SUBJECT: Result of Investigation Re-E/M and Officers who left their
Command at Camotes.

TO : TAG

1. Enclosed herewith are reports of investigation conducted
by Capt. Sievert, 1st Lieut. A. Delfino and 2nd Lieut. R. Villa.

2. In the report of Capt. Sievert and 1st Lieut. A. Delfino
the E/M advanced the following reasons:

a. That they were not given clothing and equipment as
promised.

b. That they were not paid from November to December, 1944.

c. That their dead and wounded were not pick up from the
place of encounter because the Task Force Commander refused
to give aid and transportation. This act of the C.O. of the
Task Force Command caused a general feeling of disappointment
among the E/M.

3. Finding of Lieut. Rufino Villa disclosed the following:

a. That Lieut. Vicente Lopez inform his men to move out
from Camotes without order from his Commanding Officer. On
February 4, 1945 at about 9:00 A.M. Lieut. Vicente Lopez ordered
one Pvt. Gozon and the rest of the Hq. & Hq. Co. to gather all
their things to the seashore and loaded them in the banca. (See
Report of Lieut. Villa attached)

4. Recommendation:

a. In my study of all the reports and affidavits submitted
it appears that the men who went away were poisoned by the act
of Lieut. Vicente Lopez, he being an Officer and C.O. of the
Hq. & Hq. Co. 2nd Bn. If not that Lieut. Lopez acted in this
manner all the men will stick in their post.

More affidavits and statement are being taken from the
E/M as soon as everything are ready charges will be filed
against Lieut. V. Lopez. As it is now it looks as if he is
the root of the walk out. Lieut. Lopez should be Court-Martialed.

La Asamblea, por unanimidad, aprueba dicho reglamento, con enmienda en el artículo 5.º del mismo, en vez de tres minutos sean cinco minutos.

El Sr. T. F. Fenix, presidente de Caybiran, presenta á la Asamblea el siguiente proyecto de resolución:

POR CUANTO es un caso notorio, el que casi la mayor parte de los municipios, tienen sus cajas exhaustas, de dinero, por falta de ingresos;

POR CUANTO aún cuando existan dichos ingresos, no alcanzan á cubrir los gastos ordinarios del municipio;

POR CUANTO en la mayor parte de los municipios, es necesario emprender obras municipales de imprescindible necesidad.

POR CUANTO muchos barrios carecen de escuelas y de maestros por no alcanzar los fondos escolares;

POR CUANTO también es notorio que muchas provincias carecen de fondos para atender á los muchos gastos, que el público tiene derecho de exigirles;

POR CUANTO el tanto por ciento de rentas internas que en la actualidad se destina para las provincias y municipios, son muy reducido;

POR TANTO á la Hon. Asamblea de Presidentes sugiere que á su vez haga á la Legislatura Filipina, recabando la reforma de la Ley de Rentas Internas, de modo que á las provincias se les conceda el 15% y á los municipios el 25% de Rentas Internas, repartidos como sigue:

- (a) El 10% para fondos escolares.
- (b) El 15% para fondos generales.

EL PRESIDENTE. Se somete á la deliberación de la Asamblea el anterior proyecto de resolución del Sr. de Caybiran.

Sr. ESPLANADA. Pido que se repita la lectura del anterior proyecto de resolución.

EL PRESIDENTE. Sírvase, Sr. Secretario leer otra vez el proyecto del presidente de Caybiran.

(El Secretario lee de nuevo dicho proyecto).

Sr. ESPLANADA. Me opongo á dicha resolución por estar ya reformada la Ley de Rentas Internas, objeto de la misma, y propongo que se cumpla tal como dice la Ley.

VII. DRAWING AND REPRODUCTION STORIES (FOR GRADES I AND II)

Have stories from educational magazines. Mount each of these stories on cardboard. Distribute them to the class, and let each pupil read the story and draw a picture which will suggest the story to the minds of the other members of the class. As each pupil is called upon, he holds his picture before the class. The one who guesses the story represented by the drawing is allowed to tell the story. At other times, the pupils may be allowed to exchange pictures. Each one must interpret the drawing that he receives. If one cannot be guessed, the pupil who drew the picture relates the tale that he failed to represent clearly.

VIII. CORRECT TALK CLUB.

Organize the class into a "Correct Talk Club". When one pupil hears another use an incorrect expression, he says "C.T.C." Thereupon the other pupil quickly corrects himself, if he knows what the error is. If he does not, the pupil who says "C.T.C." tells him. In the class or during study period, he cannot say "C.T.C.", but quietly writes the name of the other pupil, the sentence in which the mistake occurred, the date, time and place in which the mistake was made, and slips the piece of paper into a box on the teacher's desk. Then on Friday, during the language period, all these slips of the tongue are corrected by the class.

