This radio in three parts. Subject is pay of civilian by Department of the Navy.

Part I. Joint Strategic Plans and Operations Group (JSPOG) was organized FEC 1 January 1947 by authority JCS 1259/27 to assist CINCFE on matters pertaining to exercise of unified command over Army, Navy, and Air Forces allocated to FEC by JCS.

Part II. Personnel. Until recently, representation on JSPOG has been as follows:

	<u>USAF</u>	<u>USN</u>	<u>USA</u>
Officers	4	4	5
Enlisted	3	3	2
Civilians	0	0	3

As a result of recent manpower survey decision to request FEAF and COMNAVFE to share equally in civilian as well as military support, this Headquarters obtained agreement of FEAF to undertake payment of salary of one CAF-5. COMNAVFE stated no funds or civilian personnel ceiling available to COMNAVFE for the pay of a civilian secretary for JSPOG, and recommended that the matter be taken up directly with Chief of Naval Operations.

Part III. Administrative records for one Department of the Navy civilian on JSPOG could adequately be handled at COMARIANNAS or COMFLTACTS at Yokosuka. Recommend that DA take up with Department of the Navy the matter of Department of the Navy support of one CAF-5 on JSPOG, namely: Marie A. Delaney, Clerk-Stenographer who is available and desired for transfer to status of a Department of the Navy civilian.

1. Contracting for non-appropriated import procurement of soybeans, sugar and copra proceeding according to program but deliveries somewhat uncertain and intermittent. To assure dependable rationing without delays request following procurement from FY 1950 appropriated funds for third quarter delivery Japan (in addition to cereals program):

50,000 MT Soybeans  
44,000 MT Sugar  
15,000 MT Copra

2. Copra is desired because delivered at approximately \$180 per MT it provides most economical source of edible oil and by-products used for miso, shoyu and livestock feed. Processing plants operating at fraction of capacity here. Impossible to arrange adequate purchases copra on trade basis.

3. Reduced appropriated procurement of wheat in fourth quarter will permit use of necessary funds to cover above.

4. Additional procurement of mile starch not desired. Experimental baking tests indicate this starch increases doughy quality of already poor Japanese bread.

**Z-29838** \* Pass to State and Commerce Depts. Sterling Area Trade Arrangement is subject.

1. The following press release was made on 22 November.  
"General MacArthur today announced that a Trade Arrangement expected to total 143 million pounds Sterling (about \$400 million) in trade during the period 1 July 1949 to 30 June 1950 has been consummated between Japan and the Sterling Area. The Sterling Area countries included in the new Arrangement are the United Kingdom and Colonies (excluding Hong Kong), Australia, India, New Zealand and South Africa. The approval of the new Trade Arrangement has been indicated by each of these Governments. It is expected that the documents will be formally signed in Tokyo at an early date.

In general, the new Arrangement adheres to the previously established policy calling for balanced trade between the two areas at the highest practicable level. As of June 30, 1949, there was a balance of trade in favor of Occupied Japan to the extent of approximately 10 million pounds which amount, it has been agreed, is necessary working capital to carry on trade with the Sterling Area.

The Trade Plan which deals with commodity exchanges and which was previously expressed in U.S. dollars is now written in pound Sterling.

Estimated new purchases by Japan during the twelve months period July 1949 to June 1950, from the Sterling Area countries which subscribe to the Arrangement will be valued at approximately 55 million pounds. The estimated new purchases by these countries from Japan will total approximately 45.5 million pounds, the difference of 9.5 million pounds being accounted for by the excess of orders placed by the Sterling Area in Japan before 30 June and unfilled at that date over the corresponding orders placed by Japan in the Sterling Area. In addition, provision has been made for trade with Sterling Area countries which subscribe to the Sterling Payments Arrangement but which did not participate in the current negotiations. Estimates for trade with these countries, which include Burma and Pakistan, total approximately 27 million pounds. Estimates of invisible trade in both directions, as distinct from commodity exchanges, have also been included.

Commodities to be purchased from Sterling Area countries include cereals, cotton, wool, iron ore, rubber, salt, petroleum, hides and skins, and tanning materials. The Sterling Area countries will purchase from Japan a wide range of manufactured goods including textiles, machinery, canned fish, lumber, metals, electrical products, chemicals and some pottery and glassware. The new Arrangement provides for a considerable expansion of trade and will permit increased purchases by Japan of foodstuffs and basic raw materials necessary both for domestic consumption and export trade".

3. Col Nugent, CIE, informs that C/S overruled above for economical reasons, as well as for the Dietmen themselves who are unwilling to leave Japan during sessions of their own Diet. Thus, the period between 15 Dec 49 - 15 Jan 50 was most propitious for the group to go. Further, since the US Congress is not in session, the arrival of a large group will have less impact psychologically on the busy US Congressmen. Also, very large groups of Germans are in process of being sent to the US under the same type of program, which would lessen even further any criticism of expenditure by comparison.

