ADJUTANT GENERAL RECORDS DEPOSITORY
APO 928

At that time considerable revelations of AUS status had been
made but Project "J" was operating under a "cease and desist" study
line" for shipment of all files to the S/I on that date. The study
was never approved.
2 July 1961
Operational Report, 14th Infantry (PA-AUS)

I recall my last assignment to the 14th Infantry was to
accept assignment to AGRD, I was placed in the Project "J" study
for duty during the early part of February 1949 a reduction in
force.

Part I - Background - Treshler resigned to
Upon assignment to AGRD, I was placed in the Project "J" study
Branch of the Service and Certification Division. Capt Elmer L.
Baker, AGC, was the Branch Chief. I was placed in charge of the
201 files and the Project "J" Archives. Shortly before the Ad-
justment Division closed operations I became aware of the 14th
Infantry personnel and their records. At that time the VA Sec-
tion of the Branch under CWO Paul M. Hausle, AUS, was certifying
service to the Veterans Administration. These cases were being
questioned at the time and particular care was being used in cer-
tifying service. A Mr. Treshler, DAC (now employed by VA) was
responsible for checking each case prior to any certification
being made. Mr. Treshler was highly conscientious in the per-
formance of his duties and had gone into details to assure the
accuracy of any certification. Mr. Treshler had assembled the 14th
Infantry cases by units, retaining each unit personnel files in
separate footlockers in order to study the circumstances governing
the unit. The AUS status of many persons of this unit was being
revoked because of various inconsistencies discovered that had not
been taken into consideration during initial processing and recog-
nition. On 10 October 1949, after discussion with Colonel Forster,
Commanding Officer, AGRD, Capt Baker prepared a check sheet to the
Director requesting a procedure be established for handling those
cases where the AUS status had been revoked. (Incl #1). In the
initial processing and recognition, little use was made of the PA
201 file inasmuch as those files were either not of record, not
available, or being processed for payment of arrears in pay. Se-
curing PA 201 files made it very apparent that frauds had been
committed because there were few cases that appeared remotely
connected.

It was the procedure in Project "J", when AUS status had been
revoked, to refer the case to Adjustment Division to determine whe-
ther any PA or USAFFE pay was due. However, when the Adjustment
division was nearing completion of its task, nearly all of the
14th Infantry (AUS) cases were referred to that Division for de-
termination of any pay due as a PA or USAFFE case. These cases

were then returned to Project "J" and packed for shipment to the Records Administration Center, St. Louis, Missouri.

At that time considerable revocations of AUS status had been made but Project "J" was operating under a "cease operation dead line" for shipment of all files to the Z/I so that a complete study was never accomplished on this unit.

I broke my leg on 28 Nov 49 and Mr. Treshler resigned to accept employment with the VA. When I returned from the hospital for duty during the early part of February 1950 a reduction-in-force had reduced the strength of Project "J" from five (5) officers, 3 DACs and approximately 200 local employees to 2 officers, 1 DAC and 15 local employees. I was again assigned to Project "J" under Capt Baker with the intention of my having a small liaison section to handle affairs with other government agencies after the original cases had all been shipped.

Capt Baker was returned to the States in July 1950. From February 1950 until his departure I had interesting discussions with Capt Baker concerning the 14th Infantry. Capt Baker fully believed that many frauds had been perpetrated and had endeavored to review each case where possible. The status of a Catalino A. Domingo was revoked. Mr. Domingo, formerly the Regimental Adjutant of the 14th Infantry, came in person to plead the case of Domingo. Capt. Baker, and his predecessors in office, had placed considerable faith in the testimony of Mr. Domingo who as a result of his service with this unit had acquired American citizenship and a Lt Colonelcy in the Reserve. Due to the intervention of Mr. Domingo, Domingo was called to this office for clarification of the inconsistencies in his case. Domingo's story is contained in the Reconstructed History of the 14th Infantry which is attached hereto and referred to later herein. The testimony of Domingo, if accepted, and he was certified by DINGCONG brought to light what was believed to be the true story of the unit - that it was not a regiment gallantly carrying on but rather a few stragglers with a radio who had deliberately reported to Gen MacArthur false information concerning strength and activities which resulted in "rewarding" the unit with AUS status.

After the incident of Domingo, Capt Baker was reluctant to accept wholeheartedly the testimony of Mr. Domingo because it certainly appeared that he had been guilty of or at least aware of the many frauds that had been committed. Too, the last incident prior to Capt Baker's departure was his absolute acceptance of the fact that "J" Company under Capt Longo had never received any word of the AUS

status of the unit because of the physical impossibility to have received any message on the date indicated.

After the departure of Capt Baker, review of the few remaining cases continued with revocation of status usually occurring. Wires were sent to St. Louis for additional cases that were connected with revoked cases and these resulted in revocation also. A clear cut criteria was established through long discussion with both the Commanding Officer, Executive Officer and Director, Service and Certification Division, this headquarters and it was decided to ask for recall of all cases of the 14th Infantry.

Part II - Special Review

1. By disposition form dated 27 July 1960, approval was granted to Project "J" to request return of the 14th Infantry files for review. On 8 August 1960 a letter was prepared and dispatched through military channels requesting return of all files. This letter, although forwarded through the Commanding General, Philippines Command (AF) and Thirteenth Air Force was indorsed to The Adjutant General, Department of the Army, from GRC, FBC by 1st Indorsement dated 5 December 1960, recommending approval. (See Incl #2, letter GRC, FBC, 5 Dec 60).

2. A follow-up letter had been drafted at this headquarters but was held in abeyance when notification was received of the action of Far East Command (Incl #3).

3. A confidential letter from the Manager, Manila Regional Office, U. S. Veterans Administration, Manila dated 18 August 1960 concerning inconsistencies in operating procedures within Project "J" concerning derogatory information in 14th Infantry cases is attached (Incl #4).

4. On 7 November 1960 this headquarters returned to the Manila Regional Office, USVA, 363 VA Form 3101 which had been directed to this office for recertification of service of personnel of the 14th Infantry (Incl #5).

5. By restricted letter, dated 10 May 1961, the Director, Service and Certification Division, this headquarters, transmitted to the OIG, Project "J" a letter from The Adjutant General, DA, dated 20 April 1961 which prescribed a special review for the 14th Infantry records which were being returned. (Incl #6)

6. By letter dated 3 May 1961, OIAG, RAC, St. Louis, Missouri transmitted VA 3101's which were on hand in that Office to this headquarters in connection with this special review (Incl #7).

Inclosures to this letter indicated that the Manager, Manila Regional Office, USVA had, by letters dated 20 November 1950 and 12 February 1951, requested review and recertification of these cases in order to insure justice to all prior to the deadline date of 25 July 1951 when these persons were to be enrolled in training under Title II Public Law 346.

7. A wire was received from CO, RAC, St. Louis, Mo., on 14 May 1951, requesting information as to whether or not records had been received. Wire was dispatched (Incl #8) advising that Office that records had not been received, that a query had been received from San Francisco Port of Embarkation as to how records boxes should be marked to be shipped to this headquarters and such information had been wired thru CAPB to SFPB, and that it was believed these were the 14th Infantry records.

8. A supplemental shipment of 37 files were forwarded by letter from RAC on 16 May 1951 (Incl #9). These were received on 27 or 28 May 1951.

9. On 14 May 1951, this headquarters informed the Manila Regional Office, USVA, of the Special review of 14th Infantry cases which would take place (Incl #10).

