BUREAU OF EDUCATION
Division of Zamboanga

Zamboanga, September 26, 1941

DIVISION MEMORANDUM
No. 33, s. 1941

SITE AND BUILDING REQUIREMENTS BEFORE OPENING OF NEW OR
ADDITIONAL CLASSES

To Supervisors and Principals:

1. In order that this division can meet the requirements before the opening of new or additional elementary classes, the following are hereby cited from B. E. Memorandum No. 39, s. 1938:

By standard site is meant a site of:

- (a) One-half hectare for a barrio school which has only one or two classes and no grade above Grade II.
- (b) One hectare for a central school which has not more than four classes or for a barrio school which has from two to four classes.
- (c) Two hectares for schools which have from five to seven classes, inclusive.
- (d) Three hectares for schools which have from eight to ten classes, inclusive.
- (e) Four hectares for schools which have more than ten classes.

2. To determine the size of sites needed, the following portion of B. E. Memorandum No. 23, s. 1941 is also cited:

- (a) For the purpose of determining the size of the site needed, two primary classes (of 20 to 40 pupils each) under the two single session plan will be considered the equivalent of one class under the double-session (old) plan.
- (b) As a general rule, valid deeds, either conditional or unconditional, should be required for a site before a new class is opened. However, when the Division Superintendent is convinced that a standard site can be secured within a reasonable time after the opening of the new class, he may waive this requirement.
- (c) Where it is impossible to secure a standard site within a reasonable distance of the center of population because of topographical obstacles, the Division Superintendent may authorize the class or classes to be opened after he has satisfied himself that the site secured is the best available.