REURMSG WCL 23437, 15 Nov 49. Opinion here that since restitution of looted ships is a "termination of the war" project and vessels will be restituted to claimant governments and not assigned to commercial interests, expenses for surveys thereof are not properly chargeable to 21.8905.001. In view of relatively small additional expense involved recommend charging Garicoa account as in past. Fiscal project chargeable P432-07.

Z-29179 For EUCS. This radio in 2 parts.

Part 1. Urging UGL 21119 estimated amount to be expended FY 50 from \$58,000,000 appropriated for construction on Okinawa is \$14,100,000 of which \$1,000,000 will be procurement of Japanese materials and \$5,460,000 Japanese services. Considerably larger expenditures would be reported except for the fact that some essential military government construction projects of high priority are being financed from GARIOA appropriations in FY 50. The available \$50,000,000 in cash and contract authorization will be utilized to cover anticipated obligations to be incurred in FY 50 and early part of FY 51.

Part 2. Note that while \$14,000,000 is only approximately half of the \$23,000,000 appropriated this represents actual expenditures during this fiscal year of which there remains only seven months in which to let bids, award contracts, purchase materials and complete some construction projects. Increased tempo of work as months progress is expected to expend the total \$23,000,000 at an early date in FY 51 and necessitate further appropriations in cash in order to pay off expenditures which will be contracted for under contract authorizations within the \$58,000,000.

2. In order to obtain information on which to base a reply to DA, the District Engineer, Okinawa, was requested to advise CHIEF of the estimated expenditures. This information was forwarded by DE OKD in msg WOXWT 1797, 4 Nov and WOOVK 1816, 10 Nov 49.

3. Considering that only seven months remain in FY 50 for letting of bids, awarding of contracts, delivery of materials and performance of construction work, the estimated actual cash expenditure of \$14 million is considered reasonable, particularly in view of the fact that many important projects of high priority are being financed concurrently from GARICA funds.

4. Instant radio forwards to DA the information on the \$14 million cash expenditure during FY 50 and points out that owing to the increased tempo of work as the months progress, the \$23 million cash will be expended at an early date in FY 51. Also that further cash appropriations will be required to pay off obligations incurred under contract authorizations within the \$58 million appropriated under Public Law 430.

e. Packaging has been completed at all arsenals except Osaka Military Arsenal (32-32). Foregoing data on packaging are substantially complete and up-to-date except at that arsenal, for which slightly under fifty (50) per cent of tonnage to be packaged has been completed and reported. Packaging at that arsenal will require the balance of November to complete. The substantial increase over last month in total tonnage reported above as packaged is due to receipt of previously delayed reports as well as to work accomplished during the month.

f. In addition to the foregoing delivery data, an estimated 2,000 metric tons were delivered to the United Kingdom shortly prior to the end of the month, for which delivery receipts had not been received and processed for inclusion in this report. Considered imperative that screening be accomplished prior to signing employment agreement for following reasons: No grounds for separation since employee not assigned to actual job; orientation is proper responsibility of recruiter and recruiting command, not that of Sixth Army; apart from contractual obligation, moral responsibility exists not to uproot individual and then separate prior to fair and adequate trial; detrimental to recruitment because best qualified employees will not accept position contingent on acceptance under conditions proposed; recruiter should be competent to make selection and assure employee of reasonable tenure provided she satisfactorily performs work assignments. MEMO FOR RECORD:

1. DA ltr, AGAO-C 230.14 (13 Sep 49) SSARS, subj: Recruitment of Recreational Personnel, 15 Sep 49 requested concurrence of CINCPE in establishment of an orientation program in Hq Sixth Army, for service club and library personnel for purpose of providing one week orientation experience.
2. CINCPE msg Z 25569, 8 Oct 49 informed DA of nonconcurrence in DA proposal because one week's orientation course was not considered of sufficient value to warrant the delay enroute and additional expense involved.
3. DA msg WCL 48560, 17 Oct 49 stated that OSA and SpS both convinced essentiality of screening center and desired proposal be reconsidered.
4. CINCPE msg Z 26893, 20 Oct 49 informed DA that further study would be made and results forwarded soonest.
5. Special Services Section considers it imperative that screening be accomplished prior to signing employment agreement for the following reasons: There would be no grounds for separation since employee would not be assigned to actual job; orientation is initially proper responsibility of recruiter, later that of the recruiting command, not that of Sixth Army; apart from contractual obligation, there is a moral responsibility not to uproot individual and then separate prior to fair and adequate trial; it would be detrimental to recruitment because even the best qualified employees will not accept a position contingent on acceptance under conditions proposed; the recruiter should be competent to make selection and assure employees of reasonable tenure, provided they satisfactorily perform work assignments.
6. DA msg WCL 22910, 9 Nov 49, requested info approximate date of reply DA msg WCL 48560, 17 Oct 49.
7. DA msg WCL 22878, 9 Nov 49 states for purpose of efficiency and economy an agreement has been concluded between SpS and CPD, OSA and gives following procedures: All requisitions will be forwarded to CPD; all publicity incident to recruitment be prepared and released by CPD; SpS will approve all selections and continue to advise and assist CPD; OSA will furnish monthly reports on status of requisition to all concerned. Monthly reports on status of funds will be made by AAFES.
8. Inst rad informs DA imperative screening be completed prior to signing employees agreement, recommends personal interviews, and concurs with agreement concluded between SpS and CPD which provides for CPD, OSA to assume certain functions heretofore accomplished by SpS.

