Remaining officers a worthless lot.
Believed Weisblatt. However, I feel
that it is a case of ignorance, an
ignorant effort but a success one
on his part to do all he can. I
have written a letter expressing
appreciation for all he has done.
After all, he has an unfortunate
personality, he is ignorant, he is
hungry and unstable - like many
others - all of us complete our period
of usefulness sooner or later, some
sooner than others. Chaplain Duffie

Steel raining. Presents is usual problems. For months we have tried to get the Japanese to prepare for the rains but no results.

Dysentery + lock wards remain as open cells, the pigs are in a huddle of a mess as to housing and are already coughing and severe ready to forward. The wood lies dripping wet in the open with no space provided to store it or for the men to chop it. No space for

church services is another problem. Took these matters up with Kubota again to day and have been able to gain temporary relief any how.

They are steel cages, about the use of 12 + 13. Sata indications would suggest that the Davao group may contain some "3rd party neutrals" being escorted to another destination by the Japanese, not as prisoners of war or internees.

Library requesting personnel "freeze" list every dept. does. all want their men exempted from depts. Just can be done under Japanese set up.

Received the formal rules + Regs as handed down by Japanese. It is apparent they have tried to conform to our organization but as usual

Draft of 150 from Cabanatuan arrived today. Destination unknown.

Inspected in #12. Looking them over one is impressed ~~th~~ with the fact that they are composed of all the misfits, trouble-makers, racketeers and miscreants who have so identified themselves thru out our spears of imprisonment.

one officer is with them, Capt. Liles USA. There is some conjecture as to their ~~whereabouts~~ destination. Japan is suspected. The Japs have shaken them down to 1 suit of blue dungarees. They are non-smokers. Japan is probable but believe they are more likely to go to some more detail.

Reports from Cabanatuan indicate that things still seem so good up there. Not the "Paradise" some people picture it. However, we must consider the informants and reserve judgement.

Our rice issues for the past 2 issues have been decidedly better but our vegetables, fish etc. has fallen off considerably.

Our cornate crop is negligible. all vines. We + the pigs eat them. Our ducks continue to die of strychnine. Our pigs are routed

General Ke made inspection the date. A casual visit this preliminary to the big general in a few days.

July 4, 44 - Independence day. (Oh Year!) conference with Hoyi yesterday. Inspection today by the Commissioner General. Hoyi made a dummy run yesterday as 4 pm. The usual confusion among the Japanese. Hoyi is to lead off on this inspection. Made and I to remain in the rear of a party of about 14. Hoyi nor to be present. (Hoyi knows too much Japanese) all of our ragged clothes & dirty ragged mattresses to be "out of sight." One variation from most high command inspections - namely our local Japs send in an imposing chow for that day (imposing as accord with their standards). However,

our chow issue yesterday was the best we have ever received. 59 Kilo of fish for over 900 people - our very low usually at 110 Kilo and that hardly gets around at a few ounces per man (heads, tails, guts and all).

The Chaplain (Wilson), already carried on sick list as a heart case, isn't doing well. Absolute bed rest. Decompensating. No protestant service the past Sunday.

On Sunday, July 2/44 the entire Japan Dept moved out at noon. 1024. Aboard for Chu Su, Tokyo and Osaka. Something didn't click at the dock and late Sunday night we had to head our own way out. Galleys gone and coal evening rice and then morning rice on Monday. No latrine provision on ship - worked all night building one and tore out one of ours to give them. Reports are that the ship is a small craft like the Sine Maru and all are crowded into the small hold and allowed out only to the head. Jankabea left with this Dept. A surprise.

General clean up around the place since the big Dept left. However, in 10 but a brief interval before a new Dept arrives. The general migration to Japan is really under way and practically every one will pass thru here.

The Navas officers and men have been very cooperative to date and are falling into line. However - well, we have made every effort to help

The general indications are that every damn man they can get out of here to Japan is to be gotten there as fast as they can expect it. Another tank draft

being made up and this morning 10 men were selected from the ABWP to be substitutes or alternates on such a draft. Won't be long before no one will be left but the absolute invalids and four heavy indications it is hard to suppose we if all of us weren't hated for the Japanese mainland. From news at hand it would seem that it is but a race with time whether we all get out of here for Japan before the ax falls.

Passy drafts yesterday. Reports indicate that Japanese high ups are in favor of getting more of their sick into this hospital. Freeman is expecting large sick drafts to us from there soon. For the dope on Gervais' death, collapsed at field and never regained consciousness. The fact that that boy of bones was being worked at all is a crime against humanity and an act of lowest savagery.