10. On 23 May 1951, the USVA further queried this headquarters concerning such review and due answer was furnished by letter dated 23 May 1951 (Incl #11).

11. On 31 May 1951, the 14th Infantry records were accepted from the Military Port of Manila and shipping documents receipted (Incl #12).

12. On 1 June 1951, letter was dispatched to C-in-C FEG, advising of receipt of records (Incl #13).

13. In planning this special review, it was readily seen that an adequate review with an appropriate resume concerning each case would not be feasible in the short working period permitted. A Reconstructed History, 14th Infantry (PA-AUS) was prepared (Incl #14) and transmitted to RAC, St. Louis on 22 May 1951. A mimeographed letter (Incl #15) was prepared to be used in each case file, citing pertinent provisions of the Reconstructed History or other reasons justifying action taken.

14. Twelve (12) boxes of records were received. PA 201 files had been requisitioned for all 14th Infantry cases and were on hand. Rather than open and scatter the contents of each box, the procedure used was to open and start on one box, placing the PA file with the Project "J" file received. As the processing and shipment back to

St. Louis progressed, it was noted that a duplication of files was appearing. Checking it was found that AG 201 files of individuals were in separate boxes from the Project "J" file of the same individual. 144 AG files were returned under separate cover (Incl #16). These files were not essential in processing because they contained only original papers of the Project "J" files and current data not applicable to their status under the Missing Persons Act. It was also found that packing lists were not accurate as to what was contained in the boxes. Records would be sent in one box and found in another. One file, listed on the packing lists, ROSA, Benigno Dela 10826558, was not found. Files were found in jackets of other cases. Several files of Americans were found to be an integral part of Filipino 14th Infantry files. On these cases, a special note was placed indicating that the file contained papers not pertinent to the case. Copies of packing lists are attached (Incl #17).

15. In reviewing these cases in St. Louis a check of the 14th Infantry in France and Germany had been made (Incl #18).

16. Cases where revocation of AUS status was recommended were transmitted to St. Louis by letters of transmittal several times each day to insure receipt at the earliest date. Letters of transmittal are attached as Inclosure #19.

17. Cases where the AUS status was upheld were certified to the Manila Regional Office, USYA and the files were then shipped to St. Louis for review (Incl #20).

18. Daily report of operation was submitted to the Chief, Veterans Branch and copies are attached as Inclosure #21.

19. The final analysis of this review project is as follows:

Total cases involved	1235
Recommended AUS status be revoked	1163
Recommended AUS status be upheld	46
Cases not received from St. Louis	24
Case not involved (R.N. Arnold)	1
Case listed under two names	1
Total	1235

20. In the cases not received from St. Louis, letter was forwarded to RAO, together with PA file, for appropriate action (Incl #22).

Part III - Conclusions and Recommendations

1. Of the 1209 cases reviewed by this Section, it was recommended that the AUS status be revoked or remain revoked in 1163 cases. Of the 46 cases where it was recommended that the AUS status

be upheld, 18 were officers and 28 were enlisted men. It is still believed that this figure is slightly in excess of the actual number of persons duly authorized to have legally acquired AUS status. It is believed that only about twenty to thirty persons actually qualified for AUS status. It is believed that the actual unit consisted only of the personnel actually in the immediate vicinity of the radio which was in the regimental command post. In this connection attention is invited to the certificate of Major Dingoong of 25 January 1949 (Incl #23) which would be the figure deemed correct by this Section to be eligible for AUS status. Further, of the 46 upheld, two Lt Camp and Lt Heib were commissioned in the AUS prior to the surrender of Corregidor as was the case of Robert H. Arnold.

2. There have been many frauds connected with processing of this unit. One example, Sgt. Jesse C. Fiel, has prepared an affidavit (Incl #24) which shows the "pay-off" within this headquarters.

3. The Brief History submitted by Arturo L. Dingoong is in itself a fraudulent document furnished to military authorities to assist in a fraud and to attempt to hide the false reports submitted by Lt Col Makar to General MacArthur. As a major, AUS, Arturo L. Dingoong, sat on a special review board of this headquarters to determine accurately who should be entitled to AUS status. Had he told the same story furnished to this headquarters by Colonel Robert H. Arnold in letters of 20 November 1960 and 30 January 1961 these fraudulent cases would never have been processed. Mr. Dingoong was with Colonel Arnold throughout and thoroughly aware of the fraud perpetrated by Col Makar. His abetting the fraud, whether before or after the act, was responsible for payments of arrears in pay and benefits under Title II, Public Law 346 as well as normal disability and death benefits far in excess of that actually earned by personnel of the unit.

4. Prior to the initiation of this special review, revocation of AUS status of personnel of this unit had reached approximately 545 persons, involving payment of arrears in pay of approximately \$1,556,990.64 even though the amount paid to approximately seventy people is not available and not included in the amount. Payment of benefits under Title II Public Law 346 cannot be estimated. In addition to such amounts, death and disability claims were paid on a dollar basis instead of the peso basis which is paid to Philippine Army and/or guerilla claims. As a further reward for service with this unit, reserve commissions and citizenship were conferred. It is not known as to what action, if any, has been taken concerning citizenship although a letter was written to the Commanding General, Philippines Command (AF) and Thirteenth Air Force requesting revocation of Reserve commission when AUS status was revoked.

5. It is concluded that the AUS status of this unit was obtained by fraud committed by Lt Colonel Guillermo A. Naker, Philippine Army, in submitting false documents to General MacArthur, with or without the knowledge, consent and aid of personnel under his command.

6. It is recommended that the AUS recognition of the unit be withdrawn as fraudulently obtained and that all resultant benefits acquired through such status be withdrawn and redetermined under Philippine Army and/or guerilla status only.

7. It is further recommended that if such recognition is not recommended for withdrawal, that each case when returned from RAC, St. Louis, Missouri, whether AUS status is revoked or not, be adjudicated under current policy and the results of such determination be clearly established within the PA and/or guerilla file of the individual concerned.

Determination of PA Status of Cases Formerly Determined AUS Under the Current Policy of Being Determined Negative AUS.

GSXD-J
Director

Chief, Proj "J" Br

10 Oct 49

It has been determined that during the early phase of determining AUS status of personnel who alleged such with the 14th Inf. AUS, that many determinations were made under a rather liberal policy.

According to Gen. MacArthur's delegation of authority to Col. Naker to induct this Command into AUS status his radio very definitely stated members of the PA to be inducted.

As a result of the Screening program now being conducted in this Branch, many cases are being discovered of individuals having been determined AUS and paid as such, that failed to meet the basic requirement for such consideration, namely, former members of PA. Action is being taken to correct the determination previously made and to determine such cases non-AUS. No action is being made or is contemplated to recover payments made as result of the erroneous determination. Previously, all such cases, after being determined non-AUS, have been referred to the Adjustment Division for consideration as PA or USAFFE benefits. It is understood that under present operating procedure the Adjustment Division is in no position to take further action on such cases due to the fact that they have previously been considered and paid a greater amount than would be due them as arrears in pay for PA or USAFFE service.

It is believed that some action should be taken to determine such cases such individuals as members of the PA or USAFFE as circumstances may indicate, in view of current, pending, or any future Legislative Acts that might entitle the individual benefits due to his having been a former member of the military. Under the present procedure should any individual request benefits under pending Rogers Bill, no consideration could be given in that no action has been taken to classify his services.

It is estimated that approximately 100 such cases from Proj "J" will come under the aforementioned category.

