official candidate for representative if a voter writes the name of Young Philippines in proper space for block voting his vote is only for the candidate for representative of said party and the voter may if he so desires write in the space intended for voting individual candidates names of candidates for President, Vice-President and Senators he desires to vote for as Young Philippines has not candidates for said offices. Likewise if voter writes Ganap in proper space for straight party voting he may if he so desires write in the corresponding space for voting individual candidates name of candidate he desires to vote for Vice-President because Ganap has no official candidate for Vice-President. These same rules apply in cases where parties have no official candidates for office of Representative.

Matter of appreciating ballots cannot be guided by hard and fast rule.

Peculiar cases are bound to arise which are neither covered up in the rules provided in the law nor in the instructions given by this Commission. Foregoing instructions are intended to facilitate boards election inspectors in arriving at decision in any case not provided in the law but in most cases solution of problems will depend much on the fair and impartial judgment of boards election inspectors.

Considering that a ballot invalidated amounts to disfranchisement, care should be taken not to declare a ballot spoiled or invalid except where intention of voter cannot be ascertained by prescribed rules and instructions or when it is manifestly marked or identified.

Respectfully,

(SGD.) F. IMPERIAL RUYES

Deputy, Commission on Elections

PROVINCE OF CEBU

November 15, 1930.

Sir:

The council of this municipality is contemplating to amend ordinance No. 10, series of 1920, basing the fact that the classifications of rates imposed in the said ordinance is not justifiable. It being the case, that the barrios classified as first class are practically alike as compared with those barrios classified as second class.

In view hereof, an opinion is requested as to whether or not the council can legally amend said ordinance by abolishing the classifications and substituting instead a rate of P 75.00 per quarter for all the barrios including the Poblacion.

Ordinance herein referred to is enclosed herewith for your information.
