Char. Educ. 10th y. book Sept. 9. Supt. pp. 348-9

Suggestions for Use of Char. Educ. Tests.

1. A battery of twenty to thirty measures may be selected to be appropriate to the local situation & to be a representative sampling of many phases of character. This may battery may be given to all the pupils in certain grade tried out for a year or two and the tests repeated to observe differences in progress. This will require ten to twenty five hrs. of pupil time, and should be attempted only with expert supervision & guidance.
2. Tests may be chosen and created with reference to some one phase of character; for example, liberal international outlook, which it is desired to develop.
3. Test may be used to discover persons in special need of help and attention. Group tests showing individuals who are unhappy, are ready to admit symptoms of maladjustment.
4. Tests similar to those just mentioned may be repeated from year to year to show the changes produced by some system of counselors, sponsor, advisers, psychologists, or clinics, which has

AMERICAN SCHOOL of PHOTOGRAPHY

Personalized home study training

in modern professional photography

CHICAGO.
3601 Michigan Ave.

"First Plan Your Career;
Then Work Your Plan."

From
L. L. Menne, President
American School of Photography

Since you gave me the opportunity to send you our booklet "Opportunities in Modern Professional Photography" and to tell you about our personalized method of home study training in Modern Professional Photography, I have been awaiting your enrollment, but so far it has not arrived.

Now, it may be I did not make everything clear to you. Therefore, I want to write you again today.

In considering Photography as a career, and our Course in Modern Professional Photography, I want you to bear in mind these points:

1. No previous experience is necessary.
2. A common school education is sufficient.
3. We use no text books.
4. Your Lessons are all practical, based upon the "learn by doing" method.
5. This School was founded in 1922 and is the original home study school in Photography.
6. Every step in your training is directed and guided by Experts.
7. You can enroll for only \$5.00--then only \$5.00 per month.

I am sure it is needless for me to tell you about the opportunities in Photography. It is an industry which has grown by leaps and bounds until today it ranks as among the foremost in the country.

Our method of training is very much like going with a large up-to-date Studio in Chicago or New York to learn Photography from the ground up. If you had such an opportunity to learn Photography, undoubtedly you would grasp it.

No time is wasted in this Course, taking you through a lot of dry theory and red tape. Instead, we have adopted a more practical method. From the very first Lesson you are put right to work handling Photography. You are instructed in developing, vignetting, double printing, sepias, enlargements, water colors, oil colors, retouching--in fact, all branches of Photography too numerous to mention here. This practical work is simple to begin with, but as you progress, this work increases in importance, and when you have finished the Course, every phase of Photography has been covered from simple Kodak developing to Motion Picture Photography and the highest grade of Portrait work.
