Oct 14 Elizabeth Darling.  
That fateful day that we  
all would see arrived for  
our gang. Today a detail  
left for Pasay. Tom, Ted  
and Kenneth were on it.  
We knew they will go direct  
to the boat in Manila Bay  
instead of the usual stop  
at Balibisan Prison in Manila.  
Ted and I are still here.  
Ted with an infected side  
after a Hernia operation and  
I with a special duty  
job - I have charge of the  
Company Officer in our group.  
We both feel very lucky  
to be off the detail because  
we daily expect the return  
of our comrades to Manila Bay.  
It has been three weeks since  
they first attacked on 21st  
Sept 44. We expect to have  
to go within 3 to 7 days.  
However a few days still there  
critical period may mean anything.

sicker the 10th Oct. We  
all know we have some  
rough going ahead -

We all think of our families  
constantly. None can be more  
proud of Helen than I.

You make a grand wife  
and I have always been  
very proud of you. I love  
your character and disposition.  
Never have you done one  
thing that I was ashamed  
of. And I think Helen grand too.

12 Oct 44. During Sept  
40. I became acquainted with  
WPC-3. When I learned how  
poor the defense of the P.T. was  
I wrote the type I put in  
a letter for transportation come  
for you and Helen. This was  
in Oct or Nov 40. Broughton  
disapproved it. I then worked  
for the money from San Antonio  
in order to be able to move  
you quickly commercially  
if and when necessary.

Later I again put in a  
letter with your knowledge  
for early transportation home.  
I could not tell you the  
reasons for all this at the  
time. Of course you know  
now. I will never forgive  
myself for subjecting you  
and Helen to these years  
in Santo Tomas as internees.  
My happiest thoughts while here  
have been of your own home  
(7) for you and Helen.

16 Feb 44 - Received first letter  
from Elizabeth - told me you  
were a grand feeling and what  
great joy and pleasure she is well.  
It was the best letter I ever had  
in my life. - Oh boy - what a wife.  
We will seek and be near it.

I'm sure proud of Elizabeth.  
12 Oct 44. - I wrote you from  
Batavia that I wanted to liberate  
Helen just as soon as I returned  
to the States. I now know I  
should have done it long ago  
but wanted her to have a chance  
to make up her own mind. If  
I could do this over it would  
be in Oct 36. When I received  
your message saying Helen  
had changed her mind it made  
me very happy. You were  
a darling to guide her in  
this action. I appreciate the  
honor. I have always felt  
that Helen was really my  
daughter, and will always  
consider her so. (13)

12 Oct 44. All your actions  
I highly approve of. You  
did exactly what I must  
wanted you to do. Had I  
been on the spot I would  
not have changed one thing.

During my long stay here  
I have learned a lot.

First I don't see how you  
ever stood up with me  
and my duller words -

I have spent many days  
planning on how to make  
up to you for all the  
poor treatment I give you.

Truly I am quite ashamed  
of my actions and as I  
think over them I cannot  
justify a single one.

March 6 - Rumors continue to be greatly spread Roosevelt to be defeated by end of the month. Beliefs we will defeat Hitler before we can receive sufficient ships to tow remaining capital ships. We will probably wear hardest and American Fleet for ten years. The in order to make England take her share of the losses - the end of the war should not find England with the only complete navy in the world.

We should be about ready to make a second front against Hitler. This is probably the time.

March 20 - Men look much better - see only few men who are in serious condition -

Death rate at hospital has dropped only 12 thru month.

Work details have increased. Co. Officers complain rightfully about orderlies for field officers when they have to work on farms. Most orderlies are quarter cases. (28)

we always pick-ups. This  
idea has been with Jew  
and I for over three years  
now and we long to  
have it effected. How I  
would love to hold you in  
my arms again. Nothing.  
At the moment it seems long  
away but we may get a  
bit closer. We all know  
we are in a tight spot  
but all are cheerful and  
hope for the best. We  
are all very thin. The only  
fat people in camp are a  
few civilian Jews who got  
up with the Japs and have  
kept the camp supplied with  
money at Jew notes. We  
were probably lucky to get  
it even at that. It meant  
life or death to many. (39)