This check note is being written in compliance with instructions from Col. Forster in order that a decision maybe reached by the appropriate division chiefs.

REMARKS I received a call from Mr. Palmer this morning inquiring as to what word, if any, we had received on the continuation of screening and readjudicating 11th Infantry, AUS, cases. I replied in the negative.

He has definite problems which further delay by the D/A will intensify, namely:

1. The deadline date for educational benefits is 25 July 1951; a veteran must be enrolled by that date. Enrollment cannot begin until the vet is finally determined loyal.

2. Many vets now hold AUS status have D/I and a field invest by VA is necessary. This takes time; not much time remains between now and July.

3. Pursuant to our agreement the VA is holding up on 11th Inf cases pending results of re-screening. Our failure to get early action out of D/A will prevent re-screening in time to make it possible for some deserving men to get their schooling. On the other hand, benefits may go to many undeserving if the VA got ahead on its own.

In view of above I recommend a followup letter to D/A pointing out the above as showing need for early

1. Reference is made to letter, this headquarters, dated 8 August 1950, same subject as above, a copy of which is herewith enclosed. (Incl 1)
2. In addition to the information supplied in the original letter referred to above, this headquarters has recently been informed by the Manila Regional Office, United States Veterans Administration, that many claims filed by former members of the 14th Inf (AUS) are for educational benefits. These claims must be acted upon by VA prior to 25 July 1951 because the law requires that a veteran must be enrolled by that date if he is to enjoy educational benefits. The Veterans Administration is presently ^{withholding} holding-up action on all 14th Inf cases pending results of the screening recommended in the above mentioned letter. If those cases are decided by VA on the basis of prior service determination, there is a grave possibility of granting benefits to undeserving individuals and of denying the same to some deserving ones.

3. In reviewing these 14th Infantry claims, discrepancies have been found which indicate that perhaps the AUS status of many alleged members of certain units should be revoked. Considerable study has been made of these units and the true facts being brought to light warrant every consideration in over-all readjudication. Each discrepancy found has ^{been} multiplied by subsequent findings. As an example, a letter addressed to Colonel Robert H. Arnold, an American Reserve Officer who was present with this unit, elicited a reply which furthers the original belief that the status of some of the units of the 14th Infantry ^{were} fraudulently obtained. (Copies of both letters are attached ~~as~~ ⁱⁿ Incls 2 & 3) This headquarters has taken action to procure the roster referred to by Colonel Arnold. It will be noted that Colonel Arnold indicates that the 14th Infantry was, in fact, disbanded prior to receipt of the wire from General MacArthur authorizing AUS status and that, to say the least, information furnished General MacArthur (on which he based his award of AUS status) was misleading. It is believed that the regiment, at the time of receipt of General MacArthur's wire, consisted only of a few staff personnel and security guards. Based upon information secured as a result of this study, the unit history of Major Arturo L. Dingcong, Regimental Adjutant, can no longer be used to verify the activities of this unit. ^{In the past,} ⁴ Considerable credence was placed in this history in all prior adjudications.

4. In some of the cases, it may be necessary to conduct field investigations to determine the merits of the service claimed. The Veterans Administration may likewise have to conduct field investigations to determine the loyalty status of the claimant where his loyalty is in question. All these are time-consuming.

1. It is recommended that the files of the individuals listed on the attached rosters be returned to this headquarters at the earliest practicable date in order that they may be thoroughly screened. All these individuals claimed to have had AUS status for services with the 14th Infantry (PA), a unit recognized by General BanArthur for its guerrilla operations after the surrender of Corregidor and subsequently authorized by him to induct its personnel into the Army of the United States.

2. A comprehensive study of the activities of the 14th Infantry (PA) has recently brought to light important information which may materially change determinations rendered in the past. Field investigations, archive files and Philippine Army files have revealed, among others, the following hitherto unknown facts concerning units and alleged individual members of the 14th Infantry:

- Many members of the unit did not have prior service in the Philippine Commonwealth Army (USAPFA).
- Several companies were actually disbanded prior to the alleged date of induction into the AUS.

Note: See also page 1.

Incl 1

Records Adm Center, St. Louis subj: "Records of the
14th Inf A.U.S." continued.

c. One company was too far distant from the point of receipt of the radiogram authorizing induction into the AUS to have been inducted on the date of alleged actual induction, considering the terrain and communication facilities then available.

d. Individuals of one unit allegedly inducted on the same date by the same inducting officer were in widely separated places, which would preclude the probability of the inducting officer being physically present at the different places on the same day.

e. One unit was actually engaged in negotiations with the enemy for the surrender of its men and arms prior to the date of alleged induction.

f. Personnel of at least two units, by admission of the guerrilla commander, were not physically inducted into the AUS.

g. Certain members were alleged to have been inducted into the AUS by officers who had no authority to induct.

4. In view of the absence of this information at the time decisions on numerous cases of alleged members of the 14th Inf were made, it appears necessary to review the entire program so as to effect a just and equitable determination for all cases involved. It may be expected, in light of the above, that many cases previously determined positive for AUS status may be declared negative upon review, and some previously declared negative cases may become positive.

5. A thorough review cannot of course be accomplished unless all the files (both positive and negative) are returned to this headquarters. Although the recall of such cases is to be regretted, the action appears necessary if we are to avoid perpetuation of previous decisions now known to be contrary to the interests of the U.S. government and, in certain cases unfair to individual claimants.

6. It is estimated that it will require approximately ninety days to complete the review after arrival of the files at this headquarters. If so desired the cases will be returned as the review is completed and not withheld for one bulk shipment.

As an American Army officer who was present and probably familiar with the overall organization, tactical situation, period 20 Oct 1950 Col Robert H. Arnold advised that you might essentially assist in clarifying 24 Edgewood Road, Chatham, New Jersey.

It is requested that any information concerning the following be furnished:

This headquarters is presently reviewing many cases of the 14th Infantry (PA-AUS). Continuing study of this unit has revealed that many persons were given AUS status and paid arrears in pay accordingly, when it has been found that they were never inducted or were not eligible, for such induction. Many irregularities have been discovered and this headquarters is presently endeavoring to construct a factual history of the unit.

The two requirements adopted for eligibility for AUS status remain those prescribed in the wire of General MacArthur authorizing AUS status: prior Philippine Army status and physically present and accept such AUS induction.

These requirements are justified as follows: General MacArthur directed induction into the AUS under authority of Circular 220, War Department, 7 July 1942 which specifically granted such induction to personnel of the Philippine Army. No person could have been inducted into the Philippine Army subsequent to 10 May 1942 (date of the surrender message of General Wainwright) because no authority existed in the Islands to effect such induction. Therefore to be eligible for induction into the AUS the individual must have recognized Philippine Army status prior to 10 May 1942.

Less of the United States government and of the military services require that a person be physically inducted, by the personal taking of an oath of allegiance to the US Government.

Reimbursement to the US Government of arrears in pay from those persons erroneously determined AUS cannot be effected by any decision at this time as there are few, if any, means available to collect such overpayment.

However, benefits available to such determined AUS personnel, in many forms, render it mandatory that the undeserving be denied. Review indicates many discrepancies in the allegations and activities of this Unit, both from an individual and from the Unit standpoint.

Testimony of personnel of this Unit has not been satisfactory to substantiate many facts that are essential to the administration of justice.

As an American Army officer who was present and probably familiar with the overall Organization, tactical situation, personnel and deployment, it is believed that you might materially assist in clarifying many discrepancies.