GAMES AND DEVICES FOR THE TEACHING OF GEOGRAPHY

I. HOW TO MAKE SALT MAPS.

Draw the outline of a map on art paper and cover it with the following mixture: Four teaspoonfuls of salt, three of flour; mix well in a dish or tin-pan; moisten to consistency of thick paste for spreading. Place it in a warm spot and allow it to dry. For mountains, pile the paste to the desired height and let it dry, or apply a second treatment when the first coat has become solid. This mixture dries out beautifully white, and when rivers and lakes are marked on it with red ink, the study of physical features is a pleasure to the pupils. Prepare one set of maps at a time, as the mixture cannot be used after it dries in the pan.

II. HOW TO MAKE CORN AND CORN STARCH MAPS.

Take one pound of corn starch and two quarts of salt. Moisten the starch with a very little water and heat the salt. Then mix the two together and bake until thick enough to mold. After moulding, wrap in a damp cloth until wanted. Then hands should be kept wet while working the mixture. Draw an outline of the map on heavy cardboard and cut out, cover this with the mixture, and put on the elevations. When done, the map may be baked until dry, or it will dry of itself if left undisturbed for twenty-four hours.

III. HOW TO MAKE SAND MAPS.

Take a piece of cardboard of the desired size, and on this draw or trace an outline of the continent to be taught. Over the outline spread a thin coat of mucilage. On the mucilage sprinkle fine dry sand and work it well into the mucilage. For mountains and highlands spread on more layers of mucilage and sand until the proper relation between the highlands and the valley is shown. Place in the sun to dry. When dry, it may be displayed on the walls of the schoolroom. If the mucilage spreads, trim it back with a sharp knife.

IV. HOW TO MAKE PULP MAPS.

Tear newspapers into small pieces and fill a wooden pail nearly full. Do not use a tin pail as tin will rust and discolor the pulp. Pour over the paper enough boiling water to cover the pieces, stirring all the time with a stick. Stir it occasionally for a few days until it is reduced to a pulp. When using, squeeze the pulp dry enough to be easily used.

The cards are then passed out each pupil receiving one. After the children have silently read their cards and received any necessary help with new words, the teacher permits them to build up the story. The child who thinks he has the title of the story stands in the front of the room and exposes his card to the class. The one who thinks he has the first sentence of the story then takes his place beside the pupil with the title and exposes his sentence for the approval of the class. All pupils look at their cards again, and the one who thinks he has next sentence stands, and so until all the cards are exposed. The entire story is then read orally, each one reading his sentence in turn. If any errors have been made in placing the sentences, the pupil will discover it at this time. In such cases, the sentence should be replaced and the story read again.

IVIII. COMPLETION EXERCISES.

The teacher prepares a set of cards, writing on each card a series of sentences with one word missing in each sentence. The children copy the sentences and supply the missing words. If twenty-five different cards are prepared, they can be used on 25 different occasions, the same individual using a different card each time. If the cards are numbered, it will be easy for pupils to keep a record of the cards they have previously used.

IX. MATCHING NAMES OF OBJECTS WITH THEIR COLORS. (Grades I & II)

The teacher selects appropriate names of objects from the reading lesson and writes them in list on the blackboard. The pupils copy the list and opposite each word they draw an oblong and color it according to the object represented. For instance, if the word is "banana" they make a yellow oblong and so on. The result may be checked and scored for the purpose of ascertaining the winners.

X. MATCHING HEADINGS AND PARAGRAPHS. (Grades IV - VII)

The teacher prepares large mimeographed sheets upon which are written a series of number paragraphs, together with disarranged lists of appropriate names for them. The children read through the first paragraph, select the appropriate title, and writes on a separate sheet or piece of paper the number of the paragraph and opposite it the corresponding title. This is repeated for the second paragraph, and so on may be used for the purpose.

XI. RELATIONSHIP GAME. (Grades IV - VII)

The teacher writes on the board or on cards several numbered lists of words. Each list consists of two words bearing a certain relationship to each other (as milk, bottle) followed by a series of words in parenthesis, among which are two other words having the same relationship as the first two.

The children copy all the words and underline the two in the parenthesis which bear the same relationship to each other as the first two words in the line.

The usual scoring process may be used if desired.

XII. PAIRING SENTENCES THAT HAVE THE SAME MEANING. (Grades IV - VII)

The teacher prepares mimeographed sheets upon which are a series of numbered sentences. These sentences are to be paired off in groups of two having the same meaning. One of each pair may be selected from the class textbooks and its equivalent may be composed by the teacher. For instance, in a set I given below, the sentence, "She could scarcely believe her eyes", means the same as the sentence, "She found it hard to believe that it was true"

The children read through the sentences and copy them in groups of two putting together those having the same meaning.