Overcast generally today. Digging up most of our banana plants. Some small yield of spuds. A few tubs to the sea in all this rock pile can produce under Jap restrictions.

last month.

July 10, 1944 - Monday.

Rained most of the night and raining this morning. The season is a little overdue. I am feeling some better this morning but weak and legs heeled. Turned over books + victrolas for shipping to Kabanatuan. We are also to supply the portions due the outlying camps.

Hope to try to get Brewster from Kabanatuan as our protestant chaplain. Will tell where they are of this action. His working boys all over.

Manda is loading air raid shells today. Siren sounded at 10:00 am. Tone repeated at 4 pm I understand.

Mailing cards, long overdue, were supplied us yesterday on request but today we were notified to hold off writing them until further notice. There is a general feeling thruout that they would never reach America now anyhow.

loss for past 6 months averages about 5 lbs. This just hauling we can take guess we long enough. at 4 pm I saw your figure and insisted that I changed the figure on my recent sanitary report which indicated such a deficiency in food supply to my workers. I refused to change it. He directed Halse to change it. I then directed Halse to "X" over my signature on the bottom of the report. Halse's initials were there. I agreed to send Branigan up just to show him why the figures were correct. This was done - OK. Honeri-

Huano again pulled the old crap about
in the future taking from others and
feeding heavy workers their selvaime.
Again I refused. The grounds that
such a procedure was not making
the food for heavy workers "additional"
and the others weren't getting enough
food anyhow. Got away with that again.
Huano is now willing to settle for a
1-3 basis - giving us 1 K mango beans
for 3 K vegetables. The original ticket
was 1-5. (Based on increase in
sprouting). Further arguments on
food issues. He wanted to return
to the old system of ^{us} issuing extra
cigarettes to workers. Party casted 7

us look like the short-changer when

Make routine weekly inspection. Gen. condition good despite overcrowding rains, and general deterioration of the plant in general. Now have patients sleeping on the concrete beds, on stretchers etc. Mattresses, blankets and mosquito nets are out of question for all of them. In the meanwhile the Japan draft still remains in the harbor in the hold of the freighter. We still get patients from them. Conditions are bad. Diseases are only - most of them have diarrhoea and dysentery, conditions grow worse daily. A great movement - the great Hegira is under way, and as American prisoners begin to move, their conditions are worsened, and the ~~same~~ sufferings of the earlier days of captivity are being repeated except that now so many are in such poor condition to withstand it. The trials of over 2 yr. captivity have hardened some of us but killed or weakened so many more. Rains continue.

From the two cases admitted from the ship in the harbor I learn that conditions continue

unchanged with them. They are packed into the field so that they can lie down if they feel their illness - see beds about a dozen. They are furnished 2 canteen cups of water daily. They are relieved out of the field about 30 min. every 3-4 hours. During the rains they have closed the hatches with tarpaulin which makes the place pretty foul. Fed twice a day. Rice only except for an occasional small piece of banana. Measles here is developing among them. Cases faint from heat, exhaustion, diarrhoea are present in great numbers. They have now been in their pen, lying in hatches for 13 days.

Conferred with Kabota and Nogi at 10 am. in which I explained to them that this type of man are practically all sick with Beriberi, Pellagra, pneumonia, anemic dysentery, Pharyngitis, general malnutrition, injuries etc. I pointed out the great numbers to be admitted to hospital + S.I.D. I acquainted them with the fact.

That we were aware that Passy was expecting to send us in a big drop of sick and this looked like it. (371) Nogi was all a jitter. Apparently some thing is all cockeyed in their misaw machinery. Nogi came down into the

 265 gms of dry rice for noon today.
 New compulsory regulations have been
 down. Kibata is usual has the
 interpretation all packed up
 and we can't really do anything
 until we see Ugi. Ugi + Humei have
 been out of Madafa for a week and
 nothing of any decisive nature
 has been done since they left.
 Practically hanging in the bits
 all week.
 Besides food, our most pressing
 problem of the moment is wood.
 We have enough to get thru today
 by careful management and due
 to the fact we have so damn
 little to cook anyhow. There have
 been
 drumming at them for a week but

nothing has been done about it. Tomorrow we will probably cut down a tree or tear down some more of bedg 13. Certainly can't cook without wood. Have plugged at them for a week trying to get our sewers unblocked. They are still blocked. Half of a week. Situation has grown worse daily as far as acquiring anything from the Japanese or getting any cooperative constructive assistance out of them. The undershirts they recently issued us are the ones they tried to sell us recently and we wouldn't buy. At Cabanatuan they feel for it and bought. Mamato, the Paymaster has refused to try to buy beans for us in the Philippines because "He has had enough time getting stuff for himself." It is evident that the Japanese know we could buy beans when the Fed. wouldn't sell to + for the Japanese.