It is requested that any information concerning the following points be furnished:

1. Who and approximately how many officers were on active duty with the 14th Infantry Unit; their specific assignments and when they joined the Unit. This information is of vital importance and should be furnished to indicate whether they were present for duty on the date the wire from Gen MacArthur was received.
2. What was the approximate enlisted strength on the date the wire was received?
3. What companies of the regiment were active and where were they located on the date of the wire?
4. What was the nature of the "tactical dispersment" made on or about 10 May 1942?
5. Who were present in the Regimental Headquarters when the wire was received?
6. Do you remember any instances of disloyalty, surrender, desertion, collaboration, etc?
7. Do you know of any induction taking place? If so, where, when, and the number and/or names of personnel inducted and by whom?
8. What means, if any, were used to notify outlying units of their authority to induct into the AUS.
9. Who, if anybody, was authorized by Colonel Makar to effect induction.

Any other information such as a diary, rosters, 14th Infantry correspondence, etc., that might be furnished will be of valuable assistance.

This request is very important because of the many frauds that are occurring as a result of the unusual circumstances involved in the creation of this Unit and its subsequent induction into the AUS. Information has been secured from many members of the Unit,

Attention: Warrant Officer Richard Evans

Dear Mr. Evans:

This is in acknowledgment of your letter of October 20, 1950.

I am well aware of the situation which you describe in your letter, and have been trying to assist the army in verifying legitimate claims of Filipinos for AUS and Philippine Army service during the war.

Three years ago or more I filed a complete roster of officers and enlisted men who had been members of the 14th Infantry Philippine Army in 1942. The total list comprises 76 officers and 295 enlisted men. Some of these officers and men were killed in line of duty. Some of them continued to serve loyally throughout the Japanese occupation; many of them threw down their arms and returned to civilian pursuits because of the relentless search of the Japanese occupation forces for members of this command. If you do not have the roster to which I am referring, I will be glad to send you my copy, with the understanding that it be returned to me after you have made a copy of it.

The actual number of officers and enlisted men of the 14th Infantry had been much larger than this roster indicates, but all the other men had been disbanded prior to the receipt of General MacArthur's instructions of June 1942, which gave authority to Colonel Nekar to induct his Philippine Army troops into the AUS. I do not remember the companies of the regiment that were active after this date, except that it was the Regimental Headquarters Company and two others.

The tactical dispersment, which you mentioned, was, in fact, a disbandment, and I recognized at the time that Colonel Nekar's radiogram to SWPA was, to say the least, misleading. I was present in the Regimental Headquarters at the time.

As C. O. of the 14th Infantry after Colonel Nekar's capture, I refused to authorize further inductions into the AUS, since our tactical situation did not warrant it until early in 1944. At that time we inducted a considerable number of men into the 14th and 15th Infantrys P. A.

Captain Dingcong was the only other officer that I know of authorized by Colonel Nekar to effect induction into the AUS. Unfortunately, I do not have any diary to make available to you, since this had to be destroyed late in 1942 when my death in battle appeared imminent.

If you have any specific questions about individuals, I will be glad to tell you whether their claims are justified.

Very truly yours,

Sec. 4. A person shown by evidence satis- factory to the Ad-
ministrator of Veterans' Affairs to be guilty of spying, treason,

States or of its allies shall forfeit all accrued or future
benefits under laws administered by the Veterans' Administra-
tion pertaining to gratuities for veterans and their dependents;
PROVIDED, However, That the Administrator of Veterans' Affairs,
in his discretion, may apportion and pay any part of such
benefits to the dependents of such person not exceeding the
amount to which each dependent would be entitled if such per-
son were dead."

The cited Committee has considered many cases of individuals who were
cleared by the loyalty status boards and has rendered decisions of
forfeitures under Sec. 4, P. L. 44, 78th Congress. These decisions ad-
verse to the veterans, have been rendered by the said Committee after
due consideration of not only the loyalty status board proceedings,
but also after considering evidence that has been developed by Field
Investigators of the Veterans Administration since the loyalty board
proceedings were rendered.

It is my understanding that the employee who made determinations
on Loyalty and derogatory information for Project "J", on cases in which
the VA was interested, was recently dismissed under suspicion of
attempting to exhort money from a claimant of the VA; also, that another
Filipino associate, who was charged with the duty of obtaining all
derogatory information from CIC or OSI on Project "J" cases, was also
dismissed for the same reason.

In view of the foregoing, it appears that it may be necessary
and advisable, in order to protect the interests of the U. S. Government,
to check all derogatory information that may exist in all Project "J"
cases that have been favorably adjudicated by the VA. Many of these
cases are currently in receipt of disability compensation awards in the
amount of \$150 per month. These payments may continue for the
life of the individual and death payments may be continued to surviv-
ing dependents. In other words, some of these awards approved for the
period of veteran's lifetime or his dependents may amount to as much
as \$65,000.

It will be appreciated if due consideration is given to the fore-
going so that a determination may be reached as to the most practical
and feasible manner in which to review the Project "J" cases which
have been acted upon favorably by the VA.

Sincerely yours,

J. E. PALMER

The Manager, Manila Regional Office
U.S. Veterans Administration, USVA Bldg.,
Escobita and David Streets, Manila
(ATTENTION: Mr J E Palmer)

Dear Mr. Palmer:

Within the past few days this headquarters has received a sudden influx of VA Forms 3101's, all of which pertain to former members of the 14th Infantry, AUS and as indicated thereon, were for benefits under the provisions of Title II PL 346- 78th Congress. (Educational benefits)

There is returned herewith, without action, 363 of these cases. This headquarters has very carefully studied the request for information desired by your office which is contained in the additional information portion of form 3101.

A review of these cases is not possible, nor contemplated. On several occasions in the past it has been necessary to inform your office that all the case files together with other pertinent records have been shipped to Demobilized Personnel Records Branch, Records Administration Center, St. Louis 20, Missouri.

It was noted in our review that in the majority of cases your office apparently requested another certification (or redetermination) from EPFB. The purpose or the reasons necessitating such action by your office is, of course, unknown to this headquarters, however it is believed that such action may not have been warranted nor necessary.

The reference in the requests being returned which state "Request complete report of service in accordance with current policy whereby service in 14th Infantry, AUS is shown as well as service in the P. A. or USAFFE etc." implies that there have been changes in the methods for certification of service information. Such a request is not understood and misleading since it is well established that such a procedure does not exist. It is apparently pertinent to reiterate that service

Ind 5

COPY FOR OIC, Prod '7'

Ltr to Mr. Palmer, HQ, USAF 4th 6 Nov 50 continued.

in the Philippine Army prior to induction into the Army of the U.S. is a prerequisite for induction; however, no service determination of USAFFE and/or guerrilla activities is deemed appropriate or necessary in view of the certification of valid AUS service.

Another statement contained in the requests is to the effect that a recent report was received from SPFB and that it appeared to have been made without a check of the PA files. It is well known that there does not exist for every 14th Inf AUS case, one file containing documents pertinent to AUS status and another file containing documents pertinent to PA status. Furthermore, the official repository for 14th Inf AUS 201 files is SPFB and AGSD is the official repository for PA files. In the majority of cases (14th Inf AUS) all of the data pertinent to PA status is an integral part of the 201 file located at SPFB, and only in a very small number of cases does this headquarters have a PA 201 folder containing limited data.

