THE PROVINCIAL GOVERNMENT OF ILOCOS SUR
VIGAN, P. I.

Office of the Governor

SUBJECT: Existence of
Public Calamity
in Ilocos Sur.

EXECUTIVE ORDER
No. 13, s. 1935

November 23, 1935

The following telegram from Hon. Jorge Vargas, Acting Secretary to the President of the Commonwealth and dated November 22, 1935 was received by this office:

"The President (of the Commonwealth) has today signed Proclamation declaring existence public calamity in your province."

JORGE VARGAS
Secretary to the President."

WHEREAS according to the provisions of Act No. 4164, upon which is based the proclamation of the President of the Commonwealth, it is specifically prohibited for any person, firm or corporation in any locality where calamity is declared to exist, as a result of any typhon, earthquake or other act of God of similar nature; (1) To sell or offer for sale palay, rice, or corn, building or construction materials, and other prime necessities specified in such proclamation, at prices higher by 25% or more over and above the average current local price of such commodities one month previous to the occurrence of such public calamity as may be determined by the Director of Commerce; (2) To aggravate the crisis by refusing for the purpose of profiteering to sell at the legal price, or by hiding, concealing or hoarding the goods or commodities for the same purpose;

WHEREAS inasmuch as a public calamity is declared to have existed beginning November 22, 1935, it is hereby ordered that the provisions of the above mentioned law be strictly enforced by all Municipal Officials including the Police and the Constabulary and the violators thereof shall be duly arrested and brought under the pale of the law.

By authority of the Governor

Juan A. Cabildo
JUAN A. CABILDO
Secretary.

The Provincial Commander, P. C.
Bantay, Ilocos Sur.

TO ALL Municipal Presidents,
Municipal District Presidents
and Chiefs of Police,

Test VII.—ARITHMETICAL REASONING

DIRECTIONS:

Solve the following problems. Put your answers on the blank lines on your answer sheet under the title "Test VII."

1. A boy planted three rows of seeds, putting eight seeds in a row. How many seeds did he plant?
2. How much will a cook pay for $3\frac{1}{2}$ gantas of rice costing P0.16 a ganta?
3. A man had P750.35 in the bank. He withdrew P115.50 at one time and P12.75 at another. How much money had he left in the bank?
4. A Chinese merchant sold 600 salted eggs at 2 for 9 centavos. How much did he receive?
5. Mario and Justo each invested P80.00 in business. If they gained P28, what was Justo's share of the gain?
6. A merchant bought 350 kilos of sugar at 26 centavos a kilo and sold it at 30 centavos a kilo. What was the amount of his profit?
7. A teacher received P50 as his salary per month. Then he was promoted in position and given a ten per cent increase in salary. What was his salary per month after he was given the increase?
8. A boy, after spending $\frac{3}{4}$ of his money, had 5 centavos left. How much did he have at first?
9. If a boy can ride a distance of 3 meters in $\frac{1}{2}$ second, how far can he ride in 10 seconds at the same rate?
10. A young man worked for a year at P35.00 a month. He paid P16.00 a month for his board, and his other expenses for 12 months amounted to P96.00. How much money had he saved at the end of the year?
11. A lawyer bought an automobile at ten per cent discount. Its price without discount, was P1,750.00. How much did he pay for it?

Test VIII.—NUMBER RELATIONSHIP

DIRECTIONS:

Below are seven rows of figures each of which contains six numbers. In each row each of five numbers is made up or formed by adding or subtracting a certain amount to or from the preceding number; or by multiplying or dividing the preceding number by a certain amount. One number in each row is wrong because it is not obtained in the manner just explained. Find that number and write it on the answer sheet.

Samples:

(1)	1	2	3	4	5	9
(2)	10	9	8	7	99	5

Begin here:

(1)	4	6	8	10	12	15
(2)	2	4	6	8	9	12
(3)	2	3	8	16	32	64
(4)	1	2	4	8	16	22
(5)	6	$9\frac{1}{2}$	9	$8\frac{1}{2}$	8	$7\frac{1}{2}$

Test VII.—ARITHMETICAL REASONING

DIRECTIONS:

Solve the following problems. Put your answers on the blank lines on your answer sheet under the title "Test VII."

1. A boy planted three rows of seeds, putting eight seeds in a row. How many seeds did he plant?
2. How much will a cook pay for $3\frac{1}{2}$ gantas of rice costing P0.16 a ganta?
3. A man had P750.35 in the bank. He withdrew P115.50 at one time and P12.75 at another. How much money had he left in the bank?
4. A Chinese merchant sold 600 salted eggs at 2 for 9 centavos. How much did he receive?
5. Mario and Justo each invested P80.00 in business. If they gained P28, what was Justo's share of the gain?
6. A merchant bought 350 kilos of sugar at 26 centavos a kilo and sold it at 30 centavos a kilo. What was the amount of his profit?
7. A teacher received P50 as his salary per month. Then he was promoted in position and given a ten per cent increase in salary. What was his salary per month after he was given the increase?
8. A boy, after spending $\frac{3}{4}$ of his money, had 5 centavos left. How much did he have at first?
9. If a boy can ride a distance of 3 meters in $\frac{1}{2}$ second, how far can he ride in 10 seconds at the same rate?
10. A young man worked for a year at P35.00 a month. He paid P16.00 a month for his board, and his other expenses for 12 months amounted to P96.00. How much money had he saved at the end of the year?
11. A lawyer bought an automobile at ten per cent discount. Its price without discount, was P1,750.00. How much did he pay for it?