Mr. Jimenez;

The attendance of grade one pupils in Doos is getting very low, according to information from Mr. Fulvadora received this morning. He wants to be advised as to whether the grade one pupils will be still required to come to school ~~at~~ although they do not have yet a teacher. Mr. Fulvadora told me that the children are only making noise because no teacher can watch them all the time.

We wish to be informed if the attendance of grade one pupils every day from the time Mrs. Fulvadora left, would be entered in the form I and Form II.

very respectfully,

Miguel Igana

Authority of Postmaster
to Make

The postmaster-operator, or operator-in-charge of a postoffice is hereby authorized to pay any of his employees, who is ordered transferred to another station, the earned salary of the said employee to the date he leaves for his new station without the necessity of securing the authority of this office. The postmaster should, however, pay only the amount corresponding to the days on which the employee actually worked, making deductions for absences and for other cases for which deductions should be made. He shall secure a receipt for the payment, remitting the same by first mail to this office as fund, together with certified copy of the order of transfer.

Immediately after such payment has been made, the postmaster shall advise this office by telegraph of the amount paid and the corresponding period of service covered by the payment.

Strict observance of these requisites is hereby enjoined, and any deviation therefrom resulting in overpayment renders the postmaster at fault answerable for the amount overpaid.

Note. - Most of the sections of linemen are arranged in such a way that it should not take more than two days to patrol them both ways. The recommendation should be sent through their respective post-office inspectors.

SUBJECT: Careless driving, Complaint against

TO : The C. O., 864th Engineers, U.S. Army
(Thru Channels)

1. At 0715 hours yesterday, 23 Feb 45, when the undersigned and his party composed of Capt. B. V. Abarientos, on the wheel, Lt. J. E. Dolorico, and two enlisted men were riding in a jeep between Tanauan and Palo just before the approach to San Joaquin Bridge (a one way bridge) an American who gave his name as Pvt. Jones of the 864th Engineers, driving a 2 1/2-ton truck with a trailer, in spite of heavy traffic, passed us very closely by, just so he could be ahead of us in crossing the bridge. The trailer brushed against the sides of our jeep, almost toppling it over the swamp. This would have injured or killed the riders.

2. Request that proper action be taken in this case.

At present they are with the 2nd Bn., 95th Inf working ever since the inception of the guerrilla but without Special Orders. 1. Forwarded are the investigation papers and the recommendation of the investigating officer relative to the cases of the men arrested and disarmed in sitio Daan Paz, barrio of Sta Rosa, Poro.

2. A radio message was sent to the CO, 94th Inf, requesting investigation and verification of their conducts and behaviors in the barrio and town where they came from. They admitted that they were former members of Miranda Guerrilla and as such their standing in the community is open to suspicion.

3. Pending the receipt of the reply of the CO, 94th Inf, I recommend that they be kept in confinement. The VGs are still gathering evidences regarding their abuses committed here in the barrios of Poro.

Subject: RECOMMENDATION AND FINDINGS

To : THE COMDR, 3RD BN, 94TH INF, 92d DIV., PA

1. Four of the six detained men who are the Lumapas brothers of Binoljo, Albueria admitted they were once Vol. Guards of Miranda.

2. They came to Daan Paz, Camotes for the purpose of buying chickens, pigs, cattle to be sold by them to the owners of restaurants in Binoljo. Jose Lumapas is the leader of the band, and according to him he used to come to Daan Paz because he has a brother there who is married, Margarito. They came partly to Daan Paz to be on time to attend the celebration of the birth day of one of Margarito's daughter. This statement is corroborated by Margarito himself.

3. They admitted they brought with them arms because according to him Camotes is still a very dangerous place. They obtained arms from the Americans while in Ormoc in exchange for souvenirs. With these arms they fought with Japs in Binoljo.

4. Practically the statements made here by Jose Lumapas the leader are corroborated by the rests like Navarero and Otero. They mentioned a few prominent people of Binoljo and Albueria who could vouched for them.

5. Based upon the findings, I am of the opinion that these men are and do not belong to the dangerous elements of Ormoc. I am in favor of their release, and I recommend it, upon presentation by themselves respective personal guarantors.

2. It is informed that said enlisted man in spite of his being dropped of records, still continued rendering his services with "I" Company until the present. It was also noted that his being separated from the organization was due to the fact that he could not gain information as to the exact location of his unit due to the mopping up operations of the enemy during the months of January up to March 1944.

3. After having been discharged, he still went with his company in several encounters against the enemy and he also rendered his duties faithfully up to the present hence, his reinstatement is strongly reiterated.