The request in these cases for another DI report is not understood. Available records in this HQ and the standing operating procedure which prevailed during the time that these files were in the custody of this HQ, provided for the furnishing of all available DI information of record. In view of this and unless your office is in need of some specific DI information in a given case, it would appear that such a request is definitely unwarranted.

It has also been necessary on numerous occasions in the past, to inform your office that it is not necessary to initiate a 3101 to insure certification of revocation of AUS status for members of the 14th Infantry. When the AUS status of an individual has been revoked, a copy of the instrument of revocation automatically has been furnished your office. There has been no change in this procedure. To further insure that your office is in receipt of such information, it is also the practice of furnishing consolidated reports of revocation regularly. Upon completion of the revocation action by this HQ, it then is SOP within this HQ to evaluate the records concerned, in order to effect a determination of USAFFE and/or guerrilla service. When this latter action is completed, an appropriate certification is automatically made to your office.

In the case of Roman Balisi 10626986, being returned in this group, it was noted that the form 3101 contained no information regarding the identity of the veteran on whom information was requested. There was however, a VA Form 506 attached, without which this HQ would have been unable to have taken any action. In this connection, it was also noted that form 3101's were not always authenticated by the responsible person. This of course always raises a doubt as to whether your office actually intended that the request be referred to this HQ.

Let to Mr. Palmer, HQ, USVA dtd 6 Nov 50 continued.

During the review and analysis of the requests prepared by your office in these cases, it was attempted to determine just what this HQ might do in an effort to be of assistance. As indicated above, no action can or will be taken. In view of the referral of these type cases en masse, it appeared that your office was attempting to effect a complete review of each case. Such an action is considered inappropriate, since the responsibility for same would clearly rest with this HQ.

The referral of these type cases to this HQ causes a large expenditure of time, funds, and personnel becoming involved in actions which are unproductive and results in wasted efforts which could be better utilized in accomplishing our tasks. Accordingly, it is suggested that more care be given to the preparation of requests to this HQ. In this way, I am certain that our missions can be accomplished in a more satisfactory manner.

This is being brought to your personal attention so that appropriate action can be taken by your office which will obviate future similar requests being received by this headquarters.

Sincerely yours,

1. Reference is made to your letter dated 8 August 1950, subject, as above, recommending that the files of the individuals listed on rosters submitted be returned to your headquarters for screening.

2. The temporary loan of the pertinent 14th Infantry records for screening is approved, subject to the following restrictions:

a. The proposed review and zone of consideration will be limited to those individuals who were granted AUS status as a result of their service with the 14th Infantry. The review, therefore, should include the cases of all individuals who now have, or have had, 14th Infantry, AUS status, whether or not such status has since been revoked. The recognition of any individual who has never been given AUS status is not authorized.

b. Review will be made in conformity with the current criteria for determining eligibility for 14th Infantry AUS status; i.e.:

- (1) that the individual had service in the Philippine Army prior to 14 July 1942;
- (2) that on 14 July 1942 the individual was physically present or was accounted for, i.e., sick, on leave, detached service or other similar duty status;
- (3) that there be acceptable or reasonable evidence of actual or constructive induction into the 14th Infantry, AUS, within the limits of the capabilities of the organization at that time.

c. In all cases in which it is determined that the individual was, and is, entitled to AUS status, your headquarters will take final action, including recertification of each case to the Veterans Administration. After completion of all action, the complete file will be returned to Records Administration Center, St. Louis, for permanent custody.

d. In any case in which it is believed that the AUS status of the individual should be or should remain revoked, your headquarters will not take final action, but will assemble original copies of all evidence taken into consideration in the recommendation for revocation and forward it immediately, complete with each record involved and any live case pertaining thereto, to Records Administration Center, St. Louis, for final determination as to whether the individual is entitled to AUS recognition. Each case will be accompanied by a recapitulation or summary, setting forth in detail the reasons for any proposed revocation of AUS status.

e. In all cases in which revocation of AUS status is recommended, as described in the foregoing paragraph, your headquarters will advise the Veterans Administration Regional Office, Manila, that the final decision in such cases will be made by The Adjutant General and that the VA will be notified of the final decision as soon as possible.

3. All pertinent VA Forms 3101 now on hand at Records Administration Center are being forwarded to your headquarters under separate cover for processing upon completion of the screening. Your headquarters will take action in these cases in accordance with the provisions of subparagraph 2c or 2e above, whichever is applicable.

4. In all cases in which the AUS status is revoked by this office, the entire pertinent file will be returned to your headquarters for any future action deemed appropriate in connection with Philippine Army or Guerrilla status. Records Administration Center will retain for permanent file photostatic copies of all the information necessary to justify the revocation as made.

5. The Veterans Administration Regional Office, Manila, is being advised to forward all Forms 3101 and other requests pertaining to the 14th Infantry now being held in that office to your headquarters for appropriate action.

6. The Veterans Administration Regional Office, Manila, has advised this office that there are pending a large number of claims for

vocational rehabilitation and education filed by personnel claiming service with the 14th Infantry, AUS, and that, under existing legislation, individuals must be processed and actually entered into a training course prior to 25 July 1951 in order to be entitled to educational benefits. This office has also suspended a large number of cases, other than VA requests, pending completion of the review. It is, therefore, desired that the review of 14th Infantry records and the processing of pending cases be completed as soon as possible and that all 14th Infantry records be returned to Records Administration Center as herein directed not later than 30 June 1951. Records should be returned as the reviews are completed and not withheld for one bulk shipment.

7. The loan of the 14th Infantry files to your headquarters for review has been deemed necessary in view of the many revocations of status that have been received, indicating that the original determinations were erroneously accomplished based on incomplete evidence and inconsistent application of policy. It is desired that upon completion of this review, no subsequent action in connection with the 14th Infantry be taken in your headquarters and that the 14th Infantry Project be considered as closed. As permanent custodian of the records, the Records Administration Center will take all necessary action in reporting record data on these cases.

8. The return of 14th Infantry records to your headquarters has been coordinated with the Veterans Administration Central Office. It is desired that no publicity be given to the plan for review and that the matter be made known officially only to the absolute minimum number of personnel necessary to accomplish the review.

9. Records of the individuals shown on the rosters submitted with your letter of 8 August 1950 are now being prepared for shipment to your headquarters. You will be further advised as to the date that the records are shipped.

2. On 2 April 1951 this Center was notified that clearance had
been granted to ship the pertinent 11th Infantry records to your head-
quarters for screening. Accordingly, twelve (12) locker boxes of 11th
Infantry records were forwarded to the Commanding General, San Francisco
Port of Embarkation, Fort Mason, San Francisco, California on 6 April
1951, for shipment to 8133d Service Unit, AGSD, Philippines Air Command,
Clark Air Force Base, Philippine Islands. Holding lists containing the
names and service numbers of the individuals whose records were included
in these twelve (12) boxes are inclosed (Incl 2). In this connection,
records shipped included the Project "J" files previously retired to
Records Administration Center by your headquarters, together with the
enlisted record and AG 201 file pertaining to the period of service
in which AUS recognition was granted.

