BUREAU OF POSTS

FROM THE DIRECTOR

San Carlos, Occ. Negros,
December 22, 1931

SIR:

The Director of Posts,
Manila

Sir: RE: SAID

Due to the complains of the renters of the lock boxes that their mails are not at once distributed in their corresponding boxes upon arrival of mails in the afternoon, I have the honor to request that 2 more electric bulbs to be installed for the use of the postoffice lock boxes, telegraph table and my table. My table the telegraph and the postoffice lock boxes are separated on a dark corner. (See Sketch)

The lights used by this office only 2 electric bulbs at 25 watts each, and are used by the 2 operators in charge of registers and mailing section. Our work upon arrival of mails from 4:35 p.m. lasted to 8 p.m. including the revision of mails for transit for the Eastern Visayas and Western Visayas and for Manila. The distribution of mails for the lock boxes are made as soon as all mails sorted and the light is transferred. Same thing with the one used in the registers that if there is a telegram his work will first stop. My entries and balances of the closed of the days transactions are also made after we have finish the mails or in the following morning.

In view of the above it is requested that a total of 4 electric bulbs will be use in this office with an increase of lights at 40 watts each, because the operators are complaining also the 25 watts are too dark and oftentimes they missent letters and registers.

Very respectfully,
