( C-67678 ) Subject is Use and Administration of Japanese Export Funds.  
Reulet AGAO-C120 (15 August 46) WDSCA dated 30 August 46 and Urad W-81805.

1. Agree with reference letter and radio as regards Japan, subject to following proposals and understandings. Reply as regards Korea will follow.
2. Reulet, Paragraph 3 is currently acceptable, but is not considered to establish an inflexible priority in use of available funds.
3. Disbursements in ZI should be made either from any depository used by SCAP or from Trust Fund, at discretion of SCAP. Procurement effected by WD in ZI at request of SCAP would be paid for from Trust Fund per procedure outlined Urlet and Urad.
4. In addition to Monthly Airmail Statement from USCC mentioned in Paragraph 3, URAD W-81805 and information to be furnished by CAD per paragraph 10 Urlet, request summary thereof by radio each month similar to Urad W-84687 with details following by airmail.
5. Reference Paragraph a Urad W-81805, propose to open an account in National City Bank of New York, Head Office, for deposit of (a) any US dollar proceeds of Japanese exports to countries other than US except those handled by USCC, and various other US dollar funds arising from current foreign trade of Japan. (b) Other US dollar funds, as may be designated from time to time, except such proceeds of remittances as are entered into SCAP dollar account in Tokyo

DECLASSIFIED PER DA CIRC. #127  
23 DEC. 53

Branch per Urad WAR-80684.

6. Request assurance that treasury is willing to issue promptly a foreign funds control blanket license, if necessary, authorizing all disbursements from such account, domestic and foreign, that are ordered by SCAP or by WD at SCAP request. Since such disbursements will only be ordered in connection with execution of approved foreign trade of Japan and other transactions in line with basic directives and policies, believe that Treasury review should be waived, and that any deposits should remain free and unrestricted. Request notice of any other arrangements that should be made for convenient and expeditious operation of the account and for use of future exchange contracts, commercial letters of credit, and other foreign trade banking facilities.

7. Presume procedure Urad and letter would permit transfer of funds from Trust Fund Account to Bank Account promptly upon routine SCAP request to CAD, for purpose of effecting foreign disbursement or for other transaction wherein use of commercial banking facilities desired.

President Donald King.  
"Above Airlines rqst clearance 34 individuals  
accompanying survey flight early Dec enroute  
Shanghai and stopping Japan 24 hours and Seoul  
Korea several hours. Plane will carry valuable  
company property and guards with small calibre  
arms. Views requested."  
2. Wash rad WCL 28113 rqstd clearance Donald King and Frank Der  
Yuen enter Japan for purpose of survey on behalf Northwest Airlines.  
Clearance was granted in ourad ZX 24988 which was approved by C/S. It  
should be noted in connection with this that Lewis Hyde Brereton for  
whom clearance is rqstd in current Wash rad is the retired Lt Gen who  
commanded the first air-borne army during the war.  
3. Instant rad rqsts clarification as to whether the survey  
flight mentioned in WCL 30804 and survey flight mentioned in rad  
WX 85855 are one and the same. In our answer to WX 85855 approval of  
a survey flight for Northwest Airlines was recommended. Inst rad  
grants clearance for a survey flight by Northwest Airlines and states  
that only one such survey flight is believed to be necessary. Survey  
flight is approved because similar flight was approved for Pan Amer  
Airways in ourad CX 66417/16 October.  
4. Policy on civilians carrying arms unless specifically auth  
is stated in AFPAC Circular 95/1946.  
5. Crew will be billeted by PACUSA and passengers by GHQ. No  
definite billeting arrangements will be made until receipt of names  
and breakdown on passengers and crew.  
6. It is not considered necessary to inform CG, USAFIK, CG, 8th  
Army and Chief Advisory Group, China on this rad inasmuch as they are  
informed of pending flight in our reply to WX 85855 and it is believed  
that a second rad on the same subject would only create confusion.

3. Justification. Troop bases and responsibilities are not being reduced in direct ratio. Furthermore, in the integration of civilians, the lower grades to a great extent are being replaced. Most key jobs, executive, supervisory and policy making must still be filled with military personnel. These positions call for experience found only in the top officer grades, hence the proportion of higher grades requested. Therefore, in order to adequately staff the overhead installations of the theater with experienced personnel for efficient operation

M/R: W85798 requested our overhead bulk personnel requirements within 13193 ceiling for 31 December 1946 by type with justification. Figures used were obtained from the major commands and the GHQ Personnel Utilization Board. Total overhead figure is not accurate (G-3 Troop Control) but could be adjusted easily if request per part 2 is approved. Chief Surgeon's Office (Captain Jacobs) estimated nurse requirements.

As the only appreciable difference between the present theater spread and that requested in above radio is in the Colonel and Lieutenant Colonel positions, justification for those top officer positions is all that is considered necessary.