Yesterday, late in evening Chaplain Brewster USM.R. arrived to take Wilcox's place. (our request). Brewster, Methodist, recently from Hobao - paid me a call this morning and went over the situation. Seems like a likely fellow and may be an addition to the place. We can use "additions."

Blackout last night. Began at 6 pm last night and again at 6 this morning. We interpret the first one as bomb. I and the one this morning as "scare." Scared of new Jap cabinet change two days ago. News very scarce however at this time. Pat Area of my still "is"

in that article. Medical groups come thru and look over what we have. Recently we have had to submit a sample of every red cross item we received. The Jap medical dept. then goes to work on us accordingly.

Late today Japs asked for a draft for Kasabachuan to include 200 (S.I.2, Weels, Post Area Detail) and 200 S.I.H. They changed the latter to 100 later. This developed after Wade I had his eye up for beds which they took from us to accommodate Jap soldiers. It is common practice to dump our patients on the deck and take the beds for Jap soldiers arriving.

Conference with Nogi in pm. brought out very little of help and significance except that Nogi, in spite of repeated pleas of being short of insulin, again asked for a tube a smelter "to treat his very best friend." Nogi also agreed to let us use #13 for S.I.D. cases. This would seem to indicate that persons play for another Japan days have been there. III tells us of Team landing etc. No blackout here tonight. Kubota informs me Headquarters wants identification of all med. personal. When I asked them what criteria they would accept as identification they didn't know. After conference on the subject they insist on individual having a "bone id. red cross." They refuse to accept identification cards issued by Dist. Med. Off. and stamped with official seal. They refuse to accept mail received showing rates recognized by our government. They have the idea that

"if you do not have Red Cross, we will supply you with mailing card and you send to your government and they will send you one." I have tried to show them how ludicrous the whole procedure was and have tried to convince them that a more accurate identification than that previously provided the Japs could be had. Also called attention to the fact that the Japanese represented all records of med.

 Japs already had in. He asked
 how long he thought it
 would take to see a court to

 this was necessary and how
 when we were first captured they
 "did not know these things" - all

 when they took us they did not think they

 Divine Services. Protestant services resumed
 again today, Chancelor Brewster making
 his first appearance and preached
 an appropriate and excellent sermon
 on Paul's words "I am
 a sinner." Big turnout for him.
 From my short acquaintance with him
 I feel very much encouraged in having
 him visit us. Sort of renews my faith

in chaplains. was pleased to hear him quote my words today to the effect that "God had its privileges in so far as naval command its obligations. Should be as going to get in very close with our policy of one for all and all for one."

Now raining constantly. Everything pretty well soaked and drabby. But this may be our best rainy season. Let us hope.

Today received 8 "linways" - came to us from a Jap prison ship from Singapore to Japan. Have been 40 days enroute + 16 days in the harbor. Rotten shape, every one of them.

They have been working on R.R. construction in Siam + Indo China. No one died of cholera. 750 were aboard the ship in Manila harbor. Also there is reason to believe that our last dogs from here and possibly our dogs before that, still in Manila bay. These linways are reporting they saw a destroyer returning to Manila harbor with Jap survivors aboard. Also tell of convoys going out and returning.

Disciplinary case for Pugs - Sgt. Ashby - 30 days in brig for quarreling, and repeated violation of lawful order of superior officer.

(391) Harrison talked to me about a letter he wanted to write thanking Japs for treatment given him + men in Port Area. I convinced him that better he show his appreciation to the one individual who was good to them after the war and to remember the Oriental with a friendly attitude when it got him what he wanted, which in this case was to have a group of

Continue to lose pigs from among the young ones. Have had to kill 2 in last two days. Ducks are steadily dying. Fowl is down to less than half now.

Trying to identify for record the Britisher who died aboard the transport and was buried in Manila. Very little to be learned to date except that his name was Nichols.

Sunny day all day. Made regular weekly inspection. Not as ship shape as one would standard. Long rains + over crowding and generally disturbed conditions have permitted the activities to maintain the best of conditions but must bear down as this time and get into shape.

Aug. 3, 1944

Bright & sunny. The so called "second or "little summer" will now swing into line. General belief is that Hitler is dead. Too much "cover up" stuff being published by axis. Obviously handled propaganda would indicate Dai Fushu not with us longer. Spain Gov. has fallen. Bangkok Government now in the saddle. Allies bombing Italian Kenya. Japs leaving troops from Borneo Sumatra - "to return to Japan".
