cut to it and taking the left flank of descent
 trying it into def. from W of Knolly Hill.
 Between W & Knolly in the found water
 has been gained by a newly formed Def.
 line near W & then E of W. The Co. Col. Co.
 Co. it reported some work had succeeded
 in getting across near Cav. Pt. & were
 pushing toward the ridge and holding the
 N shore. In view of this - our plan of
 force, plan. brought to R. J. 21 across the
 mountain had deployed.

At R. J. 21 to the N. E. of Cav. Pt. work
 had been considerable. Left hand of our
 line through Knolly Hill, rising from
 of D. Co. having got to the crest & some
 part of his strength could be applied
 for the beach along on large Pt. beach.
 Five thousand men - about N. edge of
 ridge would be able to reach the mt.
 also along N shore. This was however
 temporary only as long as our forces held
 high ground. This was pointed out to
 Lt. Col. B. & others. In plus other pictures
 on Ridge to halt advance of our troops
 this was our wife part A. The defense
 The plan attached to this office and
 the adj. net. to the C. P. (following)

Let us suggest info. of report of loss
 by Cav. Pt. Co. on 11/40 around Light Co.
 to C. sector for. This unit consisted of
 2 Cos of 80-85 men ea.
 Rec'd. of C. Sec. Comdr. - to commit
 us, at once to employ it as a C. sec. Co.
 - one Co. to work along the N shore &

to other to assist along the ridge & to
 following to the E. Route took up to Knolly
 Hill, the road now into a better acty. Com.
 Cos. along a road. & lost of much of
 found. Finally, at about 3:15 P. M. May 6
 P. Co. on left crossed the line of approach -
 road running N & S then E of W, and
 started advance. About 100. later D. Co. on
 its right attacked the C. sec. on S. side.

On meantime, H. A. Co. after being
 attacking the Ridge and passing the mt.
 top on along its top, was able to stop
 a line force of the mountain. Beyond
 this force, and along the low N. slope
 of a slight saddle on top of the Ridge
 an ear. of about 60-80 had dug in and
 by setting their into traps in a
 lined emplacement, had halted the
 adv. along the ridge & N shore. (D)

Permission to bring 2 more mortar fire
 to bear on this area was requested of
 the Regt. C. P. for the gun to the top
 about 1,000 yds. This however, fire
 would be dangerous and our troops
 gun. not granted.

Along N shore the adv. of D. Co. had been
 checked by our M. B. & mortar fire for
 the ridge on level as by auto traps
 located on a line 200 yds. E of R. J.