Test VIII.—NUMBER RELATIONSHIP

DIRECTIONS:

Below are seven rows of figures each of which contains six numbers. In each row each of five numbers is made up or formed by adding or subtracting a certain amount to or from the preceding number; or by multiplying or dividing the preceding number by a certain amount. One number in each row is wrong because it is not obtained in the manner just explained. Find that number and write it on the answer sheet.

For information, I am inclosing herewith a copy of the plan showing the present Gabaldon site, and the proposed additional lot to be acquired. The part indicated with red in the plan is the plan proposed approved by the Director and the Division Superintendent for enlargement of the Central School site. The parts indicated with blue is the part proposed to make the shortage mentioned in the third paragraph of the indorsement of the Director of Education.

In view of the fact that the only obstacle in opening the proposed intermediate classes is the standardization of the school site, I request that the necessary step toward the acquisition of the lots as indicated in the plan be taken so that the authority for opening the additional classes may be secured, and the pupils waiting for admission may be enrolled at the beginning of the second semester.

TO: C.O., "C" Co., M.P. Bn., 121st Inf., PA

1. In your station list of the "C" Co, M.P. Bn., you have included personnel, who are sick in the hospital, wounded in action now in the hospital, and sick in quarters.
2. Explain why you included them in your station list and not in the casual list.
3. The normal procedure should have been that those wounded in action, sick in hospital and sick in quarters should be placed in the casual list and their places taken by healthy, vigorous soldiers.
4. You should not carry sick soldiers to fight in the front.
5. Returning your LINE UP for proper correction.

COMMONWEALTH OF THE PHILIPPINES
DEPARTMENT OF FINANCE
BUREAU OF THE TREASURY
MANILA

September 2, 1937.

Sir:

I have the honor to request that an examination be made into the financial affairs and condition of "Gremio No. 35 - Los Defensores de la Libertad, Inc.," at Luna, that province.

The examination should cover the transactions had from April 1, 1931, the date next following that of the last examination, to the date as of which the examination herein requested shall have been conducted.

The report to be submitted by the examiner on the results of the examination should be patterned after the outline set forth under the heading, "Contents and Form of Report", which appears on pages 2 to 5 of the revised "Instructions on the Examination of Mutual Benefits, Relief, and Benevolent Societies or Association" which was promulgated by the Insular Treasurer on March 24, 1931. The balance sheet and statement of receipts and disbursements which will form part of the report should be drawn up as per models constituting Appendices "D" and "E" of our Circular No. 27. In other words, the different funds should be distinctly segregated. The statement of receipts and disbursements should be prepared following the distribution of income among the different funds provided for by the by-laws. Any discrepancy that may be found between the distribution of income shown in the books and that provided for by the by-laws, should be commented on in full. The cash on hand appearing in the balance sheet should be the cash on hand evolved in the statement of receipts and disbursements, if the book of the "Gremio" are kept by single entry; while the suplus of the various funds should be the difference between their respective total assets and total liabilities.

In case the books are kept by the double-entry method, where accounts receivable, accounts payable and other items which do not involve cash transactions are entered, the balances of the funds shown in the statement of income and expenses, plus inventories of the "Gremio"s" property that have realization value, if any, should tally with the surpluses appearing in the balance sheet.

After the examination, the treasurer of the "Gremio" should, if it appears necessary, be given instruction on how to keep the books and other records of the organization and how to prepare the annual financial report and other reports which are called for in our circular No. 27.

Early attention hereto will be appreciated.

Very respectfully,

(SGD) GREGORIO LEONES
Acting Insular Treasurer

The Provincial Treasurer
San Fernando, La

Test VII.—ARITHMETICAL REASONING

DIRECTIONS:

Solve the following problems. Put your answers on the blank lines on your answer sheet under the title "Test VII."

1. A boy planted three rows of seeds, putting eight seeds in a row. How many seeds did he plant?
2. How much will a cook pay for $3\frac{1}{2}$ gantas of rice costing P0.16 a ganta?
3. A man had P750.35 in the bank. He withdrew P115.50 at one time and P12.75 at another. How much money had he left in the bank?
4. A Chinese merchant sold 600 salted eggs at 2 for 9 centavos. How much did he receive?
5. Mario and Justo each invested P80.00 in business. If they gained P28, what was Justo's share of the gain?
6. A merchant bought 350 kilos of sugar at 26 centavos a kilo and sold it at 30 centavos a kilo. What was the amount of his profit?
7. A teacher received P50 as his salary per month. Then he was promoted in position and given a ten per cent increase in salary. What was his salary per month after he was given the increase?
8. A boy, after spending $\frac{3}{4}$ of his money, had 5 centavos left. How much did he have at first?
9. If a boy can ride a distance of 3 meters in $\frac{1}{2}$ second, how far can he ride in 10 seconds at the same rate?
10. A young man worked for a year at P35.00 a month. He paid P16.00 a month for his board, and his other expenses for 12 months amounted to P96.00. How much money had he saved at the end of the year?
11. A lawyer bought an automobile at ten per cent discount. Its price without discount, was P1,750.00. How much did he pay for it?

Test VIII.—NUMBER RELATIONSHIP

DIRECTIONS:

Below are seven rows of figures each of which contains six numbers. In each row each of five numbers is made up or formed by adding or subtracting a certain amount to or from the preceding number; or by multiplying or dividing the preceding number by a certain amount. One number in each row is wrong because it is not obtained in the manner just explained. Find that number and write it on the answer sheet.

Samples:

(1)	1	2	3	4	5	9
(2)	10	9	8	7	99	5