Individual desires enter Japan en route from US to India attend India-America Conference. Views requested."

2. Request for entry of the Pan American Airways' employee is routine, and since Pan American provides full logistic support for their employees, concurrence is not necessary.

3. NRS (Col Schenck) states that Professor Fisher is a close personal friend of former President Herbert Hoover and that he has held positions of considerable importance in the U.S. Government. Further, that subject individual is very well known and a top-flight man.

4. G-2 (Col Crist) states that General Willoughby will provide full logistic support during Professor Fisher's visit to Japan.

5. G-2 CIS (Capt Cross) notified of clearance.

6. Approved by Chief of Staff, 8 November 1949

For CSGLD. Re CSUSAF msg AFMTP 4227, 28 Oct, Nov allocation, Channel 34-US, for passengers and cargo will not meet minimum essential requirements of this command. Of the 297 spaces allocated Army and Air Force, 180 must be used for medical evacuation. Attention is invited to DA msg WCL 47780, 13 Oct, which advised that the final voyage of USAT Hope would be 5 Nov 49, and CINCFE msg ZX 26398, 18 Oct, which requested 100 additional spaces on MATS to accommodate these increased requirements. The remaining 117 spaces available will not provide airlift for persons qualifying for urgent emergency leave (minimum 120), personnel on TDY in the US (normally 40), and return TDY from the US (normally 75).

C-11-C

By CINCFE msg ZX 24276, 26 Sept, a total of 580 spaces for all three services for Nov was requested for Channel 34-US. This figure was predicated upon continued operation of the USAT Hope during the month of Nov. Upon notification that the Hope would make its last inbound voyage on 5 Nov, this hqs was faced with an additional requirement of 100 spaces. In reply to urmsg WCL 38998, 2 Sept 49, ourmsg ZX 23306, 16 Sept 49, suggested the lay up of USAT Hope be delayed until sufficient additional airlift is available to accomplish all medical evacuation.

Urmsg WCL 42839, 21 Sept, stated estimated date withdrawal USAT Hope, 1 Dec, and that "air evacuation requirements being considered". At that time the Hope was due to arrive Yokohama 3 Dec. In view of the fact that CG MATS has had timely warning of these additional requirements for medical evacuation, which would become existent on the lay up of the USAT Hope, CINCFE urges that the stated requirements of 608 spaces be provided for on Channel 34-US for Army and Air Force.

Cargo allocation of 17.4 tons on Channel 34-US is inadequate to move even Air Force repairable items which alone amounts to 22.5 tons. In view

UNCLASSIFIED

INFORMATION COPY

of Christmas mail requirements during the month of Nov, this hqs sees no possibility of utilizing any of the total mail tonnage allocation (43 tms) for the movement of cargo.

Urgently request consideration for minimum additional 100 passenger spaces on Channel 34-US for the months of Nov and Dec. Further request that a minimum of 25 tons total Army-Air Force cargo allocation be restored on Channel 34-US.

If MATS acft are not available, request that commercial acft be made available to meet minimum stated requirements this command.

Memo for Record:

1. In C/N to C/S, 11 Oct, D C/S SCAP advised that the Undersecretary desired SCAP'S views on desirability of sending DA consultative group to Japan to furnish advice on: (a) Public health in Ryukyus; (b) Land ownership in Ryukyus.
2. C/S approved D C/S SCAP recommendation that RMGS make recommendations on proposal to C/S.
3. Public health operation in the Ryukyus is considered by RMGS to be less in need of outside assistance than any other field of MG activity at this time. Gen Sams offers no objection to the sending of a group of consultants by DA, but agrees with RMGS that assistance is more urgently needed on other problems.
4. Public finance problems are at present particularly pressing due not only to lack of capable personnel in the islands, but because increased demand for this type personnel in SCAP HQ is limiting the assistance which would normally be available from that source.
5. Land ownership problems are currently under comprehensive study, and consultative assistance could be helpful.
6. Inst msg to DA suggests substitution of public finance consultant group for one on public health and the furnishing of a second group on land ownership, the latter to include qualified advisor on property custody affairs.
7. Concurrences: G-1 (WAB), FR&W (CSM for:CPS), NRS (HGS). Coordinated with Col Babcock, O D C/S, SCAP.
