funds thus will bear share of loss through reorganization similar to all second restricted accounts. Reurad W-87591, Paragraph 1, reasons for denying releases from Saigon Branch, Banque de L Indochine account in Yokohama Specie Bank applicable to Istcambi accounts A, B and Angelone accounts. Accordingly recommend funds not be released.

Part 4. Request instructions and policy on disposition all points raised here. Accounts have been in custody Swedish Mission Tokyo. Transfer to newly arrived Italian Diplomatic representative being arranged here. All controls of Supreme Commander for the Allied Powers remain in effect pending instructions.