3. There is also inclosed a list (Incl 3) containing the names
and service numbers of individuals whose records had previously been
sent to your headquarters in accordance with the procedure explained
in letter from Demobilized Personnel Records Branch, dated 20 July 1950
(Incl 4). In connection with this list (Incl 3), which shows a portion
of those cases in which the AUS status of the individual had already
been revoked by your headquarters and the 201 files accordingly returned
to AGSD for permanent storage under the terms of a previous agreement,
it is now understood that these particular cases will be again reviewed,
together with all others, and the records involved retired to this Center,

SUBJECT: Records of the 14th Infantry, AUS

In all cases in which it is determined that the individual was, and is, entitled to AUS status, your headquarters will take final action, including recognition of each case to the Adjutant General's Office. In all other cases, the complete file will be referred to the Adjutant General's Office, St. Louis, for permanent review.

THRU: Commander-in-Chief

It is believed that the AUS status of the individual should be or should remain revoked, your headquarters will take appropriate action. It is recommended that the original copies of all evidence submitted in support of the recommendation for revocation and forward it immediately to the Adjutant General's Office, St. Louis, for final determination. In all cases in which the individual is entitled to AUS recognition, the case will be forwarded by a recognition or recovery, setting forth in detail the reasons for any proposed revocation of AUS status.

TO: Commanding Officer
8133d Service Unit
Adjutant General Records Depository
APO 928, c/o Postmaster
San Francisco, California

1. Reference is made to your letter dated 8 August 1950, subject, as above, recommending that the files of the individuals listed on rosters submitted be returned to your headquarters for screening.

2. The temporary loan of the pertinent 14th Infantry records for screening is approved, subject to the following restrictions:

a. The proposed review and scope of consideration will be limited to those individuals who were granted AUS status as a result of their service with the 14th Infantry. The review, therefore, should include the cases of all individuals who now have, or have had, 14th Infantry, AUS status, whether or not such status has since been revoked. The recognition of any individual who has never been given AUS status is not authorized.

b. Review will be made in conformity with the current criteria for determining eligibility for 14th Infantry AUS status; i.e.:

- (1) that the individual had service in the Philippine Army prior to 14 July 1942;
- (2) that on 14 July 1942 the individual was physically present or was accounted for, i.e., sick, on leave, detached service or other similar duty status;
- (3) that there be acceptable or reasonable evidence of actual or constructive induction into the 14th Infantry, AUS, within the limits of the capabilities of the organization at that time.

20 July 1950

Lieutenant Colonel Gold, Commanding Officer
Adjutant General Records Depository
PHILCOM (AF) and Thirteenth Air Force
APO 900, c/o Postmaster
San Francisco, California

Dear Colonel:

This office has received approximately 400 letters revoking the AUS status of 14th Infantry personnel. Inasmuch as in the majority of cases these individuals have no other AUS or Philippine Scout service, they automatically revert to a Philippine Army or guerrilla status. It is the intention of DEFB in these cases to revoke any action previously taken by DEFB, such as the award of the Combat Infantryman Badge and pay, and to forward all available records to your depot for any action deemed appropriate in connection with Philippine Army or guerrilla status, and for file in your depot. There are some cases in which appeals from the revocations have been received from the individuals concerned; DEFB will deny the appeals before forwarding the files to your depot. It is believed that any SLOI's available in these cases should be completed at AGRD in view of the individuals current status as Philippine Army or guerrilla.

Copies of the revocation letter and withdrawal of the Combat Infantryman Badge have been retained in DEFB for reference purposes, and the files have been flagged so that any future request received on these individuals will be forwarded to AGRD. The inclosed case pertaining to Sergio S. Sarinas is the first case of this nature processed in DEFB. However, action is being taken to forward the remainder of these cases to you.

Please advise whether this procedure is satisfactory insofar as AGRD is concerned.

W. A. LEARY

IN REPLY TO YOUR LETTER

TO November 1950

To: Commanding Officer, Disabled Personnel Records Branch, AGO
Manager
Veterans Administration Regional Office
APO 928, c/o Postmaster
San Francisco, California

Dear Sir: Office recently received unaccomplished L50 VA Form 3101 from
AGRS, PHILSON (AF), APO 928. These forms pertain to former members
Reference is made to your letters, 58870 and 5888, dated
20 November 1950 and 12 February 1951, subject: "14th Infantry,
AGRS", copies inclosed, regarding pending claims filed by indi-
viduals who alleged that they were members of the 14th Infantry, over-
AUS, location of 14th Infantry (AUS) status. In the majority of cases,
the evidence or information of record only shows military service

In compliance with a recent directive received by this Center,
the records of 14th Infantry personnel have been returned to Adjutant
General Records Depository, APO 928, for screening. Therefore,
it is suggested that until further notice all Form 3101 and other
requests now pending in your office pertaining to 14th Infantry
personnel be forwarded to Adjutant General Records Depository for
appropriate action.

With reference to my letter dated 1 November 1950, copy: July
inclosed, all VA Form 3101 and other requests pertaining to
14th Infantry personnel, which were being held in this Center,
have been forwarded to Adjutant General Records Depository, APO
928, for appropriate action. A list of the requests forwarded to
AGRS by this Center is inclosed.

The Commanding Officer, AGRS, has been furnished a copy of
this letter.

Sincerely yours,

SUBJECT: 14th Infantry (AUS) Army has certified the individuals eligibility to such benefits.

1. This office recently received unaccomplished 450 VA Forms 3101 from AGRD, PHILCOM (AF), APO 928. These forms pertain to former members of the 14th Infantry (AUS) who are currently receiving VMS benefits or who may have applied for such benefits. prompt cooperation in this matter will be appreciated.
2. The information requested from the Army was principally for reverification of 14th Infantry (AUS) status. In the majority of cases, the evidence or information of record only shows military service performed after 12 July 1942. The claimants, in most of the cases, have stated on the various forms filed with this office that date of entrance into active service was on 12 July 1942 or thereafter.
3. Experience had in this office on cases analogous to the instant cases, has shown that the Army, upon reconsidering the evidence of record, has deemed it necessary to revoke 14th Infantry (AUS) status where the evidence failed to show that the individual performed military service with the NAKAR UNIT prior to 12 July 1942, and where the evidence failed to show that the individual had been physically inducted in the 14th Infantry (AUS).
4. For your information, I attach a copy of "MEMO FOR THE FILE" dated 5 June 1950 on the subject: "14th Infantry (AUS)", which is self-explanatory.

The 450 requests for reverification of service referred to do not appear to meet the criteria established for valid AUS status.

5. Recently this office was informed by officials at AGRD that it was believed that the Project "U" 201 files on questionable 14th Infantry (AUS) cases, would be returned from DPER, St. Louis, Missouri to AGRD. However, Lt. Colonel William M. Gold, Commanding Officer of AGRD, PHILCOM (AF), APO 928, advised this office on 13 November 1950 that no decision had been reached as to whether the respective Project "J" 201 files would be retained at your Station or would be returned to the Philippines. For this reason, this office must hold, without action, the 450 VA Forms 3101 until it is determined where the said requests should be directed.

- TO: 6. Under current legislation, a claimant who is eligible for VR&S benefits must have entered a course prior to 25 July 1951, otherwise, his eligibility to benefits is prescribed. In view of the deadline for entering school it is essential that this office receive reverification of AUS status as promptly as possible. Some of these cases may require field investigation by virtue of derogatory information of record at the Office of Special Investigations (OSI), U. S. Army. This type of investigation takes time to develop and in view of the limited time involved, this office is prepared to give priority to this type of investigation as soon as the Army has certified the individuals eligibility to such benefits.

