Subject is military characteristics for a new DUKW. Our records indicate Major Frank Apple, and Captain W. A. Mundhenk your command have extensive experience in amphibious operations. Following questions:

1. What is estimate of weight of DUKW 7, 10 or larger?
 2. Are there any objections to obtain more cargo by widening present DUKW to maximum of 120 inches or lengthening several feet?
 3. What is opinion on individual wheel suspension and closed in-chain drive?
 4. Desirable water speed and land speed?
 5. Minimum cubic capacity under canvas?
 6. Desirable free board?
 7. Maneuverability in water and on land?
 8. Opinion on doctrine for use of DUKW, I. E. maximum distance of vessel off shore and average shore side travel of vehicle based on your operational experience what should be average turn around time?
 9. Are 2 sizes of amphibious trucks desirable?
- Wire immediate information and follow with air mail letter containing details. Add all information concerning use of DUKW in your theater.

REURADS CX 57693 of 12 Jul and CX 58824 of 27 Jul. Ref
msgs request the fol QM Depot units:

- 1 QM Base Depot Cos, T/O & E 10-367;
- 4 Cold Storage Platoons only of QM fixed refrigeration
co, T/O & E 10-217;
- 1 QM Clothing and Gen Supply Depot Co, T/O & E 10-227;
- 2 QM Petroleum Depot Cos, T/O & E 10-377.

Current concept for provision of adequate QM Base Depot
support contemplates utilization of depot organization consist-
ing of:

- 1 Hq and Hq Co, QM Base Depot, T/O & E 10-520-1;
- 1 QM Clothing and Gen Supply Co, T/O & E 10-227;
- 1 QM Subsistence Depot Co, T/O & E 10-357;
- 1 QM Petroleum Depot Co, T/O & E 10-377;
- 1 Sales Team (BE).

This organization has wide flexibility in capacity when
augmented by appropriate troop and/or indigenous labor. 9 opera-
ting platoons contained in the above organization (3 each Sub-
sistence, Petroleum, and Clothing and General Supply) provide
flexibility in deployment. Considered here that this JWE-unit
organization will be more effective in meeting your requirements.

REURAD CX 59030 dtd 30 Jul 50. M 2 steel treadway bridge set and M 4 A 2 floating bridge set reclass to obsolete. 50 ton divl fixed or floating bridge set retained for use by abn div only. Recent action standardized widened steel tdwy bridge set Br 240-600 which is 288 feet long constructed as shown TB-ENG-52 and replaces 50 ton divl fixed or floating bridge set in inf and armd divs on 1 for 1 basis. Three sets replace 1 set M 4 A 2 floating bridge in tdwy bridge co. Propose substitute widened steel tdwy set as fols: 3 for 1 steel tdwy M 2; 3 for 1 M 4 A 2 floating bridge and 1 for 1 50 ton divl fixed or floating bridge. Suggest consider use of basic M 4 floating bridge for maj stream crossings. For 1st and 2d quarter will substitute 18 foot util power boat for 25 foot util power boat on 2 for 1 basis with corrng increase type 42 and 1 half ton pole type ttrs. In view substitution widened steel tdwy set for M 4 A 2 and 50 ton divl bridge sets will substitute 6 by 6 tdwy cargo trucks for 2 and 1 half ton 6 by 6 bolster trucks and bolster ttrs. Rqst concurrence soonest. Baily bridge will be subject of separate comm.

It is our desire to understand your immediate Troop Information problem so that we may meet current criticism to the effect that there has been insufficient troop orientation reaching our soldiers, particularly those in combat in Korea. Secy Pace has stated, "I think this is an area of major importance." For this reason, Colonel Otis McCormick has been flown back from Europe in order to proceed without delay to FEC, as a representative of the DA, to be oriented as to your immediate needs for orientation material, radio equipment and personnel, and Stars and Stripes requirements.

Sufficiently detailed information concerning your present Troop Information is not available in the DA. Colonel McCormick's trip is planned in order to assist in expediting your immediate needs. Will appreciate your reconsideration of the deferment of Colonel McCormick's visit.

OPI Pictorial Br requests that all photos either radioed or air mailed carry indication whether already released in theatre. Further rqst that photos not released in theatre carry security clearance or classification.

New subj: OPI Security Review Br needs above info plus outline your policy on release pictures of wounded personnel in battlefield or evacuation channels. This info to insure conformance here to policies initiated by you.

New subj: OPI Radio TV Br advises that Ensign Siegal of their combat recording team to revert to assignment with 7th Flt and that Maj McPheron will be recalled to OPI in about 30 days. OPI further indicates that combat recording coverage will in future be responsibility of services. Since AF and Navy have already taken action to provide recording team, rqst your views on Army coverage. We prepared initiate search for personnel to man such team or procure nec equip for you if you desire form team in FEC. In latter event, McPheron avail for instruction and training prior his return.

1. In order to establish firm tonnage reqt for phased water lift and to plan the optimum usage of presently limited shipping, the fol data is required based on your present and anticipated Army, AF and atch Marine trp str (to include Navy based in Korea) and operational reqt:

A. Cargo reqt in MT for resupply of Army type sup broken down by class of sup phased by month from 1 Aug to 31 Dec, to include 60 days automatic sup being furn from ZI.

B. Cargo reqts in MT for buildup of theater levels (Army) broken down by class of sup phased by month from 1 Aug to 31 Dec (this should be a gradual buildup of curr approved safety levels phased over at least a 6 month period).

C. Cargo reqt in MT for anticipated Class IV projects phased by month from 1 Aug to 31 Dec.

D. Cargo reqt for AF type sup (Class II and Class IV) phased by month from 1 Aug to 31 Dec.

Tonnages rept under Subpara A and B above will be based on DA approved RECON levels as fol: CLASS I (non perishable), II and IV: 30 days safety and 30 days operating. Class I (perishable): 15 days safety and 30 days operating. Class V (Korea only): 45 days safety and 30 days operating. Class V (Japan only): 45 days reserve plus tag reqt. The above tonnages will not include initial equip and 60 days maint sup accompanying trp. These tonnages will be computed here and added to your computations. Data here on present and projected availability of cargo shipping indicates that tonnages now being shipped will result in scarcity and irregularities of lift to meet your future reqts.