SUBJ: 1. This investigation in part, is pending final decision as to status of all 14th Infantry personnel and 7. I will appreciate your advising me if these VA Forms 3101 in the cited cases may be referred to you at one for reverification of AUS status or whether you desire that they be retained here for transmittal to AGSD at a later date. Your prompt cooperation in this matter will be appreciated.

2. This office has currently pending a large number of claims for vocational rehabilitation and education as filed by individuals who alleged that they were former members of the 14th Infantry (A/I) R. B. LOVETT
R. B. LOVETT

3. Att: As stated legislation, in order that Manager individual may be entitled to educational benefits, it is necessary that he be processed and actually be entered into a training course prior to July 25, 1951.

4. Under existing legislation, former members of the 14th Infantry (A/I) are eligible for educational benefits. Former members of Civilian Guerrilla Units, such as 14th Infantry, RA BRAVIF W., are not eligible for educational benefits.

5. In order that those individuals who may be eligible for educational benefits may not be deprived of these benefits by virtue of prescription, it will be appreciated if some action is taken to expedite a decision on the question at issue.

This office also has a number of pending awards in cases where the Army initially made a determination that individual had 14th Infantry (A/I) status. Some of these cases have pending awards in the amount of \$165 a month. The determination of service previously made and which was the basis for the adjudication of claim indicated that individual had no military service with the armed forces of the United States prior to July 14, 1945. In order to avoid hardship on the individuals, no action has been taken to suspend these payments until such time that a reverification of service has been taken.

1. Reference is made to letter from this office, file AGRS-DC-S 314 (Phil Rec), dated 3 May 1951, subject as above, concerning the temporary loan of 14th Infantry records to your headquarters for screening.

2. With reference to paragraph 4 of the letter referred to above, a supplemental shipment of 14th Infantry records is being made this date. This shipment contains the records pertaining to 37 individuals, whose names and service numbers are shown on the attached list (Inclosure 1).

3. A list containing the names and service numbers of 14th Infantry personnel whose records have not been located is also inclosed (Inclosure 2). If the Project "J" 201 files of these individuals are not on file in your headquarters this office should be notified so that a further search can be made for the pertinent records.

4. There are also inclosed for appropriate action three VA Forms 3101 which were not included with the other VA cases forwarded to your headquarters on 3 May 1951.

Brig. Gen. E. B. Lovett, USA-Ret.

Sincerely yours,

Dear Gen. Lovett:

This headquarters recently received approval from the Dept. of the Army for the project of reviewing the records of the 14th Infantry, AUS. It was indicated in the official correspondence that coordination was made with the Central Office, USVA. No doubt your office will receive information from the latter office and perhaps you may have already received some.

As of this date the records have not been received by this headquarters but it is anticipated that they will arrive in the near future.

In all cases in which it is determined that the individual was, and is, entitled to AUS status this headquarters will take final action, and your office will be informed automatically that no change is warranted in the previous certification or a revised certification will be made. The procedure will be similar to what prevailed for USAFFE and guerrilla cases reviewed by our Special Review Project.

In any case in which the AUS status of the individual should be or should remain revoked this headquarters will not take final action. The final decision in such cases will be made by The Adjutant General and your office will be notified of the final decision as soon as possible.

The review of these cases is expected to be completed by 30 June 1951 and thereafter no action in connection with the 14th Inf (AUS) will be taken by this HQ, thus the project will be considered closed. However, the Records Administration Center at St. Louis, Missouri as permanent custodian of the records will take all future necessary action in reporting data on these cases.

Dear Gen. Lovett:

This headquarters recently received approval from the Dept. of the Army for the project of reviewing the records of the 1st Infantry Division, 1941-1945. It was indicated in the official correspondence that coordination was made with the General Office, USA, in order that your office will receive information from the latter office and perhaps you may have already received some.

As of this date the records have not been received by this headquarters but it is anticipated that they will arrive in the near future.

In all cases in which it is determined that the individual was not included in the review this headquarters will take final action, and your office will be informed subsequently that no change is required in the review certification or a revised certification will be made. The procedure will be similar to that provided for UNITED STATES cases reviewed by our Special Review Project.

In any case in which the AIC status of the individual shows he or should have been reviewed this headquarters will not take final action. The final decision in such cases will be made by the Adjutant General and your office will be notified of the final decision as soon as possible.

The review of these cases is expected to be completed by 30 June 1951 and thereafter no action in connection with the AIC (AIC) will be taken by this HQ, since the project will be considered closed. However, the Records Administration Center at Ft. Belvoir, Missouri, as permanent custodian of the records will take all necessary action in reporting data on these cases.

Ltr to Gen. Lovett, HQ 7e project of reviewing records of 14th Inf (AUS) cases, continued.

In the directive to this headquarters it was significantly pointed out that it was desired that no publicity be given to the plan for review and that the matter be made known officially only to the absolute minimum number of personnel necessary to accomplish the review. I hope this requirement will not interfere with such actions as your office may be required to perform.

This data is being supplied to your office as a matter of information and so that such action as may be required can be taken.

Sincerely yours,

Dear Gen. Lovett:

GRADE C. WATERS
Colonel INF
Commanding

This headquarters recently received from the 14th Inf, of the Army for the project of reviewing records of the 14th Infantry, INF. It was indicated in the official correspondence that coordination was being made with the Central Office, HQ 7e. It is desired that your office will receive information from the latter office and please you may have already obtained same.

In view of the fact the records have not been received by this headquarters and it is anticipated that they will arrive by the next delivery.

In all cases in which it is determined that the individual was, and is, entitled to such service this headquarters will issue final orders, and your office will be informed accordingly. Work or change in treatment in the pending certification or a pending certification will be made. The procedure will be similar to that provided for MIA's and guerrilla cases reviewed by our Special Forces Division.

In any case in which the MIA status of the individual should be so quickly resolved this headquarters will issue final orders. The final decision in such cases will be made by the Adjutant General and your office will be notified of the final decision as soon as possible.

The review of these cases is reported to be completed by 30 June 1951 and thereafter no action in connection with the 14th Inf (AUS) will be taken by this HQ, since the project will be considered closed. However, the Records Administration Center at St. Louis, Missouri as permanent custodian of the records will take all necessary action in requesting data on these cases.

Dear General Lovett:

Reference your letter of 23 May 1951 re: 14th Infantry (AUS). Please be advised that this headquarters has taken action to furnish the Philippine Army or guerrilla 201 file, together with the Project "J" file, of each individual of the 14th Infantry, to The Adjutant General when it has been recommended that the AUS status remain revoked or be revoked.

The request from your office for certification of service (VA Form 3101) in cases where revocation of AUS status is recommended by this headquarters will accompany the 201 file. If our decision is upheld by The Adjutant General both files will be returned to this headquarters where the records will be stored as permanent PA or guerrilla files. This headquarters will then furnish your office a certification of service (except in Title II Public Law 346 cases, only), redetermined to indicate all military service in the instant case. This will be accomplished without further request from your office.

Should the recommendation of this headquarters be not approved, The Adjutant General will furnish your office the completed VA Form 3101 indicating periods of active duty. The PA 201 file will be returned to this headquarters for storage. Any further action taken regarding service prior to induction into the AUS will be upon receipt of a request from your office, specifically indicating that PA and guerrilla service prior to induction into AUS is desired for benefits other than Title II Public Law 346.

If the AUS status of the individual is upheld by this headquarters, final action will be taken by recertifying periods of active duty or furnishing a certification that previous determination is

deemed correct and no change warranted. Previous certification of PA service furnished your office will be cited or a new certification made in order that a complete statement of service will be afforded your office in all cases where the AUS service is duly recognized.

It is reiterated that insofar as this headquarters is concerned no further action will be taken regarding the AUS status of personnel of this unit and the decision of The Adjutant General will be final.

Sincerely yours,

Dear Colonel Waters:

Thank you for the information contained in your letter of 14 May 1951 advising me that **GRADEN C. WATERS** is serving the records of 14th Infantry (ASG) Commanding your Headquarters.

Individuals who were members of the 14th Infantry (ASG) are eligible to file claims for education. In addition, they are eligible to file claims for compensation, which is attributable to their service in the Philippine Army (PA) and/or the Republic of the Philippines (R.P.). **RICHARD EVANS** is an Asst Adj. in the USA.

Under the laws administered by the Veterans Administration, it is vital for the adequate adjudication of claims that the military service be properly identified. PFC **BAKKE**, a member of the 14th Infantry (PA) without AUS service, is not entitled to educational benefits. Furthermore, if he is otherwise eligible for compensation he may receive compensation only on a pro rata basis. For this reason, in the usual case, it is generally vital to the adjudication of the claim to obtain a complete report on the individual's active military service; not only for that service performed in the 14th Infantry (ASG) but also that service performed prior to induction into the 14th Infantry (ASG).

In view of the foregoing and assuming that the 3-point criteria must be met to establish valid AUS service, it would seem that since many of the Project "A" service reports to be reviewed cited only military service from 12 July 1945 or thereafter, it will not be necessary to revise these prior reports to cover all periods of service performed by the individual from date that he was first inducted into the Armed Forces of the United States or date that he was released from active service.

Sincerely yours,

RE: 14th Infantry (AUS)

Dear Colonel Waters:

A. J. LOWERY
Manager

Thank you for the information contained in your letter of 14 May 1951 advising me that the project of reviewing the records of 14th Infantry (AUS) cases has been assigned to your Headquarters.

Individuals who were members of the 14th Infantry (AUS) are eligible to file claims for educational benefits. In addition, they are eligible to file claim for disability compensation, which is attributable to their military service in the Philippine Army (PA) and/or the result of service in the AUS.

Under the laws administered by the Veterans Administration, it is vital for the adequate adjudication of a claim that the military service be properly identified. For instance, a member of the 14th Infantry (PA) without AUS service is not entitled to educational benefits. Furthermore, if he is otherwise eligible for compensation he may receive compensation only on a peso basis. For this reason, in the usual case, it is generally vital to the adjudication of the claim to obtain a complete report on the individual's active military service; not only for that service performed in the 14th Infantry (AUS) but also that service performed prior to induction into the 14th Infantry (AUS).

In view of the foregoing and assuming that the 3-point criteria must be met to establish valid AUS service, it would seem that since many of the Project "J" service reports to be reviewed cited only military service from 12 July 1942 or thereafter, it will now be necessary to revise these prior reports to cover all periods of service performed by the individual from date that he was first inducted into the Armed Forces of the United States to date that he was released from active service.

The Adjudication Officer has also called attention to the fact that some of the cases initially forwarded by Project "J" to Demobilized Personnel Records Branch, Records Administration Center, ACO, St. Louis, Missouri, did not include the PA 201-file, and suggested that if not already contemplated, the said files should be made part of the Project "J" files, prior to return of 14th Infantry (AUS) cases to DPRB. This will help to eliminate any delays on supplemental requests for additional information that might be received from the Veterans Administration.

Sincerely yours,

1. Reference letter, TAGO AGPS.D 151 (8 Aug 50), subject as above, dated 20 April 1951, the file of Francis A. Camp, SN 0890359 has been reviewed.
2. In view of subject's citizenship and place of residence of his beneficiaries, it is believed inappropriate to certify his service data to the Manila Regional Office.
3. As shown in par 2b, Exh A of SR & D No. 1007 dated 23 March 1950 from this Headquarters, subject was legally commissioned by SO No. 52, H.P.D., dated 22 February 1942. Although he was assigned to the 14th Infantry, his AUS service began prior to the date such Organization was granted AUS status, therefore his individual commission is not subject to attack, nor in question.

I, Arturo L Dingcong, ASN-0888079, Major, Infantry, presently assigned with the 4th Signal Service Group, APO 900, certify to the correctness of the following:

That Pvt ANASTACIO PLAZA, an original member of the 14th Infantry, USAFFE in 1942, is personally known to me in view of the fact that he was a medical aidman assigned in the RHQ, 14th Infantry and later was selected as one of the 20 to 25 officers and men in the staff of Col Nakar from May to Sept 1942;

That I know he was inducted into the Army of the United States together with all the enlisted men of the Regimental Staff on 14 July 1942 at Pinappagan, Nueva Vizcaya;

That he was on active duty from January 1942 up to the time he was last seen about the middle of Oct 1942 after which he got lost in the forest while performing a mission assigned him by Col Arnold;

That he was a little mentally deranged at the time he got lost in the jungles and that even Col Arnold had considered him as having starved to death, and because of this I had listed him as a casualty in my first list of AUS personnel which was submitted to RFD, AFWESPAC, in December 1945.

March 1947, at about 1700, Sgt. BALINA contacted me at the Station Hospital and asked me to give him the original copy of my Special Orders promising me to Staff Sergeant. Sgt. BALINA said that he would type it and attach it to my papers.

AFFIDAVIT

That when I was processed February 1947, the Processing Service did not take my Special Orders and told me that I don't need them.

I, Sergeant JOSE C. FIEL, ASN 10626860, after being advised of my rights under the 24th Article of War and having been sworn according to law, depose and say:

That I was processed on 15 February 1947 by Sgt. DOMINGO G. BALOD at Recovered Personnel Division, Project "J" Branch, AUS Processing Center. After I was processed they told me that morning to come back because they will send me to Nielson Field. The following morning, at around 1100 I was brought together with my companions to Company "B" 60th Tank Battalion.

That on March 3 I was brought to the 20th Station Hospital as per order from the Recovered Personnel Division, signed by Capt. MILLARD KRITH, and that on the 6th of the same month I was sent back to the same camp as Sgt. ALFREDO BALINA told me that my processing papers were lost. When I was at the 20th Station Hospital, Sgt. ALFREDO BALINA gave me a report of a negative determination and I asked if I was turned down as an AUS. Sgt. ALFREDO BALINA answered me "No" and he'll fix up my papers. Sgt. ALFREDO BALINA said: "I'll be responsible for it because there is something secret".

That during my stay in Camp Nielson Sgt. BALINA went there twice with men and get again 25 men. Everytime Sgt. BALINA goes there I tried to convince him to fix up my papers and I said if he'll fix up my papers he will have something from me and that is why my papers were recovered. This was on 18 March 1947.

That when I had conversation with Sgt. BALINA at Recovered Personnel Division, Mr. BRIGIDO FERNANDEZ approached me and told me that if I will go again to Maj. ARTURO DINGCONG anytime, he will turn me down. After that he left me and after a few hours I returned to Nielson Field. I stayed there for 11 days. I was with a group of 25 men but was the only one who returned back. When I was in Nielson Field I was asking for Sgt. BALINA's benevolent help that he fix up my papers and then he got angry with me and said that I just stay there for the time being and not be hot-tempered because at anytime Mr. BRIGIDO FERNANDEZ can turn me down. So I did not ask any questions anymore. Then Sgt. BALINA said: "You just stay there and I'll be the one to fix your papers."
